Then the skirt, beginning with a sort of tuck—a concession to the feminine predilection for "effects"—slopes away to a narrow bottom. In front and sides, behold, monsieur, ze slits appear! Eet eez necessary locomotion; without eet—never ze walk. Having thus provided the necessary entages, comes next the terrible the sinister, the menacing female trousers. A concerted effort is being made by the borough authorities to clean out the "Bear Pit," a small section of the borough along the old Pennsylvania canal, that has played no small part in the police annals of Steelton.

In a raid yesterday Constable A. P. Bombgardner arrested Katie Murray, alias "Pittsburgh Kate," on charges of furnishing whisky to Amanda Curry, 75 years old, said to be of known intemperate habits. Constable Bombgardner also arrested Mrs. Ardell Barba and Levi McCoy, both colored, on serious charges. Both these were taken to jail in their bare feet.

Amanda Curry, also of the "Bear Pit," will be arraigned before Burgess Wigfield to-day charged with disorderly conduct. Patrolman Pearson picked her up Sunday morning.

Los Angeles County, Cal., First With Pennsylvania District Next; Values Are High

By Associated Press  
Washington, March 25. — With a crop production valued at \$14,720,900 Los Angeles county, California, leads all the other 2,950 counties in the United States in the value of crops in 1910, according to the final report on the census of agriculture for that year by the Census Bureau announced to-day. Lancaster county, Pa., ranked second in crop production valued at \$13,059,600.

The other counties in the order of the valuation (at the farm) of crops raised follows: McLean county, Illinois, \$12,811,500; Whitman county, Washington, \$12,540,700; Livingston, Iroquois and La Salle counties, Illinois, \$11,377,300; \$10,607,800 and \$10,222,200, respectively, and Aroostook county, Maine, \$10,251,000.

The total value of the crops produced in these eight counties was \$95,491,000 or about two per cent. of the total valuation of all crops raised in the United States, which was \$5,487,161,000. The figures for the United States show that the total values of the crops averaged \$16 per acre and \$60 per capital.

The principal crops raised in Los Angeles county in the order of their value were fruits, hay and forage, live stock, dairy products and vegetables; in Lancaster county, corn, wheat and livestock and dairy products; in McLean, Livingston and La Salle counties, Illinois, and in Whitman county, Washington, corn, wheat, oats and cereals and in Aroostook county, Maine, potatoes and vegetables. ### National Issues in New Jersey Campaign

By Associated Press  
Paterson, N. J., March 25. — The nomination of four candidates for the seat in Congress left vacant by the resignation of Robert C. Robertson, G. B. Bremer, Democrat, of the Seventh New Jersey District, opens the first political campaign in the history of the State that has been waged since the enactment of the new tariff bill and the other important Federal legislation under the Wilson administration.

The result of the election, on April 7, is the first indication by ballot of how these changes suit the American voter.

Yesterday's primaries the Republicans divided nearly 9,000 votes among eleven candidates and chose Dow H. Deuker by plurality of 202 over the nearest candidate. The Democrats selected James J. O'Ryne, secretary to the State, as their nominee by a 423 plurality. The total Democratic vote was 4,600, divided among five candidates, and the Progressive vote, 1,000, and the Socialists 700, but each of these parties put up only one candidate.

### MODERN WOODMEN'S NATIONAL HEADQUARTERS?

[Continued from First Page.]

As happened in 1890, when its chief was deposed and thereupon started a new order, the Woodmen of the World. No, the battle, while waged hotly, will be conducted, as far as possible, without acorns that would lead to this result, but it will none the less be a battle royal.

### Money Is Involved

Owing to the death of the order in Illinois, quite naturally the head offices of the company went to Rock Island. But, it is asserted, the Illinois members have been altogether one-sided in the disposition of the wealth of the order and its offices. All the money of the order, amounting to sums far up into five figures, are distributed in Illinois banks, and seven-tenths of the offices of the order are held by Illinoisans. Another reason is an attempt on the part of the State of Illinois to tax the reserve funds.

### How to Keep Well in Winter

### M'CLAIN SAYS HE WILL ENTER RACE

Lancaster Mayor Candidate For Nomination For the Lieutenant Governorship

Frank B. McClain, Mayor of Lancaster and as well known here as in his own county of Lancaster, last night announced that he would be a candidate for the Republican nomination for Lieutenant-Governor. The former Speaker said that he was a live candidate and his friends say he will not have much opposition.

No opposition has appeared to Dr. Brumbaugh for Governor, and it is believed that he will go to the primary without any fight. The Dimnick people are for him and when he is nominated Republicans, Democrats and Progressives will line up behind him. This is the formal statement issued yesterday by Mayor McClain:

"I am a candidate for the Republican nomination for Lieutenant-governor at the coming State primary election.

"My candidacy has no 'strings' to it and different from most other candidates I have no personal platform to submit, but will stand or fall upon the platform of the Republican party in Pennsylvania when the same shall have been promulgated by the Republican State committee.

"If I should be fortunate enough to be nominated and elected lieutenant-governor, I will try to 'prove up' to the best traditions of that dignified station. My aim will be the same as when I was Speaker of the Pennsylvania House of Representatives in 1907, to see that the masses of the people, insofar as it lies in my power, get a 'square deal.'"

In commenting upon the policy outlined above Mayor McClain said:

"The Republican voters at the coming primaries will in each Senatorial district elect two State committeemen. These men will come directly from the

## "Postum For Mine"

Many a man and woman with coffee troubles has found that Postum is a sure and pleasant way to health.

A doctor writes:

"I have been using Postum for the last seven or eight years, and think it has had a good deal to do with my looking younger than 55 years of age."

"I recommend it to all my patients, and those who have been using it have only praises for its taste and its good effects on their nervous systems; like me they have given up tea and coffee altogether."

Postum is a pure food-drink made of wheat and a small proportion of molasses—roasted and skillfully blended. It is absolutely free from the coffee drugs, caffeine and tannin—common causes of heart, stomach, liver, kidney and nerve disturbance.

Some people marvel at the benefits from leaving off coffee and using Postum, but there is nothing marvelous about it—only common sense.

Postum now comes in two forms:

Regular Postum—must be boiled. 15c and 25c pkgs.

Instant Postum—a soluble powder, requires no boiling. A spoonful stirred in a cup of hot water makes a delicious beverage instantly. 30c and 50c tins.

The cost per cup of both kinds is about the same.
