PENBROOK CUT OFF BY BIG SNOWSTORM

Traffic by Road Almost Impossible Since Last Saturday's Heavy Fall

Special to The Telegraph
Penbrook, Pa., Feb. 18.—Since Saturday this town has been almost completely isolated from the surrounding world and all efforts to break through this have proved unavailing.

All of the roads for miles are piled deep with snow drifts, the snow in many cases being from eight to fifteen feet deep. Gangs of the townspeople have worked steadily in their efforts to break through but none of the roads have been used as yet.

Many teams attempted to get through but found it impossible. Several wagons have been abandoned for the time being by their owners who removed the horses and permitted the wagons to stick in the snow. Work was resumed to-day and it is expected that a path wide enough for wagons will be shoveled through.

The Atlantic Refining Company tank wagon from Harrisburg with six horses attached was one of the first teams to attempt to get into town to-day. None of the residents have been able to send any mail and none has come out since the storm on Friday.

When the Stomach Goes Back to Work

Then Is the Whole System Glad.
Stuart's Dyspepsia Tablets
Will Quickly Put the Stomach in Shape

When the stomach fails to do its work properly the whole machine of man is unstrung and wholly incapable of work. This condition obtains from the thickest mucus to the big, strong, pumping heart.

It is a wise law of nature that has made the stomach man's strongest organ, but when it stops work man ought to realize that it does so because it can continue no longer.

"Ho, ho! Stuart's Dyspepsia Tablets are the Real Appetite Bringers." Stuart's Dyspepsia Tablets will certainly give the stomach the repair it needs and is always crying aloud for. A tablet taken after each meal will in the course of several hours become a portion of the digestive fluids. It will build up these fluids. First in the stomach, then in the intestines. The liver is the storehouse of the body. Here are assembled all the reserve fluids of the system and here the various ingredients of Stuart's Dyspepsia Tablets mingle with the fatty natural juices and strengthen them or if they are too strong then they will be reduced to their proper strength and proportion.

Stuart's Dyspepsia Tablets contain a single ingredient, one grain of which is sufficient to digest 3,000 grains of food. Just think how gratefully such an element is received into a body that cannot digest at all without a new weakening of the already depleted juices.

Go to your druggist this very day and obtain a box of Stuart's Dyspepsia Tablets, price, 50 cents. A week's trial will make you a new man and your stomach will go back to work.

WHAT TO DO FOR NEURALGIA

The one great symptom of neuralgia is pain; the one great cause is lack of nutrition for the nerves, in plain language—starved nerves.

There are two things to do for any form of neuralgia. Apply heat to the affected part to soothe the pain, and feed the nerves by taking a tonic containing the salts needed by them. Heat, as afforded by hot foment, hot water bags, etc., lulls the inflamed nerves into temporary quiet. It does not cure. Not until the nutrition of the nerves is restored will the inflammation subside.

Dr. Williams' Pink Pills furnish to the blood the needed elements and the blood conveys them to the nerves. The only way of getting food or medicine to the nerves is through the blood. Remember that.

Neuralgia is a general term. It means inflammation of a nerve. It is given different names according to the nerve affected. Sciatica is neuralgia of the sciatic nerve. Application of heat will soothe the pain in all forms of neuralgia and Dr. Williams' Pink Pills will correct the condition that caused it.

Your own druggist sells Dr. Williams' Pink Pills and the Dr. Williams' Medicine Co., Schenectady, N. Y., will send you a little book on "Home Treatment of Nervous Disorders" for the asking.—Advertisement.

OLD SUBSCRIBERS

Quite a little sheaf of letters has celebrated the taking over of the Public Ledger by its new proprietors. Some of them give a new meaning to the phrase "Old Subscriber." Many have read it all their lives, as well as all the Ledger's life. The period varies but the loyalty does not.

Says one of the class of '1840: "I would sooner miss my breakfast than my Public Ledger."

Mitchel Takes Hopeful View of Labor Situation

Special to The Telegraph
Philadelphia, Feb. 18.—A hopeful view of the industrial and political outlook was taken yesterday by John Mitchell, ex-president of the United Mine Workers of America, who is in Philadelphia as a guest of the officials of that labor organization now trying to gain wage concessions from the bituminous coal operators of this State.

Mr. Mitchell thought discussion on questions relating to the present dispute between the coal operators and the mine workers, who are in daily session here, unnecessary. He took a sunny view of the situation and thought there was no cause for apprehension. He said that the operators and miners had succeeded in settling their difficulties for the last ten years by the present method of mutual discussion and suggested there was no need for being pessimistic.
