

BIG IMPROVEMENTS WILL BE MADE

[Continued From First Page]

pany to the presidency at the organization meeting. Although no definite statement as to what will be done this year can be made until after the meeting of the directors, it is believed that renewals of trackage, paving and new equipment will require the expenditure of more than a hundred thousand dollars during 1914.

One large expenditure is certain. Derry street from Thirteenth to Twenty-third street will be retracted and repaved. Mr. Musser says the old foundation is about worn out and heavier tracks will be laid. The city intends paving Derry street from Eighteenth to Twenty-third street and the traction company has decided to put in new foundations, heavier tracks and new paving along this street at the same time.

Lines to Be Rebuilt
Contemplated paving jobs in Steelton will require the expenditure of much money on the Steelton line. Front, Second and probably Nineteenth streets will be repaved and these the traction company will have to improve with new paving between the tracks. Tracks in South Third street, between Chestnut and Mulberry streets, will be taken up during the year and every one of the streets which the city plans to pave or repave this year will require the traction company to follow along with paving.

New cars will be purchased again, but it is not yet decided how many will be asked for. Anywhere from three to ten are bought each year. Last year seven were added to the equipment.

Mr. Musser has succeeded H. D. Walbridge, of New York, as president and E. F. Meyers succeeds to the vice-presidency, vacated by Mr. Musser. John O'Connell was re-elected secretary and treasurer.

A Quick, Sure Way to Banish Hairy Growths

(Aids to Beauty)
Here is a true hair-remover, and no pain or injury will follow its use: With a little powdered delatone mix enough water to make a stiff paste, apply to hairy surface and after 2 or 3 minutes rub it off. With this paste comes every trace of hair and when the skin is washed to remove the remaining delatone it will be soft and clear and free from blemish. Excepting in very stubborn cases, a single application of delatone is sufficient.

EIGHTEEN MEMBERS STEER'S CREW

[Continued From First Page]

mate, and three of the members of the crew were brought ashore. The revenue cutter Itasca reached the scene after the steamer went down. The commander of the cutter was signalled from shore of the predicament of the eighteen men, among whom is the captain, and the Itasca put to sea to search for the missing men.

Life Savers Handicapped
There are two big sand bars near the spot where the steamer went to the bottom yesterday and the life savers were seriously handicapped in launching their boats. One was finally launched but was upset and the life savers waded ashore.

The captain of the Tower and the seventeen men took to a long boat. It was so overcrowded that they were afraid to try landing on the first bar and hung around outside hoping the turbulent sea would subside. Snow was falling; it grew thicker about 3 a. m. to-day and the long boat was lost from view.

Could Not Use Oars
The weather lightened up again about 4.30 and there was then no sign of the long boat. When last seen the men were so cold they could not use the oars and therefore could not control the craft. Unless found by the revenue cutter or some steamer, it is believed here all will perish.

It is possible that the men have reached an inlet and landed or may have been picked up by a life saving crew along the coast. Wire communication along the coast has been completely prostrated since last Sunday's great storm, and communication among the life saving stations is difficult and only accompanied after delay.

The self-bailing lifeboat of the Barnegatt Life Saving Station has been out of commission for the last three weeks waiting repairs, and the men cannot therefore go in search of the helpless long boat.

Three Boats On Ship
The captain is Harold Murphy. According to the crew, he edged in toward shore because he did not care to risk going on the bar and have the boat split to pieces. All hands were ordered into the boats an hour before the steamer sank. There were only three boats on the ship and one was used for the clothes and other personal effects of the crew.

The members of the crew were virtually strangers to one another, they being known to each other only as "Mike," "Charlie," etc. The second mate of the Tower is named Neaves and his home is in Boston.

Thompson, mate of the Tower, after his escape with a fragment of the crew, talked about the ship. He said the repairs to the machinery at Hampton Roads on Wednesday were hasty and not well done. The engines went down soon after putting to sea and this condition, combined with heavy seas, due to the storm, resulted in the wreck. The ship sprang leaks in bow and stern, he said, and in the end all the plates were shaken loose. Water poured into the doomed vessel as through a sieve.

Pumps Kept Going
The steady pumps kept her going for a while. Then, with the aid of hand pumps, the crew tried desperately to fight back the rushing water, but their struggle was unavailing, and it finally reached the engines.

BOWMAN HANDS BURLESQUE ON WAIL

[Continued From First Page]

"What's this?" asked the reporters. "Oh, this is the Democratic Wail!" Here it is as Commissioner Bowman issued it. It is a sort of a burlesque on a morning newspaper editorial and news column criticism:

THE DEMOCRATIC WAIL
Aided by the Progressives we forced a nonpartisan government on our city, thinking we had two chances to win. If we elected two Councilmen we retained control of the city; if we did not, the Republicans with the nonpartisan bugaboo staring them in the face would be afraid to displace Democrats with Republicans.

With all our threats of political destruction, supported by the lies and innuendoes of our beloved Patriot, the confounded Republicans refused to scare.

The pesky Republican triumvirate in Council are stinging us wherever they can; they even have the nerve to invite our two members, who are strictly nonpartisan now, to a conference for the purpose of having us execute our own truly loyal patriots and then bury our own dead.

Cesar with all his cruelty never dared go as far as this. A bright light is fast breaking in on us, we sometimes believe it is their outrageous intention to break up our carefully prepared organization and strengthen their own.

Every time the word "Chiefy" is mentioned, no matter to what it refers we feel murderous and get a dark brown taste in our mouths.

Of course to ourselves we admit that most of our policemen are not strictly first class, but they all supported our Mayor, which overbalances anything they may have done or are doing now, which if done by Republicans would rightfully qualify them for a term in "Castle Caldwell."

What does it matter if our Poor Board turned out forty Republicans or that the York (Democratic) nonpartisan Council is removing its enemies from office, every body knows that Democrats are always better than Republicans and therefore turning them out would very properly be for the good of the service.

We feel sick at heart when we think of what they are doing now, but when our thoughts turn to next November, when our magnificent and generous boss or rather leader is running for Governor, and what they will be able to do us with their strengthened organization, we could wall in sorrow and gnash our teeth in rage. For if we were the city leader may say, "Oh, ye of little wit and courage, have I brought you safely through the wilderness of constant defeat, into the promised land of Political Power, where the honey (speaked with an 'm') can be found wherever you look, only to have you lose it all, at the very time when I am in need of help?"

The only thing left for us to do, is to continue trying to fool the public in our paper.

KUNKEL'S CAMPAIGN FOR SUPREME COURT

[Continued From First Page]

Patterson, C. H. Backenstoe, Charles L. Bailey, E. E. Beldeman, Charles H. Bergner, John T. Brady, Guy H. Davies, Edward F. Doehne, William H. Earnest, Frank M. Eastman, John E. Fox, William M. Hain, William M. Hargest, Edwin W. Jackson, M. W. Jacobs, William L. Loeser, Phil S. Moyer, Benjamin M. Nead, John C. Nissley, Daniel S. Seitz, A. Carson Stamm, James A. Stranahan, Charles C. Stroh, Michael E. Stroup, Robert Stucker, J. W. Swartz, John Fox Wells, Frank B. Wickersham.

Committee Calls on Judge
Following the meeting of the Dauphin county bar yesterday afternoon the committee appointed to wait upon President Judge Kunkel and acquaint him with the action of the attorneys, called upon the presiding judge in chambers.

Chairman Gilbert informed the Judge of the bar's action and presented him with the resolution which, as Chairman Gilbert put it, "was brilliantly and unanimously carried."

In accepting President Judge Kunkel said:
Mr. Chairman and Gentlemen of the Bar:

The compliment contained in the resolution which you have presented me I fully appreciate, and I know comes from sincere and true friends. During the past months I have been in receipt of a number of communications not only from residents of Dauphin county, but from many other parts of the State, offering their support in case I should be a candidate for the office of Justice of the Supreme Court at the coming election. It has been with great interest also that I have noted the frequent mention of my name by the newspapers in connection with so exalted and so responsible a position. The ambition for preferment is a laudable one, and the wish of loyal friends in so important a matter ought not without good reason to be disregarded. In compliance with your request I now submit my candidacy to the electors of the State, with the assurance that you and all those desiring my elevation to this high office will leave nothing undone that zeal and honest effort can accomplish to secure a full expression of the people of the Commonwealth on this subject.

Entire Bar at Meeting
Dauphin county's entire bar except those few perhaps, who were out of the city or ill, attended the meeting yesterday afternoon. Resolutions were adopted calling upon President Judge Kunkel to be a candidate for Justice of the Supreme Court.

Senior and junior bar—a nonpartisan bar composed of Republican, Democratic, Washington and Keystone attorneys, and a visitor or two from county bars—all were represented. A dozen or more lawyers praised Judge Kunkel's qualities for the position on the Supreme bench. Among them were James Scarlet, the famous Danville attorney who has not only gained a State-wide reputation for his conduct of the Capitol graft trials, but who has an equal reputation throughout the country.

Lyman D. Gilbert Presides
Lyman D. Gilbert was selected to preside after Eugene Snyder, the dean of practicing lawyers, had called the meeting to order. Chairman Gilbert appointed Attorneys John T. Brady, John C. Nissley and Harvey E. Knapp, secretaries.

Following the passage of the resolution a committee consisting of Charles C. Stroh, Charles H. Bergner, Senator John E. Fox and Chairman Gilbert was appointed to wait upon President Judge Kunkel in chambers and acquaint him of the bar's action. Chairman Gilbert was authorized to appoint an executive committee to plan and advance the campaign of the president judge. He announced that the personnel of the body would not be issued until he had given the make-up consideration.

Opinions Voiced
Charles H. Bergner—George Kunkel, believe is pre-eminently fitted for this position. His elevation will be a satisfaction to every member of the bar. From him every litigant has received complete justice, and the manner in which he has conducted this court has not only been to the satisfaction of the lawyers interested whether they were on the side of the victor or the vanquished, I know of no other jurist in Pennsylvania more learned in the law, so far advanced in his life of duty than is George Kunkel. And I believe that his elevation to the Supreme bench of Pennsylvania will be for the benefit of the State and the glory of the judiciary.

John E. Fox—The judicial ability is widely known throughout the State. He is a man of great force and character. His elevation to the Supreme bench reflects great honor upon this bar throughout the State. He is eminently fitted and in adopting this resolution we are doing honor not only to our own bar but to the other bars and to the State.

Benjamin M. Nead—"What he has done speaks for itself. What he has done reflects great honor upon this bar throughout the State. He is eminently fitted and in adopting this resolution we are doing honor not only to our own bar but to the other bars and to the State."

John Fox Wells, ex-District Attorney—Judge Kunkel enjoys more than any other man's work in this Commonwealth the solid confidence of this bar. He is eminently fitted to sit upon the bench of the Supreme court. He would not simply occupy a seat; he would assume its full share of responsibilities. As district attorney I sat here for seven years and I soon learned to gauge the breadth and depth of Judge Kunkel. So, in seconding the adoption of this resolution, I say that Judge Kunkel is eminently qualified in every way to go from this bench to the higher position—the bench of the Supreme court of this Commonwealth.

John E. Fox—"It is of high importance to our bar to have this compilation paid to Judge Kunkel. He is known from the Delaware to the western confines of our Commonwealth, from the northern to the southern tier."

E. W. Jackson—"He is, in learning, judgment, training and character exceptionally qualified for a position on the Supreme bench. But, I say bluntly, that I believe this bar would lose more than it would gain by the elevation of Judge Kunkel to the Supreme court." Senator E. E. Beldeman—"I do not need to extol Judge Kunkel's qualities and virtues; we all know him. What we want to do is to take off our coats and get out and tell the people of Pennsylvania about it—to tell them that he is the best Common Pleas Judge in Pennsylvania to-day. And when they say the other man is just as good, then be prepared to come back and say the other man is just as well fitted, either by training or experience." James Scarlet, Danville—"To my mind the bar of Dauphin county is conferring a great honor upon the people of Pennsylvania by this action to-day. No man's work in this Commonwealth is more widely known than Judge Kunkel's. His unswerving fidelity to his duty, his high character, his unflinching courage has made him known to all. And I say to you that in naming Judge Kunkel your own winning candidate. But there is work to be done; each and every one of you must take off his coat and go to work to elect Judge Kunkel. In doing so you will not only honor the bar of Dauphin county but you place on the bench of the Supreme Court a man who will serve as no other man can serve."

When all the members of the family have seen the unusually beautiful

Intaglio Supplement

in the Public Ledger tomorrow, they will realize how much enjoyment five cents can buy on Sunday.

No other newspaper prints pictures by the remarkable new Intaglio process which was invented and perfected in Germany. The presses cost many thousands of dollars. The 16 pages of reproductions of timely portraits, society folk, stage celebrities, public men, and stunning homes in Pennsylvania done by the Intaglio are alone worth the price of this newspaper.

But that isn't all. The Pictorial News Section, with its graphic snapshots of timely events, its views of interesting happenings all over the world, is especially lively this week.

Besides the pictorial features the Sunday Public Ledger is brimming with special articles. The many answers to the question, "Is Philadelphia Slow?" will amuse and interest you. Every department has been selected with the intelligence and skill that characterize the Public Ledger every day in the week—*first thing in the morning.*
