WHITE STAR LINER BRITANNIC LAUNCHED

Belfast, Ireland, Feb. 27.—The launching yesterday of the Britannic, the 50,000 ton White Star liner, marked an important development in constructional safety, so far as engineering ingenuity can secure it. The Britannic had only just been laid down when the Titanic disaster occurred and as a result of that accident the plans of the new liner were almost completely remodeled. She is a triple screw steamer 900 feet in length and there has been introduced into her construction every device possible to prevent a recurrence of the disaster which overtook the Titanic. A complete inner skin extends to a considerable height above the load line, the most vulnerable portion of the vessel and the height and number of bulkheads has been increased. It is claimed for the Britannic that she will be able to float with six compartments flooded.

VILLA ACCEDES TO DEMAND FOR BODY

eral Venustiano Carranza, received last night a communication from Secretary of State Bryan regarding the death recently at Juarez of W. S. Benton, a British subject. The message was presented to General Carranza through Ysidro Fabela, acting secretary of foreign relations in the provisional cabinet. The belated communication, had been given to Senor Fabela by A. Frederick Simpich, the American consul here, who returned hastily last night from Cananea, where he had been called to investigate the anti-Chinese disturbances in the Sonora mining town. General Carranza during the day had been reticent in discussing the Benton incident, but it was evident that the matter was being seriously discussed among his advisers.

Huerta Has Not Made Appeal to U. S. For Aid

Washington, D. C., Feb. 27.—Rumors current in New York that President Huerta had requested the assistance of the United States on matters to be based on the memorandum issued by the Huerta authorities at Mexico City last night appealing to this government to suspend the effect of the recent decree raising the embargo on arms. Whether such an appeal amounts to a request for assistance is regarded as a matter of construction, but there is no denying the nature of a direct request for assistance, so far as officials have made known.

Mexican Government Blames United States

Mexico City, Feb. 27.—Blame for the killing at Juarez recently of William S. Benton, a British subject, was indirectly placed upon the United States last night in a memorandum sent by the Mexican government to Washington. Copies of the document also were delivered to the foreign legations here. Hope was expressed in the memorandum that the United States would recognize the evil following the act of permitting the importation of arms by the rebels and take steps to remedy it. The repeal by the government of the constitution prohibiting the exportation of arms from the United States to the rebels, places the rebels in a favorable situation for committing outrages and prevents the constituted government from acting quickly and as energetically as it would desire such excesses," said the memorandum.

Plans Made to Carry Chinese Across Border

Nogales, Sonora, Mexico, Feb. 27.—As a result of the anti-Chinese demonstration at Cananea, Sonora, this week, arrangements were made to-day to transport Chinese or other foreign residents who might be endangered by a recurrence of the demonstration across the line into the United States. Should further anti-foreign riots occur, it is expected that temporary special dispensations regarding Oriental immigration would be made by the United States immigration officials along the border.

Edwards Says Bauch Was in Prison February 18

Washington, D. C., Feb. 27.—Consul Edwards, at Juarez, to-day reported that he saw the American, Gustav Bauch, in the United States on February 18 and that, according to authorities in the border city, Bauch was afterward removed to Chihuahua with other Americans, names not given. Up to the time Secretary Bryan left the State Department for the Cabinet meeting nothing had been received from Consul Garrett at Nuevo Laredo concerning the latest developments in that official's inquiry into the hanging of the Texas rancher, Clemente Vergara, at Hidalgo, Mexico. Mr. Bryan said to-day he had no information concerning the reported confessions of General Villa that he had ordered Benton's execution without a court-martial.

Carothers Postpones His Trip to Chihuahua

El Paso, Texas, Feb. 27.—George C. Carothers to-day admitted that he had postponed his departure for Chihuahua and while he was silent as to his reasons it was assumed that the arrival here of the British emissary, Charles Arthur Perceval, to participate in the Benton investigation, and the receipt by Carothers of a dispatch from Mexico accounted for the delay. The presence of Perceval, who is coming here from Galveston, where he is Brit-

Red Men Hold Big Initiation at Armory

Hundreds of Red Men last night held initiation ceremonies, "pale faces" into the Independent Order of Red Men at the second boom council of the local lodges, held in the City Grays Armory. Red Men from the Cumberland Valley, Philadelphia, Reading, Sunbury and Lewisport attended the council and one hundred members of Swatara tribe, Lebanon, with a band came in a special train and paraded to the armory. Charles E. Pass, great junior saganore, presided. Among out of town guests were Great Junior Sachem Samuel H. Welker and Dr. Walter R. Rodgers, past great sachem, both of Philadelphia. The adoption decree was in charge of Cornplanter Tribe, the warrior degree in charge of Octorora tribe, and chief degree in charge of Warrior Eagle tribe.

FAVORS ARBITRATION TREATY

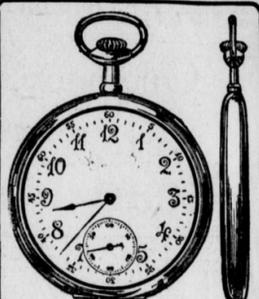

Rome, Feb. 27.—The Italian Foreign Office to-day notified Thomas Nelson Page, the American Ambassador, that Italy is favorable in principle to the signature of a new arbitration treaty similar to that concluded between the United States and Bolivia, as proposed by Secretary Bryan.

STAY AT HOME, YET SEE THE WORLD

dates are being arranged and the papers of Detroit were loud in the praise of the attraction. The Telegraph has arranged to present this series at the Chestnut Street Auditorium for one week, offering a complete change of program every day, with a matinee on Wednesday and Saturday. The price of general admission will be 25 cents, but through the arrangements of the Telegraph every reader of this paper can obtain admission for 10 cents when they present the coupon that is printed in the paper, making the coupon worth 15 cents, thus giving an unusual opportunity to witness the series. Arthur B. Price will tell the story as the pictures are thrown on the screen and to know the countries of the Old World, their attractions, their charms and their mysteries, and to see the places described, in beautiful colored views and motion pictures, is the treat that the Telegraph has arranged for its readers and announces as the opening program a full presentation of the land of Riddles, Russia. Of all the countries of Europe, the one that is the least known and yet which attracts great attention, Russia, in the Niblo series, offers enough of interest to know this land of the czar in a most intimate manner. Grouping one-seventh of all the known land of the world and ruled by an iron hand, the conditions that exist to-day in this country are almost unbelievable to the average person. The comparison of the wealth, extravagance and splendor of the homes of the czar and his cabinet as compared to the subject poverty and the struggle for an existence of the people of the poorer classes is shown in all its truth and is such that it baffles understanding. The titles of St. Petersburg, with its cathedrals, gardens and palaces; Warsaw, the "City of Terror"; Kremlin, the "Sacred City," are pictured, as are the scenes in the country sections where conditions are not generally known to outsiders. The Niblo photographers smuggled a motion picture camera within the sacred walls of the Kremlin; they caught the Cossacks in the drills before the czar; the wonderful flood at Moscow; the strange religious ceremonies at the River Neva; the fair at Nishni Novgorod, the largest of the 16,000 fairs held in Russia yearly; the Russian peasants and their mode of living, and numerous other subjects that are certain to interest everyone. In addition to the views that will show in the natural colors all the gaudy lights of the land of famine, as Russia is known. The Niblo travel talks were declared to be the best since Stoddard by the Hartford (Conn.) Courant and a compliment of this kind is enough to assure the readers of the Telegraph that an unusual treat is in store for them for next week. Russia is the program for Monday night and the doors will open at 7:30 o'clock. There will be a few reserved seats for 10 cents extra, but the greatest part of the auditorium is not reserved, and the first ones to get in line will have the choice of seats. One coupon and 10 cents will admit to each performance and the Telegraph assures its readers that the Niblo travel talks are the kind that entertain while they inform and that it is an unusual attraction at this price of admission.
