EIGHTH SECTION

STATE FIELD SERVICE IN COAL REGION IN 1900 AND 1902

(Continued)

Adjutant General Stewart and General Gobin Pay High Compliment to Guard

Adjutant General Thomas J. Stewart, in his report on the work of the division, paid this compliment to the officers and men of the National Guard of Pennsylvania:

"To call men away from their various professions, businesses and employment, without warning or an opportunity to make arrangements for so prolonged an absence, required a great sacrifice on the part of many officers and men, yet this sacrifice was willingly made, and the people of the Commonwealth are under lasting obligations to the National Guard of Pennsylvania, for the restoration of peace and order, the emphasized efficiency of law, and security and protection of life and property. No pops in war or out of war ever performed their duty better. Nor was any ever more exacting. It required the keenest judgment, the highest conception of duty, and the best abilities of citizenship."

General Gobin's Commendation

Brigadier General J. P. S. Gobin, who was in direct command of the troops during the three months' service from July 30 to October 31, in his report on the work of the officers and men of the National Guard of Pennsylvania, said: "I can only commend, in general terms, the soldierly conduct of the officers and men of this command during the entire term of service. They maintained the dignity of the Commonwealth and their reputation as soldiers to a most satisfactory degree. Paying no attention to threats and criticisms, they obeyed orders, and the result was satisfactory in every phase and entitles them to the commendation of all order-loving citizens. Not a single serious case of infraction of rules, or violation of discipline, was reported. Amid the many serious problems they were required to face, I cannot but regard their conduct as most exemplary."

Movement of Companies D and I to Scene of Great Strike Riots at Shenandoah

Companies D and I were called out about 2 o'clock in the morning of Jan. 21, 1902, and left Harrisburg at 4 o'clock for the Philadelphia and Reading railroad on a train made up of an ammunition car and a car carrying the canvas for the Eighth Regiment and passenger coaches for the men. After making a very fast run by way of Reading, the train arrived at Shenandoah about 9 o'clock the morning. Details were immediately sent to different parts of the camp, where the most disorder had broken out. After the excitement had subsided and the town became quiet, the two companies, with the regiment, went into camp on the base-

LOCAL DRUGGIST MAKES MANY FRIENDS

George A. Gorkas reports they are making many friends through the SICK benefit which Harrisburg people receive from the simple mixture buckthorn bark, glycerine, etc., known as Adler-1-ka. This remedy came famous by curing appendicitis and it is the most thorough bowel purger known, acting on BOTH the upper and lower bowels. JUST ONE Dose of Adler-1-ka relieves constipation and gas on the stomach almost IMMEDIATELY.—Advertisement.

MILK INSPECTION DECREASES DEATHS

Vigorous Fight Against Bad Product Resulting in Great Good to the City

Milk inspection and the raising of standards of milk production in the city has decreased the percentage of deaths among infants from disease due to bad milk by 100 per cent. since 1911. In 1913 there were 21 deaths among infants under 2 years from gastro-intestinal disorders directly due to bad milk. This is 10.8 per cent. of the total number of infants who died during the year. The record for this year is remarkably low. Last year there were 31 deaths from intestinal disorders out of 297 deaths of children under 2 years. This means that 10.8 per cent. of the deaths among children are due to bad milk supply. For the year preceding, when the milk inspection had hardly begun to be effective, the percentage of infant deaths was 22.5 per cent.

The death rate in these two years of infants from this preventable cause has dropped from 22.5 per cent. to 10.8 per cent., practically 120 per cent. decrease in the death rate. Dr. Henry R. Douglas, who took charge of the department a year and a half ago, is now reaping the results of his educational campaigns and his vigorous fight against bad milk. During the past year the milk itself has shown the result. Of the 1,033 samples examined 707 were below the winter standard of 500,000 bacteria per cubic centimeter. Of this number 591 samples, or 57 per cent. of the whole number, were under 250,000 bacteria, and 273, or 26 per cent., were under 50,000.

Dr. Douglas is his report advises that the best protection against bad milk would be the labeling of all milk with the rating given the producer by the department. Thus detective duty and inspections would be unnecessary and the bad producer would be eliminated.

MIDNIGHT PROWLERS TO BE BARRED IN INDIANAPOLIS

Indianapolis, Ind., Jan. 22.—Midnight is to be the dead line for respectability in Indianapolis, is the order issued by Mayor Perry, who is breaking up of one camp and erecting of another. The troops entrained about 1 o'clock p. m., and went over the Lehigh Valley railroad, arriving at Duryea about 7 o'clock in the evening, too late to pitch tents in that kind of weather. The company was quartered for the night in an old empty company storehouse, which did not afford much protection on account of the leaky condition of the roof. The men would find a dry place to lie down, but in a short time water would run under and around them, and there was not much sleeping done that night. The men were anxious to get into their comfortable tents, but the rain continued all night and did not cease sufficiently to start work until after 9 o'clock in the morning. It was a big job to get the tents and supplies out of the cars and the camp erected, but it was finally accomplished.

The most difficult part of work of this kind and that which gave the most annoyance to all was the preparation of the commissary. With wet wood and water-soaked ground, the cooks had troubles of their own, but as soon as that branch of the outfit got working right, everybody was happy. Duryea was then a town of about 1,500 inhabitants, three-fourths of whom were foreigners of a quarrelsome and disorderly type, many criminals making their homes there. Owing to its bad reputation the town was nicknamed "Murder Town." The laws were disregarded by almost everybody in the neighborhood. During the presence of troops at this point the officers of the regiment had the satisfaction of breaking up and scattering a bad crowd called the "Willie Gang" and putting the leader in jail. Very soon the men of the regiment and the better element of the town were on good terms and there was no difficulty in maintaining order after the first few days.

INTERPRETERS IN MIX-UP IN COURT

Simple Little Question of Attorney Moyer Started Something, Alright

When Attorney Phil Moyer in January Court to determine a simple little question at a witness, he started something that several other witnesses in court room, the plaintiffs and the defendants and their friends and President Judge Kunkel had to finish. Mr. Moyer merely asked: "What d'ye mean, the bread wasn't any good?"

The case was issue proceeding brought by Pietro Zirilli against Maritonia Vicchione to determine the validity of a contract for the sale of a bakeshop entered into by plain defendant. As the case wore along the need for interpreters developed. Need of additional service of this character developed when the answers of witnesses weren't interpreted properly. It was charged by friends of plaintiff or defendant. The witness had answered Mr. Moyer's innocent question: the interpreter's interpretation wasn't considered satisfactory. Cooney said: "She didn't say that!" promptly called a friend of the plaintiff. "She did so." "No, she didn't!" from the rear of the courtroom. Finally Judge Kunkel interposed and straightened the tangle by suggesting that the interpreter interpret just what was put to him to interpret. Verdicts in favor of Mr. and Mrs. Abraham Cooper against Mr. and Mrs. William Peters were returned to-day for sums aggregating \$65.42. In No. 2 a jury brought in a verdict for the plaintiff in the suit of P. Cooney against D. H. Tolman. During the morning Judge Henry heard the case of John C. Gill against Harry Eschler, to determine the amount of commission allowable on the sale of a farm.

William Seel Gets Permit

William Seel to be permitted to-day to remodel 306 Market street at a cost of \$2,000.

Realty Transactions

Realty transactions yesterday included the following: W. H. Hendrickson et al., to Charles D. Brehm, Hummelstown, \$375; William S. Harris vs. Maggie C. Ludwick, Penbrook, \$1; F. J. Heiny to Lizzie F. Middaugh, 1707-11 Apple street, \$1; A. W. Swengel to D. A. Lutz, 1227 Swatara street, \$1; Ida B. Ritchey to M. M. Ritchie, 227 Crescent, \$10.

Best Treatment For All Complexion Ills

(From Woman's Tribune.) I'll tell you my panacea for all complexion troubles. If the skin be colorless, sallow, muddy, over-red, if it be rough, chapped, blotchy, or pimply, there's nothing that will so surely overcome the condition as ordinary mercurized wax. The wax literally takes off a bad complexion—absorbs the dead and near-dead particles of skin, leaves a new complexion in its place. One clear, spotless, delicately soft and beautiful, you look many years younger. One ounce of this wax, procurable at any drug store, will rejuvenate even the worst complexion. It is smeared on like cold cream before retiring and removed morning with warm water. The mercurized wax habit is a healthier and more economical one than the cosmetic habit. If the skin be wrinkled or creased, bathe it daily in a solution made by dissolving an ounce of powdered salicylate in a half pint witch hazel. This acts immediately, affecting even the deepest wrinkles.—Miss Desmond.—Advertisement.

RAISING BIG FUND FOR LEBANON VALLEY

Friends of College, Representing Four States, Plan to Secure \$250,000 Endowment

Special to The Telegraph. Annville, a. Jan. 22.—Tuesday morning at 11 o'clock the trustees and friends of Lebanon Valley College, numbering between forty and fifty members and representing four States, met in the administration building for the purpose of raising an additional endowment fund for the college of \$250,000. So deeply interesting proved the meeting that the dinner hour went by unnoticed and the meeting did not adjourn until 5 o'clock.

CEMENT PRODUCTION INCREASES

Washington, D. C., Jan. 22.—Production of Portland cement in the United States increased by nearly 10,000,000 barrels in 1913 compared with 1912. Estimates by the Federal Geological Survey to-day shows that the production last year was approximately \$2,406,000 barrels, against \$2,438,096 barrels for the preceding year.

TO SEE TALKIES

The Natural History Society of Harrisburg will have an opportunity to see talking pictures, which will be shown at the annual meeting of the State School Directors on the night before they are shown at the meeting on February 5 and 6. A representative will come here early enough Wednesday to have the pictures ready Wednesday night, February 4, when the society will see them.

RATES OF DISCOUNT REDUCED

London, Jan. 22.—The rate of discount of the Bank of England was reduced from 4 1/2 to 4 per cent. to-day. The rate of discount of the Imperial Bank of Germany was reduced from 5 to 4 1/2 per cent. to-day. The reduction was due to the improvement in the monetary situation both here and abroad and to the settlement of the South African general strike.

TO LECTURE ON "BROWN"

A lecture on the "Past and Present of Brown University" will be given in Technical High School auditorium on Friday evening, January 30, by Professor John Francis Green, of the university faculty.

HAS APPENDICITIS

Miss Naomi Bevard, 1322 Green street, a member of the Junior class at the Harrisburg High School, was operated upon at the Harrisburg Hospital, last night, for appendicitis. She is in good condition.

BULLET REMOVED FROM EYE

Frank Kaufman, the 12-year-old boy who was shot in the right eye a week ago by his brother while they were shooting marks was taken home from the Harrisburg Hospital, Sunday. The bullet was removed without injury to the eye.

Women's Confidence in

the efficacy of this thoroughly tried home remedy is never misplaced. In every way—in health, strength, spirits and in looks—women find themselves better after timely use of

BEECHAM'S PILLS

Sold everywhere. In boxes, 10c., 25c.

Make Hairs Disappear Almost Like Magic

(Toilet Tips) Advocates of the electric needle for removing stubborn hairy growths now concede that a simple paste made with powdered delatone and water is fully as efficacious and is devoid of pain, while the cost is trifling. The delatone paste is left on the hairy surface about two minutes and when it is rubbed off all traces of hair vanish. Washing leaves the skin soft, smooth and spotless. Be careful to see that it is delatone you get or you may be disappointed with the result.—Advertisement.

To Keep the Skin Velvety in Winter

The skin is very susceptible to the harsh winds of Winter, yet a complexion of velvety softness and divine fairness is easily attained in the coldest weather by using a plain mayatone lotion. This lotion should be used night and morning after cleansing and drying the skin carefully. It is made at little cost—just dissolve an original package of mayatone in one-half pint witch hazel. This is ideal for banishing sallowness, blotches, skin roughness and all discolorations.—Advertisement.

tinguished and no sign of firebugs.

Moved to Duryea

As the trouble in the Lackawanna Valley became more serious, Company D, with two battalions of the regiment, was moved to Duryea, Luzerne county, on September 20. Camp at Shenandoah was broken during a downpour of rain. The canvas and all camp equipment was thoroughly soaked and muddy, making it heavy and hard to handle. The clothing of the men was also wet, making a very disagreeable two days during the breaking of one camp and erecting of another. The troops entrained about 1 o'clock p. m., and went over the Lehigh Valley railroad, arriving at Duryea about 7 o'clock in the evening, too late to pitch tents in that kind of weather. The company was quartered for the night in an old empty company storehouse, which did not afford much protection on account of the leaky condition of the roof. The men would find a dry place to lie down, but in a short time water would run under and around them, and there was not much sleeping done that night. The men were anxious to get into their comfortable tents, but the rain continued all night and did not cease sufficiently to start work until after 9 o'clock in the morning. It was a big job to get the tents and supplies out of the cars and the camp erected, but it was finally accomplished.

The most difficult part of work of this kind and that which gave the most annoyance to all was the preparation of the commissary. With wet wood and water-soaked ground, the cooks had troubles of their own, but as soon as that branch of the outfit got working right, everybody was happy. No man is Stronger Than his Stomach

LET the greatest athlete have dyspepsia and his strength will soon fail. One's stamina—forcefulness and strength of mind or muscle depend upon the blood, and the blood in turn, requires a healthy stomach, for the stomach is the laboratory where the food is digested and such elements are taken up—or assimilated—which make blood. In consequence all the organs of the body, such as heart, lungs, liver and kidneys, as well as the nervous system, feel the bad effect if the stomach is deranged.

Dr. Pierce's Golden Medical Discovery

helps the stomach to digest food properly, starts the liver into new activity, removing the poisons from the blood, and the various organs get rich, red blood, instead of being illy nourished. The refreshing influence of this extract of native medicinal plants has been favorably known for over 40 years. Everywhere some neighbor can tell you of the good it has done.

Sold by all medicine dealers in liquid or tablet form. Send 50-cent stamps to Dr. Pierce, Invalids' Hotel, Buffalo, and a trial box will be mailed you.

Refuse Cough Syrups Containing Morphine Chloroform, Opium and other Dangerous Drugs.

Cough Syrups and other cold cures containing these habit-forming drugs "dope" the nerves into insensibility and do more harm than good. They give temporary relief only and leave the system in a worse condition than before they were taken. Avoid them—

Insist on Having GOFF'S COUGH SYRUP

—the kind made wholly of harmless herbs; the kind that has been known and used for 40 years; the kind you can give your children with absolute safety. Goff's is the old-fashioned cough syrup. It gets to the source of trouble and quickly and safely loosens and raises the phlegm. For Hoarseness, Coughs, severe or slight Colds, threatened Pneumonia, Croup, Whooping Cough, Grippe or Asthma, Goff's Cough Syrup has proven its value through years of use. All dealers sell Goff's Cough Syrup in 25-cent and 50-cent Bottles. Try one bottle at your Risk. The Dealer will refund the price if YOU say it did you, or your children, no good.
