

Give Your Blood A GOOD Searching Bath

An astonishing record of serious blood poisoning is daily brought to our attention. And most if not all these conditions could be averted were the blood primed, toned and purified in advance by that wonderful remedy known everywhere as S. S. S. Few people realize how quickly the acids and ferments from undigested food, constipation and inactive kidneys.

The symptoms of fever, thirst, excitability, dry skin, followed by rash, and many indications are often wrongly diagnosed as Ptomaine poisoning. Many people who act hastily from violent temper are simply suffering from the effects of the system produced by faulty elimination. But by far the greatest peril is the daily danger from bruises, contusions, the scratch of a rusty nail, and vocational poisoning.

The medicinal properties of S. S. S. are relatively just as essential to well balanced health as are the nutritive properties of the meats, grains, fats and sugars of our daily food. And if you will bear this fact in mind and get your blood under the dominating influence of S. S. S. you will not only drive out those impurities that cause Rheumatism, Catarrh, Eczema, Etm ple, Boils and thin anemic blood, but you will feel the thrill of health that can come only from a purified blood stream.

Do not accept anything else in place of S. S. S. Say no attention to the "Just as Good" claims of those who would sacrifice your health to make an extra profit. S. S. S. contains no minerals, no crude drugs, nothing but the most beneficial materials. So be sure and get S. S. S. and avoid disappointment. Get a bottle to-day and write for free advice to The Seltz-Specht Co., 202 West 12th St., Atlanta, Ga.

LINES HIS POCKET WITH YOUR SKIN

That Is What an Unscrupulous Dealer Does If He Succeeds in Selling You a Substitute For Resinol.

Over eighteen years of constant use by physicians and public have shown that Resinol stops itching instantly, and quickly heals tormenting, unsightly skin eruptions. We have thousands of unsolicited testimonials that prove it.

Most druggists are only too glad to sell Resinol to their customers because they know that it will give satisfaction. But a few unscrupulous dealers offer, in its place, ointments which resemble Resinol closely enough in name or appearance to deceive the unwary.

They claim these are "just the same as Resinol," or "just as good as Resinol." But they are NOT. They are crude imitations, often cheaply made and of little or no healing power. The dishonest dealer wants to sell these imitations instead of Resinol because HE can make a few cents more profit and not because they will do your skin any good.

We publish this to warn our customers, many of whom write that they have been deceived by imitations of Resinol. If anyone tries this trick on you, insist on seeing a jar of genuine Resinol also. Compare the two ointments and decide for yourself if the "substitute" IS "just the same as Resinol." Resinol is never sold in bulk, only in opal jars with the name blown in the bottom. Each jar has a blue cartoon which it is unlawful to imitate. Price 50c and \$1. For trial size, free, write to Dept. 42-R, Resinol, Baltimore, Md.—Advertisement.

Daniel Webster Was Once Arrested Here

The tenseness of the feeling over the slavery question in this city before the war was described by Professor L. S. Shimmel in a talk last night before the Historical Society of Dauphin County. Professor Shimmel illustrated it by telling of the arrest and trial of Daniel Webster, an old negro, who was claimed by federal agents to be an escaped slave. Daniel was arrested on April 2, 1859, the day after he had buried the last of his children. He had lived in the city nine years. After three days' trial in Philadelphia in which great excitement was aroused by the case, Daniel was discharged. When the news reached this city preparations were made for a grand reception to Daniel, but he never returned, making his way to Canada where he perhaps thought he was more secure from arrest. Several old prints were presented to

If a Philadelphia should ever call at the Dauphin county marriage bureau with young Maggie McGee and ask for a license to marry her, he will find that his visit had been anticipated and the necessary permission may be withheld pending an investigation. The letter hints at a possible elopement. In the communication Mrs. Handy asked that if a man calls at the marriage bureau with Maggie and wants the necessary license, will the Recorder please refuse it? The man
