Prevent Diphtheria.

A sore throat is a good breeding place for Diphtheria germs. Protect your children by never neglecting a Sore Throat. You can wisely depend upon TONSILINE. Give Tonsiline upon the first appearance of Sore Throat—don't give Diphtheria a chance in that throat in its weakened condition. When TONSILINE is swallowed it comes directly in contact with the diseased surface and induces a healthy condition of the membranes—then the system can better defend the throat if attacked by Diphtheria germs. Keep TONSILINE in the house where you can get it quick when needed. 25c., 50c. and \$1.00.

Rheumatism

in all of its forms is quickly relieved by medical baths. The crystals of uric acid lodge in the small blood vessels causing congestion with resulting pressure upon the surrounding nerves. This causes the excruciating pains of rheumatism.

SULPHUR VAPOR BATHS

create a better circulation of the blood thus helping to dislodge these crystals which by these baths are eliminated along with other impurities through the pores of the skin.

A few baths a week for several weeks will in a case of long standing bring results; if you do not insist upon doing those things which will cause more rheumatism. Studio open 8 A. M. to 10 P. M. Health Studio 207 Walnut St. Phone 2102R. Lady attendant
