### An Honest Druggist Often Gives Good Advice

It gives me great pleasure to take this method of thanking you for what Dr. Kilmer's Swamp-Root has done for my wife and me. I have cheerfully recommended it to all sufferers from kidney trouble.

My wife had suffered terribly from kidney disease and had tried all kinds of patent medicines with no success, until a druggist recommended Swamp-Root. That brought the only relief she has had in years and she is now feeling better than she ever did before. I believe this is due entirely to Swamp-Root and stand firm in my statement when I say that Swamp-Root is the king of all kidney remedies. You have my consent to publish this statement at any time in the interest of humanity.

Yours very truly,  
E. B. TINGLE,  
Tecumseh, Nebr.

Subscribed and sworn to before me, this 4th day of December, 1911.  
C. E. SMITH, Notary Public.

This is to certify that E. B. Tingle, of this city has purchased Swamp-Root of us several times.

### DISCUSSES FEDERAL OWNERSHIP OF WIRES

#### Pittsburgh Division Manager Talks on Question Being Agitated by Postmaster General

At the regular monthly meeting of the Harrisburg Telephone Society, held in the Board of Trade last night, Walter B. Clarkson, division manager of the Bell Telephone Company, Pittsburgh, discussed in considerable detail the proposed nationalization of the telephone and telegraph by the federal government. Among other things Mr. Clarkson pointed out that ever since the telegraph was invented by Samuel B. Morse in 1844 practically all of the postmasters general had at one time or another recommended government ownership of the telegraph and said that when John Wanamaker was postmaster general he even went to the extent of compiling a 250-page book embodying his recommendation in this direction. Mr. Clarkson pointed out that the novelty of the present situation lies in the fact that not only do we have a postmaster general again making this suggestion, but that for the first time we find a member of the House of Representatives and a senator co-operating with him in the general agitation of the question.

Mr. Clarkson spoke of the comparisons which have been made between rates in the United States and foreign countries, but said that too often no comparison had been made between the service as furnished in the various countries. People whom he has met and who have tried telephone service abroad have assured him that the American people would not put up with such service. One of the arguments advanced by those who favor government ownership is that the success of the parcel post is convincing evidence that the government can take over the telephone and telegraph systems. In answer to this Mr. Clarkson showed that the taking over of the parcel post was nothing new; it was merely carrying more mail matter and larger packages by an organization that had been in existence for some time. To take over the telephone and telegraph systems, however, he said, means the departure of the government to an entirely new field of labor for which there is no organization.

Mr. Clarkson said that under civil service, initiative is taken away from the employees. He pointed out that Mr. Clarkson told his hearers that while personally he thought there was no likelihood of the government taking over the telephone and telegraph systems in this country, yet he thought that each telephone employe as well as every citizen of the country should think over the arguments advanced on both sides of the question and decide for themselves whether or not there is any merit in the proposition.

Among those who commented upon Mr. Clarkson's paper were J. Heron Crossman, Jr., a former resident of Harrisburg and now general commercial superintendent at Philadelphia; J. C. Lynch, general superintendent of traffic; James W. Hubbell, traffic engineer; A. H. Osterman, general commercial engineer, all of Philadelphia; W. W. Henderson, district commercial superintendent, Pittsburgh, and J. T. Harris, traffic superintendent, Harrisburg.

### Boys' Eye Gouged Out in a Sledding Accident at Riverside

While coasting down the hill at Lewis street yesterday, 11-year-old Early McCauslin, son of Harry McCauslin, of 3220 Green street, Riverside, ran into another sled and so badly injured his right eye that he will lose the use of it.

None of the boys and girls can tell just how the accident happened. Several boys were at the bottom of the hill, going up to take another slide when Earl started down. He failed to get out of the way of the boys coming up the hill and the sharp point of the runner of one of the sleds struck him in the right eye. He probably will never see with that eye again.

### DENY PURCHASE OF MILL

Reports circulated to-day to the effect that the Pennsylvania Steel Company had purchased a small iron and steel plant which had been located on Staten Island for sometime was denied at the offices of the steel company this afternoon. ### BAR BANQUET PLANS ABOUT COMPLETED

[Continued from First Page.]

Judge Charles V. Henry, Lebanon, will be the guests of honor. Additional Law Judge S. J. M. McCarrell and Judge W. Rush Gillan, Franklin, were the other two guests invited, but the illness of both will probably prevent their attendance. The Lebanon and Franklin county jurists were invited by virtue of their close connection with the Dauphin courts during the illness of Judge McCarrell.

Plates will be laid for more than sixty attorneys. The decorations will be a feature, an attractive scheme of yellow and white to be carried out. An orchestra of fifteen pieces will furnish the music for the singing. Then of course there will be the toasts. William M. Hain, the retiring president, will be toastmaster, and according to the usual custom the subject of the responses as well as the names of the respondents are a secret. These will all be set out in the menu however. And in that connection, too, the committee promises a stunt or two that is unique.

The members of the bar and their guests will meet in the reception hall at the Board of Trade where they will be informally received by the retiring president, William M. Hain, and the new president, John Shupp. At 7 o'clock the attorneys and their guests will march up to the great dining hall.

### Bonds of Fire and Park Loans Issued in Such Sums as Needed

Until it is determined definitely just how much of the \$100,000 park and the \$25,000 fire loans will be needed this year for acquiring new parks, playgrounds and fire apparatus, Mayor Royal will not call the sinking fund commission together to issue the bonds.

Commissioner M. Harvey Taylor, of the Department of Parks and Public Property, is preparing plans to the expenditures and will be ready to announce in the near future just how much will be expended in 1914. In order to save interest expenses the city will float only enough bonds for the immediate purpose desired. When the City Council meets to make up the budget for 1914 the \$10,000 to be set aside for the sinking fund and the amount necessary for State taxes and interest charges will be provided for. The sinking fund commissioners will likely wait until the return of City Treasurer O. M. Copelin according to Mayor Royal, before issuing the bonds.

Soft, Fluffy Abundant—Use Parisian Sage. It Stops Falling Hair and Itching Scalp.

If your hair is not as soft and heavy as that of some friend, do not despair—do as she does—give it daily attention. Beautiful hair is largely a matter of care. If it is too thin, make it grow. If it is harsh and brittle, soften it up—fibricate it. If you have dandruff it is because the scalp is too dry and flakes off. Freshen up the scalp with Parisian Sage and all dandruff disappears.

Parisian Sage, sold in fifty cent bottles at drug and toilet counters, is just what you need. It quickly stops itching head, cleanses the hair of dust and excessive oil; takes away the dryness and brittleness, makes it seem twice as abundant, and beautifies it until it is soft, fluffy and lustrous.

You cannot be disappointed in Parisian Sage. Always sold by H. C. Kennedy on money back if not satisfied plan.—Advertisement.

### THE EASIEST WAY TO END DANDRUFF

Stop Falling Hair and Itching Scalp

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of Parisian liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

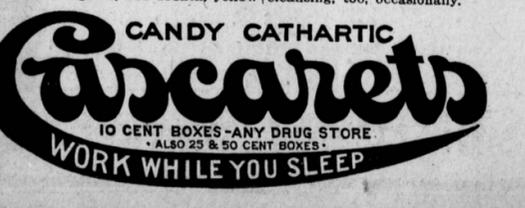

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you want to keep your hair looking rich, do by all means get rid of dandruff, for nothing destroys the hair so quickly. It not only starts the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and everybody notices it. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.—Advertisement.

### YOU'RE BILIOUS AND CONSTIPATED! LIVER IS SLUGGISH—DIME A BOX

A Cascaret to-night will surely stimulate you out by morning—a 10-cent box will keep your head clear, stomach sweet, liver and bowels regular and make you feel cheerful and bully for months. Don't forget your children—their little insides need a good, gentle cleansing, too, occasionally.
