That Stubborn Abscess It is Healed Only by Getting the Blood in Action

Here are some very valuable facts for all who have any blood trouble with external outbreaks.

Do not cover it so as to interfere with perspiration or the formation of protective scabs. Keep it clean and bandaged. If it is a stubborn case, rub your blood with S. S. S. The famous blood purifier works wonders. And you can easily give your blood a good, thorough cleansing by using S. S. S. There is no need for anyone to be despondent over the illness of blood impurities. No matter how badly they attack the system or how unwillingly becomes the skin, just remember what a distinguished doctor said: There is one ingredient in S. S. S. that so stimulates the cellular tissues throughout the body that they select their own essential nutriment from the blood.

This treatment will decay, all breaking down of the tissues, is checked and regular work begins. S. S. S. has such a specific influence on all local cells as to preserve their mutual welfare and afford a proper relative assistance to each other. More attention is being given to scientific medicine than ever before, and S. S. S. is the highest achievement in this line.

Do not fail to get a bottle of S. S. S. to-day. If your abscess is of such a nature that you would like to consult a specialist, write to the medical department: The Swift Specific Co., 311 Swift Laboratory, Atlanta, Ga.

Beware of any attempt to sell you something else for the blood. Many people have been imposed upon by having some mineral mixture palmed off on them. Ask for S. S. S. and insist that S. S. S. is what you propose to get.

INJUNCTION AGAINST COMPANY

Camp Hill, Feb. 2.—On Saturday

the Cambria County court granted

a temporary injunction against

Reverton Consolidated Water Company

from collecting the increased water

rate from the property owners, who

have been making a protest. This is

another step in the rate war of the

citizens of the borough against the

water company.

It is probable that the Public Service Commission will render a decision.

In the meantime, the citizens

are making a protest.

An effort was made by the citizens

to compromise with the water com-

pany until the Public Service Com-

mision rendered a decision, but it would

not arbitrate.
