PERSONAL Y.W.C.A. POPULARIZES FACTORY MEETINGS

Musical Programs and Gospel Services Alternate at Blough and Moorhead Mills

One of the phases of outside work taken up by the Young Woman's Christian Association is noon meetings at various factories of the city, where girls and women are employed.

The Blough factory has a musicale every Monday in charge of Miss Alice A. Graydon, and a Gospel service Fridays with Miss Stitt, the general secretary of the organization, in charge. Yesterday special music at Blough's was given by Mr. and Mrs. Robert W. Hoover, Mrs. Hoover playing several violin numbers and Mr. Hoover singing "The Rosary" to his own accompaniment. The girls sing in chorus and the new Victrola is brought into use frequently at these services. Next Monday Mrs. Johnston, of Locust street, will give a series of readings to the Blough girls.

This noon Miss Stitt was in charge of the table at the Moorhead Milling Mill, where religious services and entertainments alternate with the weeks. The girls sang to the accompaniment of their own piano, many old favorites of songs and hymns, and Mrs. Harry G. Keffer, a popular reader, entertained in her own delightful style. Next Tuesday noon, the Rev. Homer S. May will speak at the Moorhead mill.

A Message to Thin, Weak, Scrawny Folks

An Easy Way to Gain 10 to 30 lbs. of Solid, Healthy, Permanent Flesh.

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good, nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the body as waste.

What is needed is a means of gently urging the stomach to take them from the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. The best way to overcome this sinful waste of flesh building elements and stop the leakage of fats is to use Sargol, the recently discovered regenerative force that is recommended so highly by physicians here and abroad. Take a little Sargol tablet with every meal and notice how quickly your cheeks fill out and rolls of firm healthy flesh are deposited over your body, covering each bony angle and protruding point. G. A. Gorgas and other good druggists have Sargol, or can get it from their wholesaler, and will refer you to the nearest dealer.

Caution—While Sargol has produced remarkable results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken unless you are willing to gain ten pounds or more, for it is a wonderful flesh-builder.—Advertisement
