JOE JEFFERSON IN "POOR OLD JIM"

Orpheum Headliner Brings Back
Memories of "Rip Van Winkle" of Days Gone By

Joseph Jefferson, son of the "Joe" of Rip Van Winkle fame, is heading the bill at the Orpheum this week in DeMille's latest, "Poor Old Jim." The skit is one of the cleverest that has been at the Locust street vaudeville house in many a day, and Jefferson certainly makes the most of it. A spasm of fun that results when Jim comes out of a drunken stupor and believes himself to be a ghost gives opportunity for use of the famous Jeffersonian expression and gesture which brought back memories of young Joe's father, who pleased so many audiences in days of yore.

The Seven Bricks, a whirlwind acrobatic act, which brought the talk to a close, is one of the best on the program. The "Old Soldier Fiddlers," who were here several years ago, won many rounds of applause. Kirk and Fogarty, in a song and dance act, were very pleasing. The lady was quite nifty and the masculine end of the duo was clever. Kinter and McClay give a study in black and tan filled with comery, song and parodies on the latest ballads. Sansone and Delia, two heavyweight jugglers, do many a difficult stunt.

The act of the week that brought most laughter, perhaps, was the Empire Comedy Four. Most of the humor was of the rowdy sort, but several people in the audience nearly "went into hysterics" a number of times.

One Man Is Whole Police Force of Wrightsville

GEORGE W. DRENNING

Special to The Telegraph.
 Columbia, Pa., March 10.—Following the example of Columbia, Burgess R. P. Wilton, of Wrightsville, has recommended and the council has elected George W. Drenning, as chief of police of the borough, and he will constitute the whole force. Recently Wrightsville has been considerably interested with tramps and Burgess Wilton has decided to abate the nuisance, as in several instances women have been annoyed in their homes by tramps. The bold acts of these men prompted the Burgess to adopt measures against the practice, and the appointment of the chief followed. The new chief is 55 years old and has been a resident of the borough for thirty-five years.

Milleisen, who was president of the company at the time the bonds were issued. In this manner \$1,250 worth of bonds were destroyed. At the conclusion of the bonfire the company gave three hearty cheers.

An Easy Way to Get Fat and Be Strong

The trouble with most thin folks who wish to gain weight is that they insist on drinking the most delicate stuffing it with greasy foods; rubbing on useless "flesh creams"; or following some foolish dieting system. In fact, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

Thanks to a remarkable new scientific discovery, it is now possible to combine into simple form the very elements needed by the digestive organs to help them convert food into rich, laden blood. This master-stroke of modern chemistry is called Sargol and has been termed the greatest of flesh-builders. Sargol aims through its generative, reconstructive powers to coax the stomach and intestines to really soak up the fattening elements of your food and pass them into the blood, where they are carried to every part of the body. You can readily picture the result when this amazing transformation has taken place and you notice how your cheeks fill out, hollows about your neck, shoulders and bust disappear and you take on from 10 to 20 pounds of solid, healthy flesh. Sargol is absolutely harmless, inexpensive, efficient and gives you the most complete guarantee found in every package. **Caution:**—While Sargol has given excellent results in cases of indigestion, dyspepsia and general stomach troubles it should not be taken by those who do not wish to gain ten pounds or more. —Advertisement.

Acid Stomachs Are Dangerous

Common Sense Advice by a Distinguished Specialist.
 "Acid" stomachs are dangerous because acid irritates and inflames the delicate lining of the stomach, thus hindering and preventing the proper action of the stomach, and leading to probably nine-tenths of the cases of stomach trouble from which people suffer. Ordinary medicine and medicinal treatments are of little use in such cases, for they leave the source of the trouble, the acid in the stomach, as dangerous as ever. The stomach must be neutralized, and its formation prevented, and the best thing for this purpose is a simple antacid, taken in a little warm or cold water after eating, which not only neutralizes the acid, but also prevents the fermentation from which acidity is developed. Foods which ordinarily cause the most acid must be eaten with impunity if the meal is followed with a little bismarated magnesia, which can be obtained from any druggist, and should always be kept handy. —Advertisement.

To Clear the Complexion Take Lax Links

Many women have a blotchy, sallow, pimply complexion because they are subject to constipation. Purgative medicines do not bring about the desired relief, but Lax Links, those delicious candy laxatives, exquisitely flavored with the oil of spearmint, will quickly stop constipation and thus stop poisoning the blood. They contain no habit-forming or poisonous drugs, and for that reason are highly praised by physicians. They act properly upon the liver, causing the bile, which is Nature's own laxative, to flow freely. As they are a dainty confection in themselves, they are ideal and safe to give to children and invalids. Sold by all druggists. 10c and 25c boxes. Write for free sample. GIRLS BITTEN BY DOGS

Waynesboro, Pa., March 10.—Two Chambersburg young girls were attacked and bitten by dogs Saturday and Sunday. It is feared the dogs had rabies, as they came from the same neighborhood as did the Ely dog, which was mad and ran amuck, biting a number of dogs in Chambersburg and seventeen dogs in Fayetteville, a town three miles from the county seat. The wounds of the girls were cauterized and the dogs were placed under quarantine.

For Rough, Wrinkled, Freckled, Pimpled Skin

As March winds, flying dust and dirt, are apt to injure any complexion, this information will be of special value right now. If you have any cutaneous blemish, don't use paint, powder or anything else to cover it up. Too often this only emphasizes the defect. Besides, it's much easier to remove the disfigurement with ordinary mercurized wax. Applied nightly, the wax will gradually remove freckles, pimples, moth patches, sallowness, red or yellow blotches or any surface eruption. The affected cuticle is absorbed, a little each day, until the clear, soft, youthful and beautiful skin beneath is brought wholly to view. Ask the druggist for one ounce of mercurized wax and use this like you use cold cream. Remove in morning with soap and water. Many who have tried this simple, harmless treatment report astonishing results.
 If bothered with wrinkles or furrows, wash lotion twice a day with a little powdered saxofite in 4 pt. witch hazel will prove wonderfully effective.—Advertisement.

Cave-in Engulfs Girl; Rescued After Long Fall

Special to The Telegraph.

Shamokin, Pa., March 10.—Miss Mary Doyle fell 100 feet down a mine breach near the Richards colliery yesterday as she was walking along a mountain path accompanied by several friends.
 The girls were hurrying toward Strong, a village between Kulpmont and Beaverdale, when the ground suddenly caved in, carrying Miss Doyle with it. Her companions narrowly escaped being engulfed.
 As they ran, shrieking for help, John Bach, a young miner returning from work, heard them. He hurried to a tool house near by and procured a rope, which was lowered to Miss Doyle. She grasped it, but was too weak to wrap it about her.

Longer School Days With Sessions During Summer Is Being Urged

By Associated Press.

Chicago, Ill., March 10.—Longer school days with sessions throughout the summer months are urged in an article in the current number of the School Review, issued to-day at the University of Chicago.
 Moral and scholastic delinquency would be prevented and economic waste in school management would be eliminated under such a plan, according to the article. "City children are becoming more and more helpless as the result of idleness imposed upon them by city life," says the article. "The boys, at least, are exposed through their long evenings and holidays to the vicious influences of the street."
 "If a private corporation had a chain of plants valued at \$2,000,000,000 occupying in production but 1,000 hours, six hours a day for approximately 166 days, the manager of that corporation would estimate his annual loss to be in the neighborhood of \$3,000,000."

The article urges the employment of vocational teachers the year around.

HUMMELSTOWN MAN IN BIG CLUB FIRE

Bodies May Be Taken From Ruins Today If Conditions Will Permit

By Associated Press.
 St. Louis, Mo., March 10.—The real extent of the calamity caused by the fire which destroyed the Missouri Athletic Club building yesterday, it is believed, will begin to unfold itself to-day when firemen enter the ruins in search of the score or more of bodies thought to be buried there.

Because of the precarious condition of the front wall firemen were unable to recover bodies. It is believed, however, that the ruins will have cooled sufficiently during the day to permit rescue to be undertaken. What appeared to be a human body was seen wedged between the fire escape and the last remaining wall just below a seventh story window.

Seven dead were taken from the building yesterday and 27 others who are known to have been in the building at the time of the fire have been given up as dead by their friends, who escaped. It is possible that beyond this number there were several persons in the clubhouse not registered.

Many of those who escaped, becoming dazed or hysterical through the experience, wandered about the city all day before reporting to the Bureau of Identification which had been established at the Press Club of St. Louis. This partly was responsible for the excess number of dead

given in the early estimates of the loss of life.

Five of the seven bodies recovered have been identified. Two others are burned beyond recognition. The cause of the fire and the reason for its late discovery are still mysteries. Firemen were to-day still pouring streams of water into the ruins and here and there flames continued to crop out. The fire chief declared it would in all probability be several days before the ruins could be thoroughly pried into and all the bodies recovered. Until then the exact number of dead will not be known.

One Man Is Located

Joseph Wolfson, of Caruthersville, Mo., who was reported last night as among the missing in the Missouri Athletic Club fire, is safe. He called up the committee of the club to-day. Careful checking up of those known to be at the Missouri Athletic Club Monday night and those heard from since the fire resulted in a death list of thirty-one. This number may be slightly increased.

Fire Chief Swingley said to-day that six or seven months ago he warned the management of the Missouri Athletic Club that the club building was not safe for sleeping quarters.

Conditions Were Bad
 "I found conditions particularly bad on the three upper floors," said the chief. "The building was not constructed for hotel purposes, but for a business house. It had been converted into a hotel by dividing the upper floors into rooms for sleeping purposes."

James A. Smith, former building commissioner, said that he refused to approve the southwest fire escape because it ran directly across the windows. "I held," he said, "that in case of fire, flames bursting from the windows would cut off escape. That is exactly what happened."
 The name of Meredith A. Johnston, of Lexington, Ky., well-known chess player, was added to-day to the list of missing. He went to the Missouri Athletic Club Sunday evening to play chess with Marshall Bier, who also is listed among the missing.
