### RESISTANCE TO DISEASE

Why is it that one person can work all day standing in cold water, snow and snow with less exposure effect while another with less exposure contracts colds, pneumonia, rheumatism, sciatica or something equally distressing and dangerous?

Because in the first case the body was in such perfect balance that there was "resistance" to disease. In the second there was lack of tone that invited ill health.

Keep your system toned up with Dr. Williams' Pink Pills and foods that once distressed you will be harmless, exposure will bring on fears of rheumatism and neuralgia and even germ diseases need hardly to be dreaded.

Dr. Williams' Pink Pills assist digestion, correct the lassitude, the pallidness of the heart, shaky nerves and the pallor of face and lips that are the results of thin, impure blood.

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia, nervousness. Take them as a tonic if you are not in the best physical condition and cultivate a resistance that will keep you well and strong. Get a box from the nearest drug store and begin this treatment now.

## RECEIVERS NAMED FOR BIG COMPANY

### Creditors of Eberly & Orris Manufacturing Co., of Mechanicsburg, Ask Court to Appoint

Special to The Telegraph.  
Mechanicsburg, Pa., March 3.—Yesterday the court appointed receivers for the Eberly and Orris Manufacturing Company, of Mechanicsburg, on motion of S. E. Bashore and S. B. Sadler. J. C. Lambert, representing the corporation, and D. W. Sunday, and George E. Lloyd, representing the stockholders and creditors, were appointed by the court, and their bond was fixed at \$40,000, and approved by the court.

The Eberly and Orris Manufacturing Company was organized in 1906, and is engaged in the manufacture of spokes, wheels and rims, being one of the largest concerns in this place, and employing nearly one hundred men.

Lack of current funds necessary for conducting the business was the cause of the present action. As there are no mortgages of liens against the real estate of the company, it is thought that the creditors will be paid in full, and that the stockholders will receive considerable proportion of their investment, if it should be found necessary to sell the plant. By the present proceeding it is hoped to make a sale unnecessary and to allow the business to be conducted until arrangements can be made for paying off the indebtedness. Large orders are on hand, amounting to, at least, \$50,000, and these will keep the plant going for some time to come.

## Penbrook Tax Rate Fixed at Five Mills For 1914

Several of the councilmen favored a higher rate, but it was pointed out that in view of the few improvements contemplated for this year it would be sufficient. The biggest improvement will be the repairing and regrading of several streets, Main street, of course, being the principal item. The proposition to present an ordinance making way for the paving of Main street was not presented and according to the statement given out by the members, the street will not be paved until the Spring of 1915.

## THIS MUST BE A GREAT KIDNEY REMEDY

Several years ago I suffered with bad pains in my back. I was very restless, often getting up several times during the night. My limbs were swollen and I dropped in weight to 147 pounds. I have taken Swamp-Root several different times. I gained in weight to 206 pounds, and I am well and have been ever since I commenced taking Swamp-Root.

Very truly yours,

Barrow, whose name is signed to the foregoing writing, bearing date Jan. 15th, 1912, personally appeared before me in my County aforesaid and made oath that the said writing is true in substance and in fact. There is no connection between the Curtis Publishing Company and the Public Ledger Company but this: that the name of Cyrus H. K. Curtis stands at the head of both companies. The Ladies' Home Journal and The Saturday Evening Post have reached enormous circulations, have become powers in the publishing world, and are now advertising mediums of unmeasured strength, without forfeiting the respect of a single subscriber or a single advertiser. From these facts Mr. Curtis got such a belief in the unerring good sense of the public that he bought the Public Ledger with the intention of giving Philadelphia a newspaper of which Philadelphia might be proud.
