

WHY GRIP IS DANGEROUS.

It is an Epidemic Catarrhal Fever Caused by a Bacillus that Generally Leaves the Patient Weak After the Acute Stage Has Passed.

Grip Patients Grateful for Peruna, the Expectorant Tonic.

Do not make the error of regarding grip as an exaggerated cold. There is a big difference between the two. Grip is an epidemic disease that poisons the vital organs.

Peruna is a Tonic Laxative. It requires a good tonic laxative to keep the body of the patient as strong as possible to counteract the effect of the poisons created by the grip bacillus.

There is no specific for the grip. Peruna has been used with good success in former grip epidemics.

Do not fail to read the experience of former grip patients with Peruna. Mrs. Gentry Gates, 8219 First Ave., East Lake, Ala., writes: "I had a bad case of grip, which Peruna cured me. I can safely say it is a fine medicine."

Mrs. Charles E. Wells, Sr., 230 South St., Delaware, Ohio, writes: "After a severe attack of the grip I took Peruna and found it a good tonic."

POST OFFICES OF COUNTRY ARE EMPLOYMENT AGENCIES

Washington, D. C., Feb. 3.—Every post office in the United States would be made an employment agency, in which a list of cities where labor is wanted would be kept, under a bill which Congress will be urged to pass by Alexander Law, president of the Eight-Hour League of America.

A Message To Thin, Weak, Scrawny Folks

An Easy Way to Gain 10 to 30 lbs. of Solid, Healthy, Permanent Flesh

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good, nourishing food. The reason is just this: You cannot get fat no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food and store them out through the body as waste."

What is needed is a means of gently urging the assimilation of the fat-making elements and to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. This person's body is like a dry sponge, ready and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take up its share of the food.

Take a little Sargol tablet with every meal and notice how quickly your cheeks fill out and how healthy, fresh and deposited over your body, filling each body angle and projecting point. George H. Sargol, the good druggist, has Sargol, or can get it from their wholesaler, and will return your money if you are not satisfied with the gain in weight it produces as stated on the guarantee in each package. It is inexpensive, easy to take and highly efficient.

Caution—While Sargol has produced remarkable results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken unless you are willing to gain ten pounds or more, for it is a wonderful flesh-builder.

ACID STOMACHS ARE DANGEROUS

Nine-tenths of All Stomach Trouble Said to Be Due to Acidity

A Physician's Advice on Cause and Cure

A famous physician whose successful researches into the cause and cure of stomach and intestinal diseases have earned for him an international reputation, said in the course of a recent lecture that nearly all intestinal troubles, as well as many diseases of the vital organs, are directly traceable to a deranged condition of the stomach which in turn was due nine times out of ten to excessive acidity, commonly termed sour stomach or heartburn, which not only irritated and inflamed the delicate lining of the stomach, but also set up gastritis and stomach ulcers. It is interesting to note that the best use of ordinary medicines as well as of patent treatment for the stomach, stating that he and his colleagues have secured remarkable results by the use of ordinary bicarbonate of soda, by neutralizing the source of the trouble. He contends that it is as foolish to treat the stomach as if it would be a man who stepped on a tack to rub the foot with the tack without first removing the tack. Sufferers from acidity, the foot will heal itself—neutralize the acid and stomach troubles will disappear. Irritating medicines and medicinal treatments are useless, so long as the contents of the stomach remain acid; remove the acidity, and there will be no need for medicine. The inflamed lining of the stomach will then heal itself. Sufferers from acidity, sour stomach or heartburn should get a small bottle of bicarbonate of soda from their druggist, and add a teaspoonful in a quarter of a glass of hot or cold water after meals, repeating in fifteen minutes, if necessary, this being the dose which the doctor has found most efficacious in all cases. —Advertisement.

HISTORY CLASS AT CATHEDRAL OPENS

Father Johnson Each Week Discusses History in Its Relation to Church

So valuable have the Sunday afternoon lectures on history and the Bible, given by the Rev. T. B. Johnson, at St. Patrick's Cathedral, become, that in opening the class this year the members asked that the class be made twice as long. Last year a half-hour was devoted to study. This year it has been lengthened to an hour. From 75 to 150 attend these weekly classes.

Each week a phase of history in its relations to the Roman Catholic Church is taken up and Father Johnson explains the movements of the period. Once a month the class takes up the study of a book of the Bible in place of the history course.

Ten minutes each day are devoted to a discussion of current events and problems under the head of "Town Topics." Any member can bring up the subject and the whole class joins in the discussion.

The subjects of the series of lectures are of interest: Sunday, February 3, "Austria, Prussia, Bavaria, the Confederation and Federalism"; Sunday, February 10, "The Russian Church and Catharine II"; Sunday, February 17, "Italy and the Carbonari"; Sunday, March 2, "Gregory XVI"; Sunday, April 5, "The Conquest of Canada"; Sunday, April 12, "A Last Word on the Church in the Austro-Hungarian Empire"; Sunday, April 19, "Russia and the Balkans"; Sunday, May 3, "Kings; David"; Sunday, May 10, "The Anglican Church and the Restitution of the Hierarchy"; Sunday, May 17, "Plus IX, September 21st"; Sunday, May 24, "Plus IX; the Vatican Council and After"; Sunday, May 31, "The Church in England: The Repeal of the Penal Laws"; Sunday, June 7, "Kings; Solomon"; Sunday, June 14, "England, the Oxford Movement; Notes and Comments."

Miss Fields, Leading Lady, Tells of Woman's Influence on Stage

Advises Parents to Have the Children Read Good Plays at their Homes

Miss Marguerite Fields, the talented leading lady with Kirk Brown and who is appearing with him at the Majestic theater this week, says that women can do much to help with the uplift of the stage.

After reviewing the general scope of the theater, its possibilities and limitations, the temptations that assail actors—and the commercial reasons for the production of so-called objectionable plays, Miss Fields turned to the influence a woman can exert on the stage. She advocates the systematic education of this and coming generations to the reading of good plays as the greatest single factor in the desired uplift.

"It is a woman's world after all. Women are realizing more and more today their strength and they are beginning to develop the means of handling that strength and wielding their natural weapons. It is the awakening of activity and life of that force which makes of the mother the guide and support of the household. Take the stage into the household, take the clean hands, clear minds and pure hearts, clear and purified of its uncleanness that some times attaches, but which is not a real part of it or its mission."

FEDERAL PATRONAGE DEMOCRATIC ISSUE

Palmer and His Allies Take Every Thing For Themselves; Others Out in Cold

According to the Washington correspondent of the Philadelphia Public Ledger the weight of the bossship of the Democratic machine in Pennsylvania is becoming constant. Mr. Mitchell Palmer from attending to his sworn duties as a congressman. He is compelled to work overtime seeing applicants for places and keeping the party straightened out. The Ledger article is interesting for it is first hand information about one of the leading lights of the faction that parades the importance of serving the people and not the party. It says:

"Distribution of Federal patronage for Pennsylvania is assuming the importance of an issue in the coming Democratic campaign. A host of hungry office-seekers, who were without hope of Federal preferment for sixteen years, has widened the political gap between the party and the workers of the Old Guard and the leaders of the triumphant Palmer-McCormick faction. It also has absorbed the time of Representative A. Mitchell Palmer, who makes his work as a legislator almost negligible in this Congress.

"For months the sweep of prospective office seekers to Mr. Palmer's apartment has been constant. He keeps three secretaries busy answering the inquiries and searching the department offices for vacancies. The demands on his time have been so continual that Mr. Palmer is rarely seen in the House except on occasions when distinct party measures are under consideration. The result has been that Mr. Palmer is a slave to the Democratic machine and no time is allowed him for constructive work in Congress. He has been forced into the role of a political boss—eclipsing his ambition to become a leader in legislation.

"There has been no effort on the part of Mr. Palmer and his associates to appease the followers of the defeated faction. The places have been apportioned without regard to the men who, two years ago and previously, maintained opposition to the bipartisan machine. But this policy has accentuated the differences and strengthened the fighting ardor of the defeated faction. It is now apparent to the reorganization, facing the May primaries, that one of the issues that will be employed against them is the Old Guard will be the patronage distribution.

"With the appointment of the internal revenue deputies for Philadelphia and the Ninth district all of the big places, with the exception of Commissioner of Immigration at Philadelphia and Superintendent of the Mint, are disposed of. There are about fifty vacant vacancies in a prospect before the primary, and these will be filled as soon as the Republican incumbents can be crowded out."

Dillsburg will probably send a large delegation also, as the home company from that place will be fraternal visitors and assist in making the bazar a success. Many contributions have been made by the citizens and will continue every day until the close of the effort being made by the firemen.

Constable Captures Fleeing Man After Long Chase

Special to The Telegraph. Waynesboro, Pa., Feb. 3.—Yesterday the athletic legs of Constable William Williams, greyhound of the Waynesboro police force, and a convenient trolley car enabled that officer to capture Frank Keckler after the latter had got a start of several hundred yards when he was ordered to stop. He was racing away to freedom, as he fancied.

Keckler had jumped from the second story of the Abram Heiser house on the night of the robbery. He went there with a search warrant to make an examination of the premises for some stolen milk. Keckler was seen when he heard the officer firing his gun. He jumped out of the window and started over the hills for the mountains. Constable Daywalt started after the fleeing man, but far behind. Down past old Spring Park and into the district of the hills, Keckler ran and the constable was able to gain something on him by climbing aboard a passing trolley car. The latter was driven by Harry C. Shanley and there was caught by the officer.
