DID BOMB THROWER CAUSE EXPLOSION?

Fire Chief Gives This as Theory For Accident That Stirred All Steelton

Two men were injured, one seriously, a small outbuilding at 443 Mohr street, was demolished and windows were shattered for blocks by an explosion that shook the foreign section of Steelton about 2 o'clock yesterday afternoon.

The injured men are Charles Benedict, 443 Mohr street, injured about the face by flying debris, and a youth by the name of George Rydan, who fell twenty-five feet from a roof while investigating the causes of the explosion. Rydan was taken to the Harrisburg hospital suffering from shock and internal injuries.

Just what caused the explosion is not known, but it is believed by the police that a quantity of dynamite stored in a smoke house in the rear of the house of Charles Benedict, 443 Mohr street, was exploded by the heat from a fire which was used in smoking meat.

Fire Chief Shoop is of the opinion that the damage was caused by a bomb as flying missiles were driven clear through the side of the house at 443 Mohr street and, after shattering a large mirror, lodged in the plaster in the opposite side of the house.

CHANCES FOR POLICE STATION ARE BRIGHT

Burgess Will Urge Council to Pass Ordinance Establishing Modern System

Burgess Fred Wigfield will be present at this evening's meeting of the borough council to urge favorable action on an ordinance calling for the establishment of a central police station, the installation of a call system and the employment of a desk man at the central station.

At the last meeting of council the subject of installing such a system was discussed and Chairman Nelly, of the police committee, was instructed to report at this evening's meeting on the cost of such a system. The office of lockup keeper, carrying a salary of \$200, plus a fee of ten cents for each prisoner committed to the borough lockup, was held open so that this salary and fees might be used to pay the extra salary necessary if a central office man is employed.

The need of a system such as the one described has been evident for a long time. Under the present antiquated system of handling the borough police it is impossible to locate a policeman when he is needed to quell a disturbance in time for him to be of any real service.

Burgess Wigfield is strongly in favor of the proposed system and it is understood council is not averse to it if the cost is not prohibitive. Chairman Nelly, of the police committee, who suggested the system, believes that it will not cost the borough over \$300. The salary of the central office man will be cared for by the lockup keeper's salary.
