Award Contracts

Following another lively discussion the board awarded the contract for furnishing 71,000 book covers for the schools to the Holden Patent Book Cover Company at its bid of \$1,110.50. The Holden company covers were considered the superior however, in view of the fact that the National covers were used last year and proved so poor as to require the firm to supply an additional 14,000 during the year to make good its contract.

The special committee on domestic science in the schools reported progress and it is expected that a more detailed report will be submitted in the near future.

Vaudeville and Pictures—Every after-noon and evening. "AROUND THE WORLD IN TWO HOURS"

After four very successful trips on board the ship Cleveland, Elmer Dwiggins has decided to take just two more, when all those wishing to accompany him on this grand cruise may do so by leaving the Majestic Theater to-day at 2:30 and to-night at 8:30, going completely "Around the World in Two Hours," with stops at all of the most interesting ports of interest. Over a mile of motion and colored pictures are used in this trip, all presented and fully explained by Mr. Dwiggins, for in addition to being a globe-trotter, lecturer and linguist, he is also a humorist of the subtler kind. In his travels he nearly always sees the funny side of things—always the interesting side—and never the statistical guide-book view of things.—Advertisement.

# The Action of Cough Syrup

Coughing is the result of congestion and inflammation in the membrane of the throat and respiratory organs. The cough is the natural means of raising the phlegm resulting from the congestion and to make coughing less painful and remove the cause, medicine must be taken to act on the membrane of the throat and the blood.

Right there is where Cough Cures containing Opium, Morphine, Chloroform, Codeine, or other harmful drugs get in their dangerous work. They "dope" the stomach and drug the nerves of the throat into insensibility, stopping the cough for a time, but leaving the entire system in worse condition than before
