stood, that the noisy demagogue who eemed enthroned at Washington has had his little day and that sane men are to be given a place in the counsels of the nation. Instead of the ripping apart of the very fabric of industry and prosperity there is to be punishment only for those guilty of actual plations of law and no tearing down

of the whole business structure. Let us hope that the age of reason has returned and that hysteria has ed away for good. Trust busting and the baiting of legitimate industry in the name of industrial reform have given the nation such an attack of

insomnia that months will be required to restore the contentment and peace which are necessary to a country' welfare. As suggested by the Philadelphia Public Ledger, the "order of the day

has changed; the puerile stage has passed; the demagogues have had their holiday rout and sober men in all parties representing nearly all activities and conditions in life will try. let us hope, to find a remedy for real evils in an orderly, sane and reasonable attempt to aid the nation, its business and its people."

front." Speaker George E. Alter, of Alle-gheny county, who was here yesterday to make the argument for the railroad brotherhoods at the hearing before the Public Service Commission, comes from the Cumberland Valley a couple of generations back. Mr. Alter's an-cestry is Swiss and German and his ancestor came to Philadelphia a few years after Penn. One of his sons moved into the Cumberland Valley and the station of Alterton, near New-ville, attests the name. Mr. Alter's grandfather moved to Alleghny county in 1800 with a number of other people from this section. On his mother's side he comes from the well-known Lancis family of Lancaster, which has been in this country for a couple of centuries, so that he is a Pennsylvanian through and through.

of health regulation in Harrisburg has there been presented such a carefully prepared or comprehensive document. It is replete with suggestions for improvements, and if all of them are given consideration Commissioner Bowman and the reappointed Health

will have ample to occupy Board their attention for the remainder of the year.

Three or four of Dr. Raunick's suggestions are so manifestly in accord

with the needs of the city that they are deserving of prompt attention. He lays stress upon the importance of creating the office of social service have approved President Wilson's Trust nurse, whose duties would be the edu-cation of mothers in the care of message

babies, to the end that the lives of many little ones now needlessly sac-rificed may be saved. Beyond question there is no more important phase of the great conservation movement

now occupying so extensively the ought of the public than that pertaining to the preservation of human that Dr. Raunick is right when he says that hundreds of babies die annually because of the ignorance of parents. The Visiting Nurse Associa-tion, the Sunshine Society and other organizations have done a good work and the community's good. Let the bell ring! along this line in the past, but the city should not permit a public duty is pool. Let the bell ring! Shamokin is engaged in an anti-rum crusade. The temperance cause is cer-tainly progressing when a coal region town is able to conduct a "dry" cam-pointment of a nurse whose especial care shall be the welfare of the babies.
