Corsets-You Must Lie on Your Back and Wiggle Into Them

Special to The Telegraph
Philadelphia, March 12. — Dr. Maude
L. Dunn, the lecturer on eugenics, after
shooling all the men out of Witherspoon
Hall yesterday told an audience of women about the evils of tight corsets.
"You can't be a smilling sunshine in
your home when your corset presses
against you," Dr. Dunn told the several
hundred women. "Husbands are just
like cats. They want lots of petting,
and if they don't get it at home they
will go elsewhere—and your worst
enemy will be the woman who hasn't
any pressing corset."

Dr. Dunn wasn't absolutely against
corsets. But she wants them loose.
She suggested that the one way to
ascertain if a corset is just about right
is to take physical culture exercises
while wearing one. She also said there
was but one way to put on a corset,
and that is while lying flat on the back
and wiggling the toes in the air.
The expert prophesied a race of slant
shouldered, big hipped women if the
tango and the debutante slouch are indulged in excessively. She said the
body is the temple of the soul and
should be treated that way, and that
the perfect body is 5 feet 8 inches in
helgth, 27 inches at the walst line and
the hips measure 41 inches.

Dr. Aked Tells Why He Left Baptist Church

Special to The Telegraph
San Jose, Cal., March 12.—In the attempt of a minority of the Los Gatos Baptist Church to oust its pastor, the Rev. Robbins Whitaker, Dr. Charles F. Aked told as a witness why he left the Baptist Church.

"To Give Musicale.—The Christian Endeavor Society of Westminster Presbyterian church will give a musicale in lecture room of the church because its laws are so free?" he was asked by Judge Welch.

"I left it because the combined genius of John D. Rockefeller and myself was insufficient to change the geography of Manhattan Island," he replied. "Because we could not find a site," he added, when the laughter subsided.

"Didn't you have money enough?" asked the Judge.

"We had lots of money," retorted the witness; "what we lacked was brains enough."

Why Doctors No Longer Claim to "Cure" People

Claim to "Cure" People

A few years ago it was a common thing for the family doctor to say, "I will cure you in a few days." This cheerful prophecy often gave the patient new hope and courage, but it is no longer good form. Doctors still "cure" malaria and a few other troubles in which their medicines have a direct or "specific" action on the virus ef the disease. In other cases they simply give supporting medicine and keep up the strength of the patient until nature effects a cure.

Dr. Williams' Pink Pills cure chlorosis and other trouble due to thin blood because the have a specific action on the blood, building it up, purifying and enriching it. This direct action on the blood alsof makes them the best supporting and strengthening medicine. If you are thin and weak, breathless after slight exertion, if you have palpitation of the heart, gas on the stomach, cold hands and feet, if you are nervous and easily irritated and show other signs of weakened vitality, try these strengthening pills at once and let the rich, red blood cure you. Get a box to-day at the nearest drug store and begin at once to build up your health. Write now to the Dr. Williams Medicine Co., Schenectady, N. Y., for the free book-let, "Building Up the Blood."—Advertisement.
