Dr. John F. Culp Gives Jungle Dinner at Senate

Dr. John F. Culp's "jungle dinner" at the Senate last evening was decidedly novel with its tropical decorations arranged by Uttley. Brilliant blossoms of the East, primroses, orchids and jonguils were effectively arranged through the center of a long, oval table, and peering out from the foliage were tiny monkeys with flery eyes. The lighting was by scarlet-shaded candelabra.

In the party were Mr. and Mrs. Walter P. Maguire, Mr. and Mrs. Thomas Earle, Mr. and Mrs. Robert M. Rutherford, Mr. and Mrs. Frank D. Carney, Mr. and Mrs. Frank Payne, Mr. and Mrs. Frank Payne, Mr. and Mrs. Frank D. Carney, Mr. and Mrs. Frank D. Carney, Mr. and Mrs. Frank D. Students Urge Expulsion For Failure in Studies

By Associated Press

New Haven, Conn., Jan. 27.—A. strong plea for higher scholarship requirements in college is made by the Yale Dally News, a student publication to-day. It advocates the prompt expulsion from college of every student who has falled in his studies. The News declares: "In the treatment of the deficient, Yale shows too much mercy. The passing mark is within the reach of everybody not publicly confined. It is ridiculously low. Yet for not achieving either thorugh indifference or superhuman duliness, nobody is ever expelled. The dregs merely gravitate. The explanation of the dregs might have a beneficial effect upon those nearing that level."

Sore Throat Don'ts.

When the children have sore throat, don't blister their necks with lamp oil. Don't torture them with a foul smelling piece of fat meat, wrapped about the neck. Don't imagine there is nedical virtue in an old sock or piece of red flannel. Don't believe in antiquated superstitions.

A sore throat is a serious matter and is not to be healed by such make-believe remdies. The use of such methods is simply putting the patient to needess torture. Use a little sore throat visdom and give them TONSILINE and the throat will heal quickly.

25 cents and 50 cents. Hospital lize \$1.00. All Druggists.

LESSON IX-PART III. THEY BECOMING TO THE AVERAGE WOMAN?

Physical Demands of the New Modes. To properly and attractively wear the new fashions the physical charms must be considerable. These gowns are not made for careless and indiffer-ent dressers. Women now must look sharply after their demerits and heavy or awkward figures, discolored and lined throats must either be reformed or these fashions avoided. If figures are too stout, or if the movements of the body are growing stiff or heavy, physical exercises must be taken up to correct these faults. The collarless gown demands a good throat line; the long, thin sleeves that many of the French models show emphasize the at-tractiveness of a beautiful hand, or point out the deficiencies of a badly cared for one.

Draped skirts, whether they are

split or not, only appear to advantage if the carriage is graceful. The walk must be considered. In short, these fashions are designed for a certain type and can only be worn to advantage when that type is in a measure suggested.

How Fashions Originate,

All important changes in fashions are born in Paris. They may be changed and adapted to suit the women of various countries, but they originate in France, the meeting point of the big dress artists of the world. French women are very quick to adopt new ideas, and, when designing the new models, the dressmakers have in mind certain French bequites that mind certain French beauties, that happen at that time to be much talked of, some of them on the stage and some in society. They look to these women to diplay the new ideas to per-
