STEELTON MIDDLETOWN CHESHIRE ROYALTON OBERLIN ENHAUT

Says Husband Bought Her One Pair of Shoes in Eight Years

Tells Squire She Received Just Fifteen Cents in Four Months to Run Household

Because, she says, her husband bought her but one pair of shoes the year; gave her but 15 cents with which to conduct the household affairs during the past four months, and otherwise neglected her, Mrs. Anna Willman, of Steelton, has been granted a divorce by Squire T. C. Smith, of Middletown, on charges of desertion and nonsupport.

At the hearing Mrs. Willman, who is young and rather pretty, tearfully testified that her spouse not only neglected her, but paid little attention to their three small children—in fact, she asserted, he had provided but one small pair of shoes for the three children in eight years.

Mrs. Willman sobbingly complained, too, that "hobby" laughed at her, told her how well he had dined while she was almost starving, and in many other ways made her life unbearable. When asked, by the Squire how she managed to keep things going for eight years, she replied that "she took in washing and did odd jobs." The heartick bride brought five witnesses with her to confirm her story and Squire Smith held her husband under \$300 bail for court.

Thin Blood Causes Backache

Every muscle in the body needs a supply of rich, red blood in proportion to the work it does. The muscles of the back are under heavy strain and have but little rest. When the blood is thin they lack nourishment and rebel. The result is a sensation of pain in those muscles. The best medical advice is to take that backache seldom or never means kidney trouble. Real organic kidney disease may have progressed to a critical point without developing a pain in the back. Doctors detect its presence by the excretions of the kidneys themselves.

Pains in the back should always lead the sufferer to look to the condition of the blood. It will be found in most cases that the use of Dr. Williams' Pink Pills to build up the blood will stop the grumbling of the ill-nourished muscles of the back. How much better it is to try Dr. Williams' Pink Pills for the blood than to give way to unreasonable alarm about your kidneys. If you suspect your kidneys, any doctor can make tests in ten minutes that will set your fears at rest or tell you the worst. All druggists sell Dr. Williams' Pink Pills. A free book, "Building Up the Blood," will be sent on request by the Dr. Williams' Medicine Co., Schenectady, N. Y.—Advertisement.

Babes Not Allowed to Be Carried by Parcel Post

Washington, D. C., Feb. 13.—Babies are not mailable. The Post Office Department so holds in an edict to-day barring them from the parcel post. The question arose over a request by the postmaster at Stratford, Okla., for a ruling by the department as to whether a patron of his office could send a 2-year-old child by parcel post from Twin Falls, Idaho, to Stratford. The postmaster was greatly puzzled, because he could find nothing in the regulations covering such a case. So he referred it to the Post Office Department. Second Assistant Postmaster General Stewart decided that all human beings and live animals are barred from the mails. The one exception, however, is the queen bee, which is the only living creature that can enjoy the privileges of the parcel post.

Dr. Zimmerman said the United States government, when it informed Germany of the raising of the embargo, it has expressed the conviction that nobody outside of Mexico could enforce a settlement of that country's difficulties, he restoration of peace in Mexico, he said, could be hoped for only if the Mexican parties were allowed to fight out their quarrels without interference, and the raising of the embargo merely gave American citizens the same right of selling arms as was enjoyed by other nations.
