FIELD MARSHAL FORBIDS

WEARING OF SLIT SKIRTS

Budapest, Jan. 23. — Field Marshal
Fekete, the commander of the garrison here, has issued the following:

"Whereas certain young women have carried their devotion to the prevailing mode to such a pitch as to appear in slit skirts and thus have overstepped the furthest limits of propriety as laid down in the Officers' Corps,

"All military men are commanded to inform the women of their families and all women who are invited to military functions that slit skirts are not permitted."

Those Who Frequent Vice Dens Should Be Punished Most Severely

Driving 328 women from the redlight district of Harrisburg to neighboring towns, in the vice crusade now on in Harrisburg, is not a square deal for the women, in the opinion of the Rev. William John Minges, evangelist, who is preaching at the Church of Christ, Fourth and Delaware streets.

In the opinion of Evangelist Minges, the men who are responsible for the redlight districts should be punished. If driving scarlet women out of Harrisburg brings good results, similar action with at least 3,000 men would bring better results, according to the Rev. Mr. Minges. While strongly advocating the elimination of the redlight districts, Evangelist Minges said:

"Instead of persecuting the fallen women there should be some efforts to show them that there is something in leading a good life. Let the Associated Charities or some other organization look after these fallen women."

Evangelist Minges was of the opinion that there should be a strict law to punish men who frequent vice dens.

Courthouse News

January quarter sessions, surety, nonsupport and desertion court, which will be held Monday mornins, will be one of the largest in years. Nearly sixty cases will be heard. When the criminal trial list was made up forty-four cases were on the ecalendar; since then the supplemental list has been compiled and it shows an even dozen additional causes.

While most of the tales that will be told President Judge Kunkel Monday, will be stories of family rows and tears which ended in the desertion of nusbands and fathers, there will be a number of surety of the peace cases considered.

Some of the prisoners who were convicted at the January criminal court sessions will also be arraigned for sentence Monday, and it is just possible that there may be some pleas of guilty.

Blood Eruptions WON'T Blood a Good Bath

No case of poisoned blood is ever cured until the last vestige of irritation has been eliminated from the system. And the only remedy that is safely assimilated in the tissues to stipulate cellular activity and overcome harmful germs is the famous S. S. S.

A few doses of this wonderful blood purifier will start such pronounced activities in the cellular tissues of the body as to soon show decided changes in the skin.

The skin is but a fine network of they blood ressels, and the action of S. S. S. is declared by eminent authorities to be a pronounced atimulation of the activity of these cells. Certain it is that in a surprisingly short time even the worst skin eruption shows a most remarkable change; it begins to dry np; the skin peels off in tiny fecks, and soon a layer of clear, healthy and firm tissue results.

The reason for this is in the peculiar stimulation of S. S. S. which enables the cells in the skin to select from the blood the nutriment it requires for regeneration.

Not only this, but if from the presence of some disturbing poison there is a local or general interference of nutrition to cause boils, carbuncles, abscesses and kindred troubles, S. S. S. so directs the local cells that this poison
