M'CUAIG MAKES PLEA FOR INNOCENT CHILD

Scores Those Who Plot Against Responsibilities of Rearing a Family

Dr. McCuaig, whose lectures on sex subjects have attracted wide attention, spoke to a large audience last evening on "Child Murder." He did noot mince words and his talk was plain and straightforwaard. Among the points he made were these:

"'Lo, children are an heritage of the Lord, and the fruit of the womb is His reward,' but the men and women of this country no more lock and bar their doors against burglars than they lock and bar their doors against children."

"Two hundred thousand women in Pennsylvania last year smote the hand of God, after it had been reached out to give them children."

"There are more murderesses in Harrisburg to-night than have been legally put to death in the United States since the signing of the Constitution; and of these murderesses many boast of their crimes."

"The penitentiaries of Pennsylvania could not begin to hold the men and women who have plotted and planned the death of helpless innocents."

To-nifiht at 7.45 Dr. McCuaig will speak in the Fourth Reformed Church on "Bad Books, Bad Plays and Bad Pictures." He spoke this afternoon on "Woman Before Marriage."

Wilson's Veto Awaiting New Immigration Bill

By Associated Press

Washington, Feb. 17.—President Wilson's veto is waiting for the Burnett immigration bill if it passes Congress providing for the much discussed literacy test, according to the best information to-day in circles close to the White House.

Thousands of naturalized citizens all over the country have been campaigning against the bill, which caused ex-President Taft to veto the same bill the year before he went out of office. President Wilson will give public hearings at the White House before he takes action.

Mackay Companies Have Very Successful Year, Shareholders Hear

New York, Feb. 17.—The annual report of the Mackay companies was issued this afternoon. It states that it is with satisfaction that notwithstanding the reaction in trade during the year 1913 and in marked contrast to the unfavorable financial showing made by most railroad systems and other quasi public corporations, the Mackay companies are also to report that extensions have gone on as usual without the issue of obligations and without the use of any part of the reserves, which have been built up in the past.

Not only this, but the reserves have been increased, not so largely as in previous years but substantially while at the same time the physical condition of the properties of the telegraph and cable system have been kept up to the highest point of efficiency. The Postal Telegraph Cable Company has extended its system into parts of Missouri and Oklahoma and North Dakota, not heretofore reached, and strung many additional wires on its poles throughout the country. The commercial cable company has renewed parts of the oldest of its three cables between Waterville, Ireland, and Western-Super-Mare, England. The Gott invention by which the company's submarine cables and land lines may be joined together into one continuous circuit whenever desired, and the whole operated by Morse instruments in the Morse code is in daily use. Attention is called to the fact that the combined land and oceans system is the largest in the world.

Explorers Find Bones of Members of Cromer Expedition in Peru

New York, Feb. 17.—Members of the Besley expedition which left here last summer to explore uncharted regions of South America, returned today on the steamship Byron and reported that they had found the bones of members of the Cromer expedition, who entered the wilds of Peru nearly two years ago and were never heard from.

Traces were found also of the lost Seljan expedition, which took the same route as the Cromer expedition, and Captain Besley thought that the bones might have been the remains of members of either party. The Seljan expedition was in search of rubber.

Besley said he encountered on the trip savage cannibal tribes armed with poison arrows and on one occasion his party was attacked by them. A few gunshots drove them off.

STEADY TONE PREVAILS IN MARKET DURING DAY

Prices Moved Upward Slowly, But Higher Figures Were Not Well Taken; Bonds Steady

By Associated Press

New York, Feb. 17. — The market was relieved to-day from the pressure directed against it during the preceding session, but made little progress toward recovering the losses then inflicted. The tone was steady throughout the forenoon, but speculative buying was limited, and its influence was nullified by renewed weakness in New Haven and profit-taking in specialties which recently had been strong.

For a time prices moved upward slowly, but offerings at higher figures were not well taken. Some of the specialties made good gains, but the railroad stocks once more were inclined to lag behind and the movement as a whole was insignificant.

Bonds were steady.

THREE DAYS' ACCUMULATION OF MAIL IS DESTROYED BY FIRE

By Associated Press

Brattleboro, Vt., Feb. 17.—Every post office in Vermont was notified to-day that a mail car containing a three days' accumulation of mail was destroyed by fire during the night on the West River branch of the Central Railway. The mail had accumulated here because snow blocked tracks made it impossible to send out the car. The flames started from attempts to thaw the frozen running gear, it is said.
