MARYSVILLE YARDS NOT TO BE CLOSED, DECLARE OFFICIALS

Rumors That Preference Business Is to Be Handled Here, Declared False

Widely circulated reports that the Marysville preference freight yards of the Pennsylvania Railroad on April 1 were vigorously denied at the Philadelphia division headquarters today.

In the opinion of one official speaking for Superintendent W. B. McCaleb, who did not reach Harrisburg from Philadelphia until late this afternoon, the closing of the Marysville yards is almost an impossibility.

A plan is now under consideration for the abandonment of the engine house at Marysville, so that all engines will be looked after, but in view of the fact that many engineers and firemen running out of Marysville, reside in Harrisburg, motive power officials are of the opinion that engines can be handled at Harrisburg and Enola.
