

A DIFFERENCE

A conceited Englishman once boasted that he weighed within three pounds of as much as Gladstone.

"Yes," replied a listener, "but that last three pounds is brains."

There is more difference between the Public Ledger and other morning newspapers than is represented by one cent.

their homes to the Division street freight station and the yards where they are employed. These men use Division street daily and their lives are in danger.

Work Has Just Started Mr. Tippet referred to the tract of eleven acres adjoining Wildwood Park and owned by the Pennsylvania Railroad which should be turned over to the city. He announced that the work for the opening of the blockade at Division street had just started and would be continued until the western end of the city with its large population was given more consideration and a much-needed entrance to Wildwood. Mr. Tippet was warmly applauded by the big crowd.

In his remarks, J. Horace McFarland, secretary of the Municipal League of Harrisburg, announced that as the representative of that organization, he was in hearty accord with the movement to provide an entrance to Wildwood Park at Division street and to give to the city its property now tied up by the Pennsylvania Railroad, and said:

"Wildwood Park is worth fighting for. It was made a certainty through a hard fight and to keep it means a hard fight."

To Provide Against Encroachment The value of parks to men, women and children and Harrisburg's reputation for having a larger park area for its population than any city in Pennsylvania was referred to, said Mr. McFarland announced that he had a conversation with W. B. McCaleb, superintendent of the Philadelphia division, as late as yesterday and believed that the acquisition by the city of the eleven-acre tract now owned by the railroad company was a question of a very short time; and once acquired Wildwood Park would be safe from any further invasion by corporations.

In conclusion Mr. McFarland called attention to the probability of the extension of Cameron street to Division street in the near future with big improvements at Maclay street which include a new bridge and which with additional trolley facilities would afford better accommodations to and from Wildwood Park. Mr. McFarland said he hoped the good work would continue and promised his hearty support.

Chamber of Commerce Support J. W. Bowman, who with W. M. Ogelsby, represented the Harrisburg Chamber of Commerce, stated that he had received a liberal education from the views shown of Wildwood Park and Division street, and in conveying the greetings of the Harrisburg Chamber of Commerce, he would also promise the hearty support of the new organization to the better things by the West End Improvement League.

Mayor John K. Royal, called attention to the city line running through the corner of Division street and said in brief: "If Division street is closed without authority the Pennsylvania Railroad Company can be compelled to open it through a joint action by the city and township against the Pennsylvania Railroad; that he would consult City Solicitor Seitz and ascertain what legal steps are necessary."

Mayor Willing to Help Mayor Royal said he would accompany any committee in making inquiry of the railroad officials as to what the railroad company would do, and do his part in bringing about the necessary action.

Professor C. A. Ellenberger, representing the Citizens' Association of Riverside, offered to aid in the project to open Division street and suggested that an effort should be made to have Lewis street opened also.

A motion offered by William F. Burgoon, to continue the committee and recommending a subway at Division street, received unanimous endorsement.

The committee was instructed to invite the Harrisburg Chamber of Commerce, Municipal League and Citizens' Association of Riverside act with them in bringing about the much needed improvement. S. H. Garland, chairman of the executive committee, endorsing the move, called attention to the fact that the improvement would not be a certainty for some time and in the meantime some provision should be made for reaching Wildwood Park. Mr. Garland offered the following resolutions, which were adopted:

Resolutions Adopted Whereas, There is now no adequate path for pedestrians to enter Wildwood Park from Maclay street, and

Whereas, There are hundreds of visitors to the park during the open season, who go there on foot, and

Whereas, A proper approach cannot be completed to Wildwood Park from Division street, in time for the park season of 1914, therefore be it

Resolved, by the West End Improvement Association, That the Superintendent of Parks be informed that it is the earnest desire of residents of the West End of the city of Harrisburg, that there be constructed, at the earliest possible moment, a foot path of sufficient width to accommodate such visitors, along the bank of Paxton creek, from Maclay street to the ball park at Division street, that there be park benches placed along it and a park officer be assigned to police it, and be it further

Resolved, That a copy of these resolutions be sent to the Superintendent of Parks and that he be urged to give the subject prompt consideration.

Want Early Trolley The movement to get trolley accommodations out of Rockville at 5.30 a. m. on Sunday instead of 6.30 a. m. was referred to the committee on railroads with instructions to confer with the proper officials.

More train stops for Maclay street station will be considered later, prior to the completion of a new schedule on the Pennsy. It is probable that another meeting of the West End Improvement League will be held next month to hear reports at Division street for a Division street subway. Petitions were circulated after the meeting requesting the extension of the cluster light system to Sixth and Maclay streets, and at Fourth and Kelder streets, which will be sent to council next week.

MOTOR CLUB MEMBERS ENDORSE SUBWAY PROJECT

At a meeting of the board of governors of the Motor Club of Harrisburg last night, in addition to the transaction of routine business, a resolution was adopted endorsing the proposition to urge the construction of a subway at Division street. William Lauver conveyed notice of this action to the meeting last night.

General Girard, Active at Camp Meade, Dead

MME. SZUMOWSKA, who gave such a delightful Piano Recital in Fahnstock Hall, last night, in a note to Yohn Bros., 8 North Market Square, the representatives of the Mason & Hamlin Co., whose Piano was used last evening, has this to say of the Mason & Hamlin Piano. "I have used the Mason & Hamlin Piano exclusively for the last ten years, always with the keenest pleasure. The perfection of mechanism, the beauty of tone, the responsiveness to every effort of delicacy as well as strength, make these instruments a joy for every pianist. They have besides all this an exceptional durability, and altogether can be considered as unsurpassed by any instrument in the world." (Signed) ANTONINETTE SZUMOWSKA, February, 1914. —Advertisement.

Brigadier-General Alfred Conrad Girard, U. S. A., retired, who was prominent during Camp Meade days, died in Washington on Saturday, following an operation for appendicitis. He was born in Switzerland, July 31, 1841. Coming to the United States, General Girard served as an acting assistant surgeon in the army from January, 1865, until May, 1867, when he was appointed an assistant surgeon. He served in South Carolina, Indian Territory, Louisiana, Texas, Georgia,

at the Military Academy at West Point and at other places. Just before the Spanish-American war General Girard represented the United States in an international congress in Madrid. He was appointed chief surgeon of volunteers with the rank of lieutenant-colonel on May 9, 1898, and was made chief surgeon of the Second Army Corps, which was located at Camp Meade. The street car conductor was very impatient. He was waiting for an elderly, and very stout lady to board his car, when she suddenly exclaimed: "Conductor, conductor, will I get a shock if I step on that rail?" He quietly answered, "No, lady,

They are programmed as "The Clubmen," and put on a spirited and peering turn, displaying exquisite voices in new songs and are just walking away with the applause hit of the bill. After the many cabaret and rathskeller acts we have seen, the offering of Kimberly and Mohr is a novelty and a treat. There is much pretty sentiment to the skit as well as a lot of fun. As artists, they have talent and ingenuity, and their act is delightful. Both have a way of "putting over" their material that makes it different from the average, while their songs strike a new note that is most pleasing. They offer one of the splendid turns grouped with "The Darling of Paris," a pretentious dancing spectacle, that is easily one of the very best one-act attractions ever shown at the Orpheum. Real talent and a big cast, together with artistic stagecraft, make this feature in itself well worth the time and price. No man or woman who eats regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat is uric acid, which clogs the kidney part of the waste and poisons the blood; then you get sick. N. all rheumatism, headaches, trouble, nervousness, constipation, ziness, sleeplessness, bladder disease come from sluggish kidneys. The moment you feel a dull ache in the kidneys or your back hurts, the urine is cloudy, offensive, sediment, irregular of passage, attended by a sensation of scalding, about four ounces of Jad Salts, any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and kidneys will then act fine. This of salts is made from the acid of grape and lemon juice, combined with a sediment, irregular of passage, flush clogged kidneys and stimulate them to activity, also to neutralize acid in urine so it no longer irritates, thus ending bladder orders. Jad Salts is inexpensive and cures; makes a delightful effervescent lithia-water drink which all renal eaters should take now and to keep the kidneys clean and blood pure, thereby avoiding all kidney complications.—Advertisement.
