

Doctors Now Agree On Eczema Remedy

Confirm the Statements About D. D. D. Prescription

Geo. T. Richardson, M.D.: In my opinion D. D. D. should be applied in all cases of skin disease...

of Kansas. Write to him. Dr. Ira T. Gabbert, Caldwell, Kans. If you are affected with any skin blemish, even the slightest, or a temporary rash, try D. D. D. today.

Dr. Unna Holmes: "D. D. D. is as near a specific for eczema and the dreaded psoriasis as its quinine for malaria. I constantly prescribe D. D. D. also for salt rheum, tetter, barber's itch, pimples, all forms of itching eruptions, scales, sores."

Use it according to directions. Notice how the skin is cooled, soothed, smoothed, refreshed the instant this liquid is used.

Dr. Ira T. Gabbert: "I freely admit that D. D. D. reaches cases, and permanently cures them, more efficaciously than mine."

Then continue with the simple wash, and watch your cure. All druggists handle D. D. D. Come to us and we will tell you of the marvelous efficiency of this remedy as well as the D. D. D. Skin Soap. We offer the first full size bottle on the guarantee that unless it does what is claimed, it costs you nothing.

D.D.D. Soap Keeps Your Skin Healthy

Antwerp Says Bill Will Do More Harm Than Good

Washington, Feb. 5.—W. C. Van Antwerp, a governor of the New York Stock Exchange, to-day told the Senate banking committee that the Owen stock exchange would do more harm than good and that enforced incorporation would destroy America's primary market place.

power of the New York Exchange over its members based upon "just and equitable principles of trade," he said, was a stronger restraint than could be provided by any law. He pointed out that to incorporate the exchange would transfer the power of government into the courts where judicial reviews would displace the arbitrary powers of the governors.

HARRY L. HERSHEY GUEST AT DINNER

Gold Watch Presented to Former Revenue Collector of Ninth District

HARRY L. HERSHEY

Recognition of the efficient service and personal worth of Harry L. Hershey, ex-Revenue Collector, was given at a dinner held in his honor by the employees of the Ninth Revenue District in the Stevens House, Lancaster, on Saturday.

Mr. Hershey at the time of his retirement had served fifteen years, seven months and nineteen days as revenue collector in the district, making the longest continuous term of service in the history of the revenue service. Only one collector in the country has a record that approaches that of Mr. Hershey, who was appointed under the late President, William McKinley.

Mr. Hershey when called upon responded to a toast, "Reminiscences of the Office," recounting many happy days and incidents of his long service, and thanking the men who had worked with him for their loyal support.

Among the speakers were Edwin M. Milley, John M. Wilson, Miss M. B. Appelbaugh, of Easton; Miss Ethel Wilkins, Scranton; Miss McHale, Lancaster. Among those present from this city were George W. Adams, E. B. Gerry, G. J. Hutton and Mr. Hershey.

WILL VOTE ON "WET AND DRY" Chicago, Feb. 5.—Petitions calling for a "wet and dry" vote in Chicago at the aldermanic election on April 7, will be filed with the board of election commissioners to-day at a notice served on the board.

THEATRICAL MAN DIES New York, Feb. 5.—Theodore Bromley, for forty years a theatrical manager, died yesterday of pleuropneumonia.

Muddy Skin-- Blotches and Pimples

Are More Quickly Removed and Pure, Colorful Skin Restored By the Use of Stuart's Calcium Wafers Than by Any Other Method

There is no common sense in pimples, liver spots, blotches, etc., mar- ring your beauty and if you will read the rest of this announcement you will see exactly why this is so.

When you eat you fill the entire blood with all manner of waste matter. If decay and fermentation of a harmful kind arise then this poisonous matter is taken into the blood and must be thrown off.

"I'll Always Be Glad That I Used Stuart's Calcium Wafers, Everybody Now Speaks of My Complexion."

The blood is somewhat like a stream of water. It has the ability to cleanse very quickly; but if it is filled with such matter as it cannot handle then it overflows and leaves debris and refuse of all kinds along its course.

The skin of the face is so tender that the impurities in the blood break easily through. The pores of the skin under the influence of poisonous refuse matter become unable to do their work. Then it is that the blood is constantly throwing waste matter into them, filling them up until they appear like little hills of discolored impurities.

Stuart's Calcium Wafers are composed of powerful blood cleansing ingredients. One of these—Calcium Sulphide—is the strongest blood purifier known.

PERU AGAIN QUIET FOLLOWING DISORDER

Congress Meets in Extraordinary Session to Consider Situation

Lima, Peru, Feb. 5.—Congress met in extraordinary session last night to consider the situation brought about by the revolution of yesterday as a result of which President Guillermo Billinghurst was made a prisoner, the palace seized and the premier, Enrique Varela, killed.

It was decided to name a governing board, pending provisions for a new election. Colonel Oscar Benavides, who led the attack on the palace, was named as president of the governing board and Doctors Jose Matias Manzanilla, Arturo Osorio, Jose Balta, Benjamin Boza and Rafael Grau were nominated to act with him.

All is quiet in Lima, despite the upset of the Billinghurst government and citizens are pursuing their ordinary business. The fleet has recognized the new government. President Billinghurst, who is held a prisoner, will be exiled.

SEX EDUCATION AND DOMESTIC SCIENCE

[Continued From First Page]

health in order to gratify paternal pride in their attainments. We Americans have been too much in the habit of regarding our children as solid lumps of intellect and have forgotten their nature is two-fold, that they have bodies as well as minds, and that if we would have them grow up to perfect manhood and womanhood we must educate their physical nature, not one at the expense of the other.

Sex Teaching "There should be a time in school life when the danger of sexual disease should be pointed out. This should not be left to the public theaters where there is a mixed audience. It too often attracts those with morbid minds. We should require the highest models of morality for our instructors of youth, for they learn much from example. The day is upon us when as a nation we must conserve. We must produce more from our soil and we must be more economical; therefore, economy should be taught in our schools. We must educate mothers who will know what foodstuffs are necessary to satisfy the growing bodies of their children. We must teach them how to select and prepare these foods. In our tuberculosis work we find mothers who have graduated from high schools being taught to rear their little children on molasses and white bread and wondering why their offspring are stunted and emaciated.

Children should be taught the value of fresh air, cleanliness and physical exercise. Many people who have hailed as a blessing the invention of the wireless method of communication which has resulted in the saving of thousands of lives at sea have arrayed themselves against or failed to make practical application of the scientific discovery of modern times which could save the lives and strengthen the bodies of thousands of children. Our work of medical inspection in the schools is but in its infancy. When the results become widely known it will be universally demanded."

Against Overcrowding Much of the talk made by J. C. Brown, of Bloomsburg, president of the directors' department, was along the line of dissatisfaction with modern tendencies in the overcrowding of study courses. Mr. Brown advised the directors to remember when they select their teachers to pick the teacher for personality rather than for scholarship. His opinion in regard to study courses was that too many facts are being taught the children without any attempt to teach them to apply their knowledge. He made a plea for better arranged courses of study.

President Brown made his lecture at the opening session this afternoon. During the morning the delegates registered. The Rev. William N. Yates, a member of the Harrisburg School Board, made the invocation. D. E. Hammelbaugh, secretary of the Harrisburg School Board, in welcoming the delegates called attention to the good points of the city and the city's schools and asked the directors to make a thorough inspection during their stay here.

In his response S. R. McClure, of Pittsburgh, told the directors that the board of directors is the business end of the school system and that the teachers and educators should not be allowed to interfere with the business part. He urged greater school efficiency.

Boyer Tells of Conference Harry A. Boyer, president of the Harrisburg School Board, gave an interesting review of the work done at the Fourth International Congress on School Hygiene in Buffalo last summer. Two committees were appointed this morning. They were: Nominating committee, H. M. Lessig, Pottstown; Dr. E. D. Schaeffer, Reading; James E. Smith, Columbia; J. Milton Lutz, Delaware; J. R. Wulle, Wilkesburg, and resolutions committee, J. R. Stottler, Wilkesburg; C. Edward McCarter, Narberth; William E. McKee, Altoona; S. H. Bomberger, Lebanon, and James S. Lowery, Brad- dock.

Senator E. E. Beldeman and Speaker Alter appeared in behalf of the railroad men before the Public Service Commission when the pass matter was argued. Senator Beldeman representing a majority of the brotherhoods. The Senator said this afternoon that he was very much pleased with the decision and that it was exactly what he expected it would be. The commission has not announced when it will decide the matter of ministerial rates and other subjects of controversy before it.

DR. EDWARD G. DAY DEAD New York, Feb. 5.—Dr. Edward Gardner Day, an eminent physician representing a majority of the brotherhoods, is dead at the age of seventy years. Dr. Day was the author of medical treatises in professional journals. He also was the author of a romance, "The Realm of Light," and was at work on a second volume when he was stricken.

SOCIALISTS CHOOSE CANDIDATES Hartford, Conn., Feb. 5.—Robert Hunter, author and settlement worker, has been selected by referendum as the nominee of the Socialist party in Connecticut for United States Senator. George Spless, Jr., of Hartford, is the party's choice for Governor.

RAILROADS ISSUE FAMILY PASSES

[Continued From First Page]

inspired the railroad people with the belief that the long-standing custom which ended January 1 would be resumed and the action of the commission in favorably disposing of the question after giving it thorough consideration will be joyfully received in every part of the State.

Ruling in Full The ruling of the commission follows: Numerous requests have been presented to the commission by railroad and street railway companies and other persons interested upon the question (1) whether or not the issuance of free passes to officers and employees of railroad companies to be used for the transportation of dependent members of the families of such officers and employees and (2) whether the according of free transportation by common carriers to policemen and firemen in the discharge of their public duties are violations of the act of July 26, 1913, and known as "the public service company law."

A public hearing in this matter was held by the commission at Harrisburg on the 20th day of January, 1914, at which railroad and railway companies and others appeared and were heard, and all persons interested were given an opportunity to be heard. In this case the commission has concluded to rule administratively upon the questions presented.

After careful consideration the commission is of the opinion that the spirit and true intent and meaning of the provisions of the public service company law of July 26, 1913, are not such as to require the commission to regard as a violation of the law the practice of railroad companies of issuing free passes to their officers

IN LONDON

The iron chairs along the edge of Rotten Row in Hyde Park rent at a penny each. Though they cost so little, they are very seldom occupied by the masses. The show is not the kind that attracts the masses, even at that price.

The circulation of the Public Ledger is determined, not by the number of people who can afford two cents, but by the number of people who can appreciate the Public Ledger.

Anyone who can appreciate the Public Ledger can afford it.

Acceptances received to date from State commercial organization officials, to attend the noonday luncheon to be given Saturday by the Harrisburg Chamber of Commerce, indicate the presence of many active workers for municipal advancement from all over Pennsylvania.

Municipal Workers to Attend Big Luncheon

The Altoona Chamber of Commerce organized three months ago, will send a large delegation, to include W. C. Westfall, president; C. F. Anderson, treasurer; Oliver Rithert, chairman of the ways and means committee, and George H. Mosser, manager. Munson Havens, secretary of the Cleveland Chamber of Commerce, will be the speaker at the luncheon.

A Human Match Factory

The body contains phosphorus sufficient to make 483,000 matches. Phosphorus is one of fourteen elements composing the body—divided among bones, flesh, nervous system and other organs. The perfect health of body requires a perfect balance of the elements. These elements come from the food we eat—the stomach extracts and distributes them. But if stomach is deranged—the balance of health is destroyed and the blood does not carry the proper elements to the different organs, and there is blood trouble—nervous trouble—heart trouble. Pain is the hungry cry of starved organs. Put the liver, stomach and organs of digestion and nutrition into a condition of health. That is just what is done by DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

which has been so favorably known for over 40 years. It is now put up in tablet form, as well as liquid, and can be obtained of medicine dealers everywhere or by mail by sending 50 cents in 1c stamps for trial box—address R.V. Pierce, M. D., Buffalo, N.Y.

THE COMMON SENSE MEDICAL ADVISER is a book of 1008 pages handsomely bound in cloth—treats of Physiology—Hygiene, Anatomy, Medicine and is a complete Home Physician—Send 51c stamps to R.V. Pierce, Buffalo, N.Y.

Why We Have Two Coal Yards

Some of our customers prefer Wilkes-Barre Coal from the Pennsylvania Railroad. They say it burns up to a fine white ash and gives little trouble.

We have other customers who want nothing but coal from the Reading Railroad. They claim it is larger in size and lasts longer.

To satisfy all our customers we operate two yards, one on each railroad.

You can get any kind of coal you want from us.

United Ice & Coal Co. Forster & Cowden 15th & Chestnut Third & Boas Hummel & Mulberry ALSO STEELTON, PA.

Onyx Hosiery. The "Onyx" Brand will give better wear than any hosiery known. For Men, Women and Children, from 25c to \$5.00 per pair, in any color or style you wish from Cotton to Silk.

For Children's Coughs and Colds. Youngsters catch colds and coughs almost "over night." They must be carefully watched and cared for or Whooping Cough, Croup or even Pneumonia is liable to develop from a cough.

GOFF'S COUGH SYRUP. There is nothing impure or harmful about Goff's—it is the Pure Food Cough Syrup. Made from the pure extract of harmless, time-tested native herbs.

25 and 50-cent bottles at all dealers—Money refunded by the dealer if it is not satisfactory.

WHICH will you have, Mr. Man, for your evening at home or at the club—a quarter's worth of nickel cigars or the same amount of MOJA 10c CIGARS? If quantity is your sole object you get it with your purchase of nickel cigars.

Good Coal Means Less Coal. Buy only good fuel and you'll buy less. Good coal gives off heat steadily and the consumption is less than it would be if mixed with slate and other impurities which decrease heat value.

Bacon's Cough Drops. Bacon's Cough Drops. D.B. on every drop.
