IF CHILD IS CROSS, FEVERISH AND SICK

Look, Mother! If tongue is coated give "California" Syrup of Figs.

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely. A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, system full of cold, has sore throat, stomachache or diarrhoea.

AGED TUNER SAVES PIANOS DESPITE THE DARKNESS OF YEARS

Edward Decker, Composer and Instrumental Genius to Rescue in Music House

Through the darkness of more than three score years Edward Decker, a tuner for Troup Brothers, South Third street piano dealers, heard the steady drip, drip of a leaking pipe in the warehouse during the wee sma' hours this morning.

What might happen to the splendid instruments if they were not moved out of the way of the water was the first thought that flashed across Decker's mind. He was quick to act. The darkness of the night didn't bother him; he's long been accustomed to a more impenetrable curtain than night.

For more than a year of his sixty-four years Mr. Decker has been tuning pianos and organs for the Troup Brothers. Small of stature, silvery haired, low voiced, grammatically perfect in his use of English, Mr. Decker is one of the most popular attaches of the music house.

Born in Cumberland county of musical parents, he has followed the practice of tuning pianos for more than forty-four years. That he is a genius is more than evidenced by his ability to take apart, piece by piece, the hundreds of sections of an organ or piano and put them together again.

But that isn't all Mr. Decker has. His more widely known composition is "Beauty's Eyes." And Edward Decker has been totally blind since his birth.

Bucket Brigade When Weather Man Fails

The weatherman doesn't seem to be working much in harmony with the Orpheum's call for a million gallons of water. Manager Hopkins was really expecting that some fine before Monday morning there would be enough precipitation to fill the mammoth tank that is carried for the six diving machines and as nymphs enjoy and in fact must have the pure water, he made a special effort to gratify their desires.

So if you should happen to be in the vicinity of Locust street on Monday morning, you're apt to see the bucket brigade at work. And since 29,000 gallons of water are required to fill the tank, that parade is apt to be pretty continuous all morning. The route of the parade will be from the Orpheum down Locust street to the River. Fill the bucket, counter-march and then back to the theater.

LITTLE DEMAND FOR LABOR CAUSED INCREASE IDLENESS

Albany, N. Y., Feb. 12.—A lessened demand for labor was responsible for an increase in the percentage of idleness among organized workers during 1913, the State Labor Department reported to-day. The percentage of idleness in New York State last year was 25.3 as against 17.3 in 1912. At the close of the year, idleness had reached a percentage of 38.8, a record figure. The percentage was relatively greater in New York city than in the remainder of the State.

TELEGRAPHIC BRIEFS

Suits against six railroads to test the constitutionality of the Nebraska constant fare and freight rate laws, were dismissed in the United States Court at Lincoln, upon motion of the State, the railroads having put the required law into effect. Governor Walsh, of Massachusetts, in his first message to the Legislature, recommended consolidation of departments caring for the defective, delinquents and delinquents of the State. Inquiries by the Public Ledger, Philadelphia, elicited response from all parts of the country denouncing the \$25,000,000 good roads bill as an unqualified political grab. James H. Garfield, of Cleveland, Secretary of the Interior under ex-President Roosevelt, proclaimed himself a candidate for the Progressive nomination for Governor at a banquet in Lima, Ohio, which opened the Progressive State campaign. Mrs. Minnie E. Bond, suing Senator Thomas P. Gore for \$50,000 for alleged attack, testified in the trial of the case at Oklahoma City. Other witnesses, on cross-examination, admitted political intrigue in connection with the case. The labor leaders planned a mobilization of Detroit's unemployed to warn laboring men against going to that city to seek work, and when 3,000 men began to march, in front of an employment office, the police interfered with resultant rioting. Suffragettes burned a Carnegie library near Birmingham, England. Mexican rebels cut the water supply of Tampico to force the Federals from the city's defense for a battle in the open country.
