Cheap and Easily Made, But Ends a Cough Quickly. How to Make the Very Best Cough Remedy at Home. Fully Guaranteed.

This pint of cough syrup is easily made at home and saves you about \$2.00 as compared with ordinary cough remedies. It relieves obstinate coughs—even whooping cough—quickly, and is splendid, too, for bronchial asthma, spasmodic croup and hoarseness. Mix one pint of granulated sugar with 1/2 pint of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents worth) in a pint bottle, and add the Sugar Syrup. Take a teaspoonful every one, two or three hours. Tastes good. This takes right hold of a cough and gives almost instant relief. It stimulates the appetite, and is slightly laxative—both excellent features. Pinex, as perhaps you know, is a most valuable concentrated compound of Norway white pine extract, rich in guaiacol and the other natural healing pine elements. No other preparation will do the work of Pinex in this mixture, although strained honey can be used instead of the sugar syrup, if desired. Thousands of households in the United States and Canada now use this Pinex and Sugar Syrup remedy. This plan has often been imitated, but the old successful combination has never been equalled. Its low cost and quick results have made it immensely popular. A guaranty of absolute satisfaction, or money promptly refunded, goes with this preparation. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

On Saturday night the Baldwin company, of Steelton, will attend with a band.
