CANDLEMAS DAY IS OBSERVED MONDAY

Special Mass Will Be Held in All Roman Catholic Churches of the City

Candlemas day will be celebrated in the Roman Catholic churches of the city on Monday, February 2. Special mass will be held in all churches and holy communion will be observed in many churches.

The day is the Feast of the Purification of the Blessed Virgin, and its name is taken from the fact that candles used for special feast days are blessed on this day.

In this country a tradition has arisen about the day that attributes weather predicting power to the groundhog. If he sees his shadow on February 2, he will scamper back to cover for six weeks longer of his winter sleep and the weather will be bad for that long.

His marriage with Mrs. Thomas twenty-three years ago in the church of which he is vicar. He expressed his intention of returning to help them celebrate their silver wedding anniversary.

Surprise the Rev. Mr. Laird.—Members of the Christian Endeavor Society, of this city, will surprise their pastor, the Rev. Mr. Laird, at his home, 1111 North Second street, on Monday night. The pastor will be present and will attend the midweek prayer service, and after its close gave the benediction. Refreshments were served after the program was given.

City's Tallest Patrolman Gets Lost in the Fog

Failing to find Joseph Van Camp, Harrisburg's tallest patrolman, on the ambulance when it reached the Harrisburg hospital this morning, with Miss Carrie Wilmer, 2289 North Seventh street, Mayor Royal, Colonel Hutchison and the police department attaches were thrown into a high pitch of excitement. A call for help issued for the entire reserve force to scour the city, when the missing officer turned up.

Patrolman Van Camp had been lost and had not an explanation was given Colonel Hutchison that some misfortune had happened to the veteran ambulance officer. With Pat Hyland, Patrolman Van Camp had the Seventh street call and the patient was placed in the ambulance, the father deciding to accompany his daughter to the hospital. The door of the ambulance was closed, and thinking that Patrolman Van Camp was on the inside Chaffee Hyland started for the hospital.

Van Camp had been trying to console the mother and did not know the ambulance had left until it was out of sight. Walking to Sixth street, the officer met an auto truck belonging to Bowman and Company and was taken to the police station. In the future Joe says he will use a signal for Hyland.

New York, Jan. 29.—Charles B. Mr. Stover declared he had enjoyed his vacation very much. He had been in nearly every important city in the South, he said, and had made an exhaustive study of parks and general municipal conditions.

HOTEL MEN AND BREWERS TODAY ASK FOR 1914 LICENSES

No New Retail Applications Filed For City Up Until Noon Today

To-day was the last day for filing applications for liquor licenses for 1914 and Prothonotary Harry P. Holler and his deputies put in a busy afternoon receiving the late applicants.

Up until noon fifty-two retail applications for the city had been received, with sixteen in the county outside the city. No new retail applications were filed for the city, although Patrick Sullivan, who conducted a saloon in State street asked for a new license at 854 South Cameron street. During the afternoon a flood of late applicants got in their requests for the privileges for another year.

Twenty-four wholesale, four brewers and three bottlers asked for licensing. One new wholesale license was filed. This is Isaac Marcus who wants to do business at Third and Herr streets.

Up until noon David P. Baker, the Dauphin county court interpreter who wants to open a hotel and saloon in the South Third street "foreign quarter" of Steelton, was the only new applicant for a license in the county district.

That the opponents of the liquor traffic mean to conduct a more comprehensive campaign this year than ever before is generally understood among the attorneys, and it is expected that license court February 19 will be interesting at least.

Good Coal Means Less Coal

Buy only good fuel and you'll buy less. Good coal gives off heat steadily and the consumption is less than it would be if mixed with slate and other impurities which decrease heat value. To buy our coal is to buy good coal. It costs no more—try it.
