

ELOPERS TO RETURN

MRS. FRANCIS HEWITT BOWNE
New York, March 6.—Frances Hewitt Bowne, former Broadway actress, who eloped with Jordan L. Mott, 3d, grandson of the "Iron King," and heir to millions, two years ago, has written to her attorney here, informing him that she and Mott will soon leave Japan, where they have been living, and return to New York. It will be remembered that Mott's father engaged Hector Fuller, soldier of fortune, to chase the elopers half way around the world and bring back his son and that Fuller failed in his mission. According to Mrs. Bowne, whose husband divorced her and recently remarried, Mott intends to endeavor to secure a divorce from his wife on the ground of desertion, marry Mrs. Bowne and with her do a little work here along the lines of social uplift.

IF KIDNEYS AND BLADDER BOTHER

Take Salts to flush Kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acids of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever. Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.—Advertisement.

Daniel Guggenheim

The most amazing statement recently made by a multimillionaire is that attributed to Daniel Guggenheim, president of the American Smelting and Refining Company, who declares that the United States Government should own all railroads and telegraph and telephone lines. Mr. Guggenheim says the success of the parcel post has converted him to the belief that the United States Government could operate our railroads, telegraph and telephone lines better than they are operated at present.

"COERCION" TO PASS LOW TARIFF BILL

So Says Senator Works in Reviewing First Year of Wilson Administration

Washington, D. C., March 6.—Emphatic disapproval of the administration, the legislation which it has passed and of what he called the "coercion" used by President Wilson to compel action by Congress was voiced in the Senate to-day by Senator Works, of California, in delivering what he termed a "friendly" review of the achievements of the executive and legislative branches of the government in the "one year of Democratic rule."

A year of almost continuous congressional session, "mostly for the political disadvantage of the Democratic party," was declared to be the most striking feature of the administration. The senator reviewed the tariff bill an charged that "but for the coercion used by the President upon Congress it never would have passed." The senator declared that it was evident to everybody that the administration is opposed to granting suffrage to the women, "but lacks the courage to come out openly and oppose it." He continued: "It is too early to say

whether the amount realized from taxation will make up the deficiencies resulting from the tariff reductions, it is being whispered about that the actual collections from incomes will fall far short of the estimates on which the bill was founded, and that the loss of tariff revenues and the shortage under the income tax law will result in a deficiency in the treasury."

THE SENTENTIOUS MR. DAVIS

R. H. Davis, who edits a flock of magazines, and Charles E. Van Loan, who writes for a flock of magazines, are great friends. When Van Loan meets a friend, he has a habit of thumping him on the shoulder or slapping him mightily—a trait which had begun to get on Davis' nerves. "Look here, Charlie," he said one day, after Van Loan's effusive greetings had bruised him up, "I'll get you some day for this sort of thing."

A few days later the two met, and Van Loan smote Davis below the belt—Davis being quite ample in that section of his anatomy. That blow was the last straw. Davis, evincing unusual dexterity, grasped the little finger of Van Loan's left hand, and bent it backward sharply. It cracked. "Oh, my!" shrieked Van Loan, throwing in some extra language, and hopping up and down on one foot, "you broke my finger!"

Davis showed no sympathy. "I know it," he said sententiously.—The Popular Magazine.
