ited the row yesterday and found parts of the lower end of the row without the boiler and water tank or furniture. The upper end was filled with the dwellers, huddled about a few stoves in which part of the row was burning.

Little Aid Asked At the offices of the charitable organizations this morning surprise was expressed over the fact that the bitter cold weather of to-day and yesterday has not increased materially the number of applications for help in the way of food, coal and clothing.

At the office of the Associated Charities it was said that there was no unusual rush for help, but it was stated that a number of applicants had called during the morning.

Zero The weather was colder by one degree to-day than it was yesterday. This morning at 8 o'clock the official thermometer at the Federal Building registered one degree above zero.

One of the commissioners, that our administration will be judged by results rather than by the personnel of the employees. It is up to us to make good in the work that is under our charge, but too often the public is misinformed regarding the real objects sought to be attained and consequently jumps to conclusions which are not justified by the real conditions.

There appears to be no doubt whatever about the appointment of the old Park Commission as the first City Planning Commission, and it is understood that Mr. Taylor will introduce his resolution creating this commission at the meeting of the Council next week.
