What Thin Folks Should Do to Gain Weight

Physician's Advice For Thin, Underdeveloped Men and Women

Thousands of people suffer from excessive thinness, weak nerves and feeble stomachs who, having tried advertised flesh-makers, food-fads, physical culture stunts and rub-on creams, resign themselves to life-long skinniness and think nothing will make them fat. Yet their case is not hopeless. A recently discovered regenerative force makes fat grow after years of thinness, and is also unequalled for repairing the waste of sickness or faulty digestion and for strengthening the nerves. This remarkable discovery is called Sargol. Six strength-giving fat-producing elements of acknowledged merit have been combined in this powerful preparation, which is endorsed by eminent physicians and used by prominent people everywhere. It is absolutely harmless, inexpensive and efficient. A month's systematic use of Sargol should produce flesh and strength by correcting faults of digestion and by supplying highly concentrated fats to the blood. Increased nourishment is obtained from the food eaten, and the additional fats that thin people need are provided. George A. Gorgas and other leading druggists supply Sargol and say there is a large demand for it. While this new preparation has given splendid results as a flesh-toning and vitalizer, it should not be used by nervous people unless they wish to gain at least ten pounds of flesh.—Advertisement.

FEBRUARY WAS COLD

During twenty of the twenty-eight days of February, the average temperature was below freezing. The highest temperature reached during the month was 47 degrees on February 1; the lowest was 0 on February 26. This and the fact that we had 25.5 inches of snow during the month are facts in the monthly report from the local weather bureau. February's temperature was 5.9 degrees below the normal temperature for twenty-six years.

COLONIAL GIRLS AT THE ORPHEUM THIS WEEK

Ben Rolfe's newest musical playlet, "Colonial Days" that appears at the Orpheum this week, is said to be the finest achievement this ingenious producer has offered the valettes. Like "The French Party," "Colonial Days" is an artistic triumph, scenically, musically and the talent employed.

A number of clever young women contribute to the success of the piece and they don gowns that are interesting creations of the period represented. The fact that these gowns are true to "Colonial Days" will offer much opportunity to see just how near the modern creations are coming to these styles.

"Colonial Days" is presented by a cast of some twenty players, is elaborately staged, and contains some of the best vocal and instrumental talent available.—Advertisement.

TAKE TELEGRAPH PARTY INTO FRANCE

[Continued from First Page.]

very start. Seville, famous in song, story and romance, will be visited. Barcelona, the city of flower fetes; Alicante and the fishermen, Valencia, Santa Fe, Jerez, Granada, Elche, Murcia and its famous palms, as well as trips into the more remote sections and motion views and the story is fully described in all of its beauty by Arthur B. Price who will act as the guide for the party. There will be a matinee at 2:15 to-morrow as well as the night performance and Spain will be the subject for both.

On Thursday night, Egypt will be visited; Friday night, Africa and with Barcelona, Ireland will be given. The Telegraph has made arrangements to show this series at the Chestnut street auditorium for the week and instead of the higher prices prevailing for the cost of admission, all this is necessary to obtain admission is to clip the coupon from the Telegraph and

this with ten cents, presented at the box office will be good for general admission and a seat.

Storm Causes Delay The storm of yesterday delayed the arrival of the trunks containing the lanterns of the show. With to-night's performance everything will be in good working order. Clip the coupon and that with ten cents will admit you.

SANITARY TURKISH BATH Mondays For Women Exclusively When Experienced Female Attendants Will Be on Duty

Cleanliness is next to Godliness, says the proverb. Cleanliness is the mother of comfort and contentment is an axiom. Cleanliness is the source of health and happiness. It is easy to keep clean in Harrisburg. The Sanitary Turkish Bath, Russ Building, affords every facility for cleanliness, contentment and happiness. It is the most perfectly equipped establishment in the United States. Mondays it is reserved for ladies exclusively when experienced and courteous female attendants are provided. PHYSICIANS TO MEET Resolutions on the death of Dr. Paul

Hartman will be presented this evening at a meeting of the Dauphin County Medical Society. A committee composed of Dr. H. McGowan, Dr. Frank S. Funk and Dr. W. T. Douglas will meet and draw up the resolutions prior to the meeting. A paper will be read on "What Is a Cold?" by Dr. Norman Shepler.

A TRUE IRISH POET "Aroun' the boroens," by Agnes I. Hanrahan, contains a collection of the earliest poems of one who has already reached the pinnacle of true art. One of the most delightful verses is "Roses."

There's a Rosie Show in Derry, An' a Rosie Show in Down; An' it's like there's wan I'm think' 'Til he held in Randalstown. But if I had the choosin' 'Av a Rosie prize the day. 'Twould be a pink wee Rosie 'Like he plucked whin rakin' hay. Von pink wee Rosie in my hair— He dext it troth—an' kissed it there! White gulls woe wheelin' ron' the sky, Down by—Down by. 'Av a Rosie Show in Derry, An' there's famous wans in Down; Och there's roses all a hawklin' Through the heart av London town! But if I had the liftin' Or the buyin' av a few, I'd choose just pink wee roses 'That's all drenchin' wid the dew— 'Yon pink wee roses wid the tears! Och, wet wee tears!—ay, troth! 'Tis years Since we kep' rakin' in the hay 'Then day—thun day!

Banker Raine, the Million Dollar Defaulter

VOCATIONAL COURSES FOR TECH HIGH

step into the world in a manner fitted to earn his own living. Dr. Downes' Plan "Not all vocations can be taught in the schools," Dr. Downes explained. "But our idea is to provide courses that will lead to a number of trades or vocations. Many of them are similar and overlap and several courses could be added in any one of which the student could obtain training for a trade."

"Everywhere in the county the vocational idea is growing and is taking its place as a predominant factor in public school work. Our manual training courses at Technical high school are mainly educational. The vocational courses would be a step further in fitting the boy for his work in the world."

Domestic Science Report How domestic science courses are conducted in schools in other cities, what the expense of running such a course is and what equipment is necessary will be explained to the special committee on domestic science at the high school on Friday afternoon.

Dr. F. E. Downes, city superintendent, and Dr. D. D. Hammelbaugh, secretary to the School Board, have both made trips during the last week and obtained much data on the subject. Mr. Hammelbaugh while on a visit to Washington made investigations in the schools there and Dr. Downes obtained information while attending the meeting of the superintendents' department of the National Educational Association at Richmond last week. He looked into the woodwork courses in the Richmond schools. On the special committee are Harry A. Boyer, George Kennedy and Dr. Rev. William N. Yates. They will probably report to the board at the regular meeting Friday night.

Damage by Great Storm in Central Pennsylvania

Bloersville—Thousands of dollars of damage was done by the terrific storm. Buildings crumpled before the storm's fury, or were unroofed; trees, telephone poles and fences were blown down and carried away. The Farmington Creamery Company's building was totally destroyed and parts of the roof carried a quarter of a mile and the large windmill tower on the property of G. R. Fry in Bloersville was blown down. A new carriage house, just nearing completion was blown down and totally demolished for Theodore Hoon. The large barn on John Crieder's place was partially unroofed, and his wagon-shed, semi-demolished. Part of the steel roof on the Shanabrook farm was blown off, rafters and all, and just a few hundred yards to the east of the latter place the new steel roof on William Truema's barn was blown off. A wagon-shed, 30x40 feet, belonging to Francis Mentzer, was lifted entirely off its foundation.

New Cumberland—A portion of the tin roof was blown off at the home of M. D. Hoerner in Sixth street. Mechanicsburg—A section of the barn with a large portion of roof recently added at the farm of George B. Vogelsong at the extreme western edge of town, was carried away.

Anville—Much damage was done here, the roof of a stable being blown down and trees of all varieties being blown down, the latter causing the town to be in darkness Sunday night. Millersburg—Houses and stables were unroofed, window panes broken, signs torn down and electric wires torn from their fastenings. The footpath of the river bridge was so badly torn up that it had to be closed to the public. A large cattle shed belonging to Samuel Black, a farmer two miles from town, was completely demolished.

Dillsburg—Rural mail carriers did not attempt to leave the Dillsburg Post Office and the stages from Wellsboro, Berks and York Springs could not make their usual trips. All the borough schools were closed and Morrett Coover's shirt factory was compelled to shut down, as the wind shook the building so that the plastering fell from the ceiling. About half of the roof on the barn on J. H. Dick's farm, near Mt. Zion, was torn off.

Piketown—Some of the telephone wires were out of service. The roads which had been opened were blown shut again and much difficulty was experienced in getting through. The barn belonging to John Rhoads was almost completely torn to pieces. The roof and one gable end being altogether torn down. The barn on the George Gohl farm had the gable end blown off and the doors were torn off. On the George Reed farm the roof of the barn was broken in half. The half fell down into the barn and the other half was carried about 100 feet into an orchard.

ACID STOMACHS ARE DANGEROUS

Nine-tenths of All Stomach Trouble Said to Be Due to Acidity

A Physician's Advice on Cause and Cure

A famous physician whose successful researches into the cause and cure of stomach and intestinal diseases have earned for him an international reputation, said in the course of a recent lecture that nearly all intestinal troubles, as well as many diseases of the vital organs, were directly traceable to the dangerous condition of the stomach which in turn was due nine times out of ten to excessive acidity, commonly termed sour stomach or heartburn, which not only irritated and inflamed the delicate lining of the stomach, but also set up gastritis and stomach ulcers. It is interesting to note that he condemns the medical treatment for the stomach, stating that he and his colleagues have secured remarkable results by the use of ordinary bisulphated magnesia, which, by neutralizing the acidity of the food, removes the source of the trouble. He contends that it is as foolish to treat the stomach itself as it would be for a man who stepped on a tack to rub liniment on the foot without first removing the tack. Remove the tack and the foot will heal itself—neutralize the acid and stomach troubles will disappear. Irritating medicines and medical treatments of the stomach remain acid; remove the acidity, and there will be no need for medicine—the inflamed lining of the stomach will then heal itself. Sufferers from acidity, sour stomach or heartburn should get a small bottle of bisulphated magnesia from their druggist and take a teaspoonful in a quarter of a glass of hot or cold water after meals, repeating in fifteen minutes, if necessary, this being the dose which the doctor has found most efficacious in all cases.—Advertisement.

WASHING WON'T RID HEAD OF DANDRUFF

Dissolve It, That's Best Way

The only sure way to get rid of dandruff is to dissolve it, then you absorb it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. Do this to-night, and by morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. If you want to preserve your hair, do by all means get rid of dandruff, for nothing destroys the hair more quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and everyone notices it. You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.—Advertisement.
