SUFFRAGISTS ARE NOT DISCOURAGED BY LATEST DEFEAT

Women Are Already Preparing to Renew Their Fight For Amendment

ARRANGE BIG DEMONSTRATION

Reports From Various Organizers Show Deep Interest Throughout Country

Washington, D. C., March 20.—Advocates of woman suffrage to-day declared that they were not discouraged because they lost their fight in the United States Senate yesterday to secure the adoption of an amendment to the federal Constitution extending the right of suffrage to women. The Senate voted for the amendment to 34 against it, a two-thirds affirmative vote being necessary for passage. Suffrage leaders were pointing to-day to the majority of one vote in favor of the amendment as proof that their cause had scored a triumph in defeat and was far stronger than its opponents had ever been willing to admit. They profess to see in the action of the Senate only a temporary setback in their fight and express the belief that woman suffrage would eventually come. They were hoped to-day that the Senate would reconsider its action before the close of the present session.

Will Renew Fight
Despite their defeat, suffrage leaders were prepared today to renew their fight. It was announced to-day they would support the proposed amendment of Senator Shafroth, of Colorado. The senator hoped to offer his amendment yesterday, and though unsuccessful, will introduce it later. This amendment would require each State to vote on the question of extending the right of suffrage to women upon petition of 5 per cent. of its voters.

The National American Woman Suffrage Association announced to-day, through Mrs. Medill McCormick, chairman of its congressional committee, that it would support the new amendment. "Suffrage sentiment in the Senate," said Mrs. McCormick, "is strong enough to warrant us in renewing our efforts to secure national legislation and the amendment proposed by Senator Shafroth will meet many of the objections raised during the debate in the Senate and the cause of suffrage will be far advanced if we can secure favorable action on this resolution during the present session."

Plan Big Demonstration
Suffrage leaders were also going forward to-day with their plans for the big woman suffrage demonstration here May 9. They said to-day that 70,000 women would take part in the parade and that it promises to be the most beautiful and spectacular procession that has ever taken place. No effort is being spared to make it an artistic affair.

The Congressional Union for Woman Suffrage, under whose auspices a nation-wide demonstration will be held May 2, announced to-day that advices received from organizers in the field showed that the deepest interest is being shown in the proposed demonstration.

Carefully Pruned Guest List For Astor Wedding

MISS HELEN DINSMORE HUNTINGTON.
New York, March 20.—Since the announcement that August 30 had been set for the date of her wedding to Vincent Astor, Miss Helen Dinsmore Huntington and her mother have been in town buying the many dainty articles that will go toward making her trousseau complete. The fact that St. Margaret's Episcopal Church at Staatsburg, N. Y., where the wedding will be solemnized, has a seating capacity of only 250 has caused Mrs. Huntington to settle down to a rather delicate task, that of cutting the "400" invited guests. The situation has caused the postponement of the sending of invitations.

Brokers File Judgment Against Ex-ambassador

Special to The Telegraph
New York, March 20.—A judgment for \$75,000 obtained against John G. A. Leishman, ex-ambassador to Germany, by Raymond, Pynchon & Co., bankers and brokers, of New York, was filed yesterday.

The amount was due on a judgment recovered in Allegheny county for money loaned and stocks bought and sold in New York city.

According to the papers in the action, Leishman dealt in stocks with the firm to the tune of \$1,346,599 in a period of thirty days and the claim was for a balance due in settlement of the account.

Casualty Company Head Reduces His Own Salary

Special to The Telegraph
Baltimore, Md., March 20.—By voluntarily reducing his own salary from \$36,000 to \$30,000 a year, John T. Stone, president of the Maryland Casualty Company, caused somewhat of a sensation to-day when the facts in the case became known.

The directors of the company voted a salary of \$30,000 to Mr. Stone some time ago and his reduction was against the open protest of the board members.

It was recalled to-day that the late General John Gill, president of the Mercantile Trust and Deposit Company, reduced his own salary \$10,000 because his concern in common with other financial institutions at the time experienced a period of monetary depression.

WOMAN WHO TOOK BICHLORIDE SAVED

Harrisburg Physicians Effect Remarkable Cure; She Swallowed 68 Grains

That the remarkable recovery of Mrs. Mary Sweltzer, the woman at the Harrisburg Hospital who will be discharged to-morrow, saved from slow death by bichloride of mercury poisoning, is unusual is shown by the experiences of physicians at the Episcopal Hospital, in Philadelphia, where a woman died Wednesday thirty-seven days after taking five grains of the poison.

Mrs. Sweltzer's life was saved by the use of milk and eggs as a stomach wash. She had taken sixty-eight grains of the poison with suicidal intent. At the hospital, after the usual treatment to remove poison had been used, Dr. William E. Martin thought of using milk. He was surprised to find that much of the poison had remained in the stomach after the first treatment. He followed up this treatment with the use of a stimulant which kept the kidneys from paralyzing. The woman will be discharged to-morrow with her strength restored. All traces of the poison and its effects have been removed.

In Philadelphia Miss Emily Bird, 30 years old, took a five-grain tablet of bichloride in mistake. She was removed at once to the Episcopal Hospital, but efforts to save her life were unavailing and she lingered along for thirty-seven days. Despite the efforts of physicians, headed by Dr. George Morris Pierson, the five-grain tablet taken by the woman in mistake for a headache tablet proved fatal. For the first three weeks the woman suffered untold agony, accentuated by the fact that she knew for a certainty that her end was near.

Immediately after the poison was taken on the night of February 9—Miss Bird ran from her bedroom shrieking: "Mother! I've taken poison, and I know I won't get better."

Up to the time of her death Miss Bird maintained a steady calm, and although she was aware that she had not long to live, she remained cheerful and tried to encourage her relatives, some of whom were continually at her bedside.

Miss Bird read all of the daily papers with avidity and conversed and joked with the physicians on current topics. The night before she died the young woman asked for a copy of a leading magazine and read with evident interest an article on the Panama Canal.

Secretary McAdoo Plans Better Mail Service

Special to The Telegraph
Washington, D. C., March 20.—Secretary McAdoo yesterday submitted to Congress an estimate for an appropriation of \$150,000 for the installation of additional mail-handling devices in the new post office building in New York city, including a belt conveyor. It is estimated that this device will produce an annual saving of \$50,000.

Unless the mail belt conveyor is installed it will require 63 porters of the mail service, 11 clerks and 18 porters of the Pennsylvania Railroad, besides 25 additional porters that would be necessary after the new building is occupied. It would also require the services of 70 trucks of the railway mail service, 69 trucks of the New York post office, 25 Pennsylvania Railroad trucks and 40 hampers.

Yale Freshmen Plead Guilty to Disturbance

Special to The Telegraph
New Haven, Conn., March 20.—When thirty members of the Yale Freshmen class appeared before a faculty committee yesterday and voluntarily acknowledged that they took part in the so-called "bottle night" disturbance on Sunday night, the faculty suspended the probation sentence previously imposed upon 200 members of the class. The thirty freshmen, however, were placed on probation for an indefinite time.

CONFERENCE PLANS PROHIBITION FIGHT

Preachers Adopt Resolutions After an Attack on the Liquor Traffic

By Associated Press
Pottstown, Pa., March 20.—The attitude of the Methodists of the Philadelphia annual conference, both preachers and laymen, on the liquor question, was shown in two ways to-day at the third day's session of the one hundred and twenty-seventh meeting of the conference and the annual meeting of the Laymen's Association.

The preachers adopted resolutions demanding nation-wide prohibition, predicting early legislation to this effect and censuring license courts for apparent disregard of the wishes of the people in the communities affected. The laymen raised nearly \$1,000 with which to carry on the prohibition fight.

The preachers adopted their resolutions after an attack had been directed against the liquor traffic by a number of the clergymen.

The Rev. Charles Roades, of Shenandoah, secretary of the Pennsylvania Sunday School Association, suggested that all the preachers in the conference set aside certain Sundays throughout the year for the preaching of temperance sermons and his suggestion was heartily approved.

The conference decided to forbid any member of any church in the conference from becoming bondsmen for a liquor dealer or to sign a petition for a license.

New Tariff and Living Costs Prove Puzzling

Special to The Telegraph
New York, March 20.—There is a matter which is causing quite as much discussion just now as is the condition of the money market. It is the curious and unexpected record made of food prices since the new tariff law was enacted. Nearly six months have elapsed since the law went into effect. If the test of six months can prove anything—and nobody can say whether it does or not—then the accusation that the trusts which were favored by the old tariff law were responsible for high prices of food was unfounded.

Since the first of October, according to official statistics prepared in Washington, there came to the United States from other countries, priced in Italy, Argentina, nearly 50,000,000 pounds of fresh beef. Yet the price of beef to consumers has not decreased, but instead has increased.

Statistics of this kind are spoken of by the experts in this city as very puzzling. No one can tell what the effect, if any, of the new tariff law upon the cost of food commodities has been or whether there has been any effect at all. The best opinion seems to be that it will take at least a year, certainly several months after the harvesting of the crops next summer, before it will be possible to determine, authoritatively, what the effect of the new tariff law upon the cost of foods to the American consumer really is.

Goethals Police Bills Are Killed by "System"

Special to The Telegraph
Albany, N. Y., March 20.—The police "system" has killed the Goethals police bills and in consequence there is no hope of the canal builder being New York city's police commissioner.

OFFICERS FOR CANAL ZONE ANNOUNCED

Goethals Named as Governor and Chief of Department of Operation and Maintenance

By Associated Press
Washington, D. C., March 20.—Officers to have charge of the various departments of the Panama Canal were to-day announced as follows:

Governor and Chief of the Department of Operation and Maintenance, Colonel George W. Goethals; Engineer of Maintenance, Colonel Harry F. Hodges; army engineers; Superintendent of Transportation, Captain Hugh Rodman, U. S. N.; Electrical Engineer, Captain W. H. Rose, army engineers; Captains for the Terminal Ports, Commander D. E. Dismukes and Lieutenant-Commander Henry Butler, U. S. N.; Superintendent of Shops and Dry Docks, Naval Constructor D. C. Nitting; General Purchasing Officer, Major F. C. Boggs, army engineers.

Chief Quartermaster, Captain D. E. Wood, United States Cavalry; Auditor, H. A. A. Smith; assistant, B. M. Hart; Chief Engineer, Lieutenant-Commander Charles F. Mason, Medical Corps, U. S. A.; Superintendent of Hospitals, Lieutenant-Colonel George B. Deshong, Medical Corps, U. S. A.; Chief Officer of the Quarantine Division, passed Assistant Surgeon Marshall C. Guthrie, United States Bureau of Public Health.

Executive Secretary, C. A. McIlvaine.

Oregon Governor Tells Governor War Is Coming

Special to The Telegraph
Salem, Ore., March 20.—"I am confident that war with Mexico is coming and I am going to advise the National Guard of this State to be prepared for I am sure it can count on being called out before long," said Governor Oswald West here to-day.

Governor West returned last night from the Mexican border, which he visited after spending several days in Washington, D. C. While on the border, where he made a personal inspection of the situation, Governor West crossed over into Juarez, Mexico.

BIG FIRE IN ROCHESTER

By Associated Press
Rochester, N. Y., March 20.—Fire early to-day in East Rochester destroyed the Ever block, burning out a number of firms and causing a loss of \$200,000.

LADIES! SECRET TO DARKEN GRAY HAIR

Bring back color, gloss and thickness with Grandma's recipe of Sago and Sulphur

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant; remove every bit of dandruff, stop scalp itching and falling hair. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Hair Remedy," thus avoiding a lot of fuss.

QUICKLY ENDS THE WORST BACKACHE

Makes Kidney Troubles, Bladder Disorders, and Rheumatic Pains Vanish

It is no longer necessary for any one to suffer with backaching, kidney trouble, have disagreeable bladder and urinary disorders to contend with, or be tortured with rheumatism, stiff joints, and its heart-wrenching pains, for the new discovery, Croxone, quickly and surely relieves all such troubles.

Croxone is the most wonderful remedy yet devised for ridding the system of uric acid and driving out all the poisonous impurities which cause such troubles. It is entirely different from all other remedies. It is not like anything else ever used for the purpose. It acts on the principle of cleaning out the poisons and removing the cause.

It soaks right in through the walls, membranes and linings, like water in a sponge, neutralizes, dissolves, and makes the kidneys sift out and filter away all the uric acid and certainly return the blood, and leave the kidneys and urinary organs clean, strong, healthy, and well.

It matters not how long you have suffered, how old you are, or what you have used, the very principle of Croxone is such, that it is practically impossible to take it into the human system without results. There is nothing else on earth like it. It starts to work the minute you take it and relieves you the first time you use it.

DROPSY TREATED FREE

By Dr. Miles, the Great Specialist, Who Will Send a New \$3.75 Treatment Free
Many Have Been Cured After Doctors Failed

At first no disease is apparently more harmless than dropsy; a little swelling of the eyelids, hands, feet, ankles or abdomen. Finally there is great shortness of breath, cough, faint spells, sometimes nausea and vomiting, even bursting of the limbs and a lingering and wretched death if the dropsy is not removed.

Dr. Miles has been known as a leading specialist in these diseases for 30 years. His liberal offer of a \$3.75 Treatment free to all sufferers, is certainly worthy of serious consideration. You may never have such an opportunity again.

Send for Remarkable Cures in Your State

All afflicted readers may have Book, Examination Chart, Opinion, Advice, and a Two-Pound Treatment free. Write at once. Describe your case. Address 1, Franklin Miles, Dept. D.A., 512 to 516 Main Street, Elkhart, Ind. — Advertisement.
