HEALTH REPORT IS SUBMITTED TO CITY

(Continued from First Page)
authorizing the reappointment of the old members of the board Superintendent Bowman also presented the annual report of the Board of Health and Dr. Raunick, the city health officer.
The report is a voluminous one and is probably the most complete document of the kind issued in the five years of the board's existence in that it contains tables of statistics of deaths,

births, contagious diseases and many other matters connected with the department. Here are some of the important recommendations:
Further and better changes in the Central high school so as to relieve present unsatisfactory temporary conditions for housing and instructing pupils under dual session plan.
"Carrier" Isolation
Prompt isolation, even if but rarely possible in private homes, of the so-called disease "carrier," the person suspected of carrying disease germs about on his person or clothes. Co-operation of family physician with department in promptly reporting cases meriting dismissal from school by school inspectors.
General overhauling of sanitary hospital; regret that no municipal

loan providing for new structure was passed.
Urgent need of a county workhouse to care for tramps and others who heretofore occupied the old lockup under the Court-house and which had been closed by order of the Board of Health because of its unsanitary condition. The recommendation for the erection of the workhouse is made to the County Commissioners.
Importance of considering community contagious disease rate as well as community health rate; question of individual as well as community economics involved; results obtained by proper enforcement and obedience to quarantine regulations.
Creation of office of contagious disease nurse; benefit to establishment and maintenance of quarantine in the way of advice and friendly tips to family, etc.
Necessity of visit by nurse to homes of children absent for several days in connection with the school inspection.
Thirteen poor district physicians of city appointed by Poor Board to be adjunct of city Board of Health.

Boost Boy Scouts
Boost for Boy Scouts particularly and co-operation of the public generally in conduct of annual Fall Clean-Up Week.
Creation of office of social service nurse as a feature in aiding in the reduction of infant mortality by co-operation and education along the proper lines in the upbringing of babies.
Inspection and regulation of restaurants, bakeries, ice cream and candy establishments.
Similar supervision and inspection of barber shops, cigar factories, etc.
Imperative needs for additional working force.
Imperative need for increased appropriation Harrisburg per capita expenditure last year, according to government census sta-

statistics, was below average per capita cost when compared with other cities of same class.
Division of milk and meat inspection, plumbing and building inspection recommended; more closely allied under broader heading of bureau of health and sanitation with bureau chief in charge.
Abolition of the Department of Milk and Meat Inspection and creation instead of a department of health and sanitation; the new department to be provided with a chemist to make necessary bacteriological examinations.
Closer co-operation of building inspection department with department of health and sanitation; early and radical revision of building code; assistant to plumbing inspector; sealer of weights and measures to include inspection of market places.
Physician to board at regular salary to insure regular service and not only during smallpox outbreak.
In addition to discussion of these recommendations in full in its report Dr. Raunick goes into details as to financial, health, contagious disease and innumerable other statistics.

sanitary and garbage violations, \$1,263.14; milk and meat inspection, licenses, fines, etc., \$2,490; plumbing inspection, registrations, examinations, etc., \$79.75; a total of all receipts of \$3,842.89.
Fifty-eight prosecutions were made during the year, five of which were civil proceedings, the city winning four and losing one; of the other fifty-three seven were for quarantine violations, eight for milk violations and thirty-eight for other sanitary violations. Fines amounting to \$245 were imposed.
Results of Tests
In discussing the results of the ice cream investigation and bacteriological tests conducted by the department Dr. Raunick says that thirty-six samples were tested.
"As a result of our investigation," says he in this connection, "we would recommend that all places where ice cream is made or sold be licensed and subjected to regular inspection."
During the year 30,796 loads of ashes, 5,416 loads of garbage and 848 dead animals were collected by the Pennsylvania Reduction Company, the city garbage contractor.
In reporting upon vital statistics Dr. Raunick states that the total number of deaths in 1913 was 958, as compared with 956 in 1912; 95 of these were nonresidents in the hospitals; based on the estimated population of 69,079, the resident death rate for 1913 is 12.49 per 1,000, as compared with 13.69 per 1,000 in 1912; total number of births, 1,382, an increase of 44 over last year.
In a dozen or more interesting tables Dr. Raunick sets forth how Harrisburg stands among other cities in vital statistics, the detail of deaths and births by days and months, the causes, etc.
In conclusion the report of the Board of Plumbing Inspectors is appended. Plumbing Inspector P. J. Bradley reports that plans and specifications for 325 buildings were carried over from 1912; during 1913 plans and specifications for 805 buildings were received, making a total of 1,130; of this number 803 were ap-

proved, leaving 327 yet to be decided upon.
TO URGE PEACE IN MEXICO
Brussels, Belgium, Jan. 20.—The International Peace Union, whose headquarters are here, is arranging to ask all the peace societies of the world to send telegrams on the same day to Provisional President Huerta and to Venustiano Carranza, the Constitutionalist leader in Mexico, requesting them to agree to an armistice, "pending which their rival claims and the real interests of Mexico shall be submitted to arbitrators."
JOHN MITCHELL SLATED AS ELLIS ISLAND CHIEF
Washington, D. C., Jan. 20.—John Mitchell, second vice-president of the American Federation of Labor, is probably the next Commissioner of Immigration at New York.
FRENCH MINISTER TO PROTEST
By Associated Press
Paris, Jan. 20.—The French foreign office to-day instructed the French minister to Mexico to protest to Provisional President Huerta against the suspension of the payment of interest on the Mexican public debt.

COLGATE'S RIBBON DENTAL CREAM

Safe, efficient, delicious—profit by its regular twice-a-day use.
COMES OUT A RIBBON—LIES FLAT ON THE BRUSH

Buy it at your dealer's

"CASCARETS" IF COSTIVE, BILIOUS, HEADACHY AND UPSET—DIME A BOX

No odds how much your head aches; how miserable you are from constipation, indigestion, biliousness, a "casca-ret" to-night straightens you out by morning.
Clean your stomach, liver and bowels to-night; end the headache, biliousness, dizziness, nervousness, the sour, gassy stomach, backache and all other distress; relieve your sluggish liver and bowels of all the sour bile, gas and clogged-up waste which is producing the misery.
A 10-cent box of Cascarets keeps your head clear, stomach sweet, liver and bowels regular and you feel buoyant for months. Don't forget the children—their little insides need a gentle cleansing, too.
