

### ORCHARD WORK IS TO BE ENLARGED

Dr. Surface Plans One of the Biggest Information Bureaus on Subject in Land

### WILL LIST ALL THE TREES

First Work Will Be Started Within the Next Fortnight by State Inspectors

State Zoologist H. A. Surface is about to inaugurate the most comprehensive system of orchard service in any State in the Union and it contains templates first-hand information not only about the size and character of every one of the orchards of the State but data regarding the trees and what pests have afflicted them. Incidentally, the information will have a commercial value because it will set forth the varieties of trees and where fruits of certain brands can be obtained. The orchard inspectors and demonstrators will start out next week to collect this data from the orchards under State observation. These number approximately 2,000, and when they are finished other orchards will be taken up. It is estimated that of the 225,000 farmers in the State at least 150,000 have orchards, although the commercial orchards are comparatively few in number. In addition to apples, pears, peaches and other fruits data will be collected regarding berries of various kinds and a State service of gigantic size outlined. This will enable first-hand information to be secured at the Capitol regarding the horticultural interests of the State. "The work will take several years to complete, but we think that it will go fast once it is started," said Dr. Surface. "We will endeavor to reach as many orchard owners as possible by our men, to reach others by mail, and there will be many people who will send us data. I have been in correspondence with many orchard owners and people who buy from them and they have encouraged the plan. With this data and the scientific care of fruit trees which has become a part of the State I think we can add thousands of dollars to the value of the fruit crops in Pennsylvania annually because we will bring them closer to markets and stimulate careful development and proper care."

### IF HAIR IS TURNING GRAY, USE SAGE TEA

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, streaked and looks dry, wispy and scraggly, just an application or two of Sage and Sulphur enhances its appearance a hundred-fold.

Don't bother to prepare the tonic; you can get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," ready to use. This can always be depended upon to bring back the natural color, thickness and luster of your hair and remove dandruff, stop scalp itching and falling hair.

Everybody uses "Wyeth's" Sage and Sulphur because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant.—Advertisement.

### DEMOCRATS' WAR INTERESTS PRESS

Newspaper Comments Upon the White House Primaries and the Slating of Ticket

### VIEWPOINTS ARE VARIED

Gifford Pinchot Comes in For a Slap—Everyone Looking For Entertainment

The newspapers of the State are making some very interesting comments upon the war in the Democratic camp over the division of the nominations for the offices in November and especially are there caustic comments upon President Wilson's interference in the affairs of the Democrats of Pennsylvania. The slate framed by the quartet of men who assume to run the affairs of the Democracy in the Keystone State does not appear to have aroused the enthusiasm one would suppose from the elaborate staging of its launch.

### THE KINDLY MR. WILSON

(Pittsburgh Gazette-Times)  
It is so nice a ticket that was nominated for Pennsylvania by President Wilson and a few friends in the offices of the New Freedom at Washington the other day that we have no doubt the children soon will be whistling it, whatever strong men may do about voting it.

### DROPPING THE EFFICIENT

(Philadelphia Press)  
The internal revenue office in this city is being cleared of Republicans experienced in the work as rapidly as circumstances will permit. The theory is that this is being done by the collector on his own initiative, but as a matter of fact the whole business is in the hands of the commissioner of internal revenue at Washington, who acts upon the recommendation of Democratic congressmen who are authorized to place the positions in this service where they will do the most good. Collectors in some districts have found that this practice is demoralizing the service as it is loading upon them many men who do not know the business and do not indicate that they have any capacity to learn it.

### MR. PINCHOT, OF

(Philadelphia Bulletin)  
The identity of Gifford Pinchot with Pennsylvania has only been discovered since he became a candidate for United States Senator. Most Pennsylvanians themselves might have assigned him to the class of wealthy floaters who are to be found anywhere between New York and Princeton, with an occasional sojourn at Washington.

### THE IMPOSSIBLE

(Chambersburg Valley Spirit)  
One thing must be distinctly borne in mind. It is quite an impossible thing for any man, or set of men, whether in Washington, Philadelphia, Harrisburg or Pittsburgh, to force any candidate upon the Democratic party in this State whom it does not deliberately choose.

### WILSON AS A SLATE MAKER

(From the Wilmington News.)  
Rather odd, in some respects, is the news from Washington that President Wilson has arranged a slate for the Democrats of Pennsylvania. Keeping out of State politics—that evidently is not the Wilson view. If he makes the slate in that old Commonwealth, he should prevent him from writing names on the slates for other States? Evidently the functions of the President are widening.

### BOSS RULE

(From the Pittston Gazette.)  
It will be interesting and edifying to note the attitude of the rank and file of the Democratic party in Pennsylvania toward the spectacle of the Washington administration fixing up the slate of candidates for Governor and Senator. This is boss rule with a vengeance in the so-called "party of the people."

### WHITE HOUSE PRIMARIES

(From the Mahanoy City Record)  
While the Democracy of the nation feel proud of President Wilson and his administration, there is no denying the fact that White House primaries for State politics are not popular. The people these days calculate that it is their right to nominate at primaries. When three or four men undertake that job for them, the party is "electioneering for a lickin'." It is neither ethical nor expedient and not justifiable. It is just "dampfool" politics.

### PENNSYLVANIA IS STILL FREE

(From the Pittsburgh Gazette-Times)  
Notwithstanding the White House slate for the elective offices of this State, Michael J. Ryan, of Philadelphia, intends to remain in the race for the Democratic nomination for Governor, being under the impression that, although there is a Democratic administration in Washington, it is yet a free country in Pennsylvania.

### THE WASHINGTON TICKET

(From the Franklin Repository)  
For unadulterated downright bossism this meeting at Washington is entitled to the prize. In the first place we have a President, a resident of New Jersey, dictating who shall be placed on the ticket in Pennsylvania for the Democrats of this State to support next Fall. Then we have the peculiar and egotistical spectacle of two of those present assuming that they are the only two men in the great Democratic party of Pennsylvania fit to take these important places on the ticket.

### BOSSISM

(From the Allentown Chronicle and News)  
A small fraction of the white Democratic vote of Pennsylvania gathers at the White House and virtually, at the dictation of the "anti-boss" President, frames a slate that is demanded of the people to support. The principal aim of the primary laws is thus defeated, yet Democrats have the effrontery to tell us that they are opposed to bossism. If the action of the White House conference is not bossism of the most flagrant stripe, pray what is it?

### GRIEVANCES OF THE OLD GUARD

(From the Wilkes-Barre Record)  
The Old Guard Democrats who will flock to the side of Mr. Ryan have two serious grievances—one of them the high-handed manner in which the Organization was wrested from them by the Palmer-McCormick faction and the other the high-handed manner in which Mr. Palmer, official distributor of patronage, has ignored the standpoint.
