NEW MARRIAGE LAW BEING CONSIDERED

May Stop Pennsylvania's Hasty Weddings If Adopted by Maryland Legislature

Special to The Telegraph
Hagerstown, Md., March 31.—Proposed changes in the marriage laws of this State will, if they are adopted by the General Assembly in session at Annapolis, ruin the reputation of Hagerstown as a Green Green for wedding couples from Pennsylvania and other adjoining States who come here for a hasty marriage. One of the bills introduced into the Legislature requires a girl under 18 years to have the written consent to marry; marriages must be performed by registered ministers; both parties must appear when the license is issued and they must give names, ages, residence, place of birth and other details, including the names of their parents, whether married or single, number of times previously married and other information.

But there is no eugenics feature in the bill such as the Pennsylvania law contains. Another bill before the Legislature provides that a marriage ceremony shall not be performed until the second day after the issuance of the license. This is a direct drive at elopement which the Legislature of the bill hopes to prevent, as far as possible. Elopers would, under this law, be greatly inconvenienced by being required to wait a day to get married and give father a chance to interfere.

Superintendent Gives Prizes to Classes For Collections

Special to The Telegraph

When the report was handed in it was found that 12 out of the 13 classes composing the school had collected \$5 and more. The class not having \$5 was the primary class, to which Mr. Deardorf also gave a dollar for their effort. Their collection was \$3.46.

Weak Lungs Often Lead to Serious Illness

If you have weak lungs, you are generally subject to colds or throat trouble and easily susceptible to serious lung trouble. In many cases pneumonia or bronchial troubles leave the Lungs in a much weakened condition. Eckman's Alternative is a medicine for the throat and lungs which has been found to be very beneficial, even when a change of climate and other treatments failed to bring relief. Read of this case:
"231 S. Atlantic Ave., Haddonfield, N. J. 'Gentlemen: In the fall of 1903 contracted a very severe cold which settled on my lungs. At last I began to raise sputum, and my physician then told me I must go to California immediately. At this time I was advised to take Eckman's Alternative. I stayed at home and commenced taking it the last week in October. I began to improve, and the first week in January, 1906, I resumed my regular occupation, having gained 25 pounds, fully restored to health. It is now seven years since my recovery has been effected, and I cannot praise Eckman's Alternative too highly."
(Signed) W. M. TATEM.

The New Baby is World's Wonder

Every tiny infant makes life's perspective wider and brighter. And what ever there is to enhance its arrival an ease and comfort the expectant mother should be given attention. Among the real helpful things is an external adominal application known as "Mother Friend." There is scarcely a community but what has its enthusiastic admirer. This splendid embrocation. It is so well thought of by women who know that no drug stores throughout the United States carry "Mother's Friend" as one of the staple and reliable remedies. It is applied to the abdominal muscles to relieve strain on ligaments and tendons. Those who have used it refer to the ease and comfort experienced during the period of expectancy; they particularly prefer to the absence of nausea, often prevalent as a result of the natural expansion. In a little book are described more fully the many reasons why "Mother's Friend" has been a friend indeed to women with timely hints, suggestions and helps for ready reference. It should be in all homes. "Mother's Friend" may be had of almost any druggist, but if you fail to find it write us direct and also write for book to Bradford's Regulator Co., 403 Lamar Bldg., Atlanta, Ga.
