

Wilson Administration Is Repudiated in N. J.; Big Republican Victory

"Personally Picked" Candidate of President Defeated by Over 5,000 Votes; White House Influence Fails to Save Him; Women Knock Out 1,000 Saloons in Illinois

Paterson, N. J., April 8.—President Wilson and the Democratic national administration was repudiated in New Jersey yesterday. Practically complete returns from the election in the Seventh New Jersey congressional district show that Bow H. Drukker, Republican, has beaten James J. O'Byrne, Democrat, by a plurality of more than 5,000 votes. Drukker received 10,929 votes and O'Byrne 5,210 while Democrat Socialist, is a close third with 5,053. Whitehead, Progressive, received but 611 votes, a big falling off from the Progressive vote of 1912 when Roosevelt carried the district by 891 votes. Wilson endorsed O'Byrne. O'Byrne had the personal endorsement of President Wilson and in his campaign the Democratic candidate appealed to the voters to support him and thus approve of the President's policies. Democratic leaders, nevertheless, to-day refused to accept the result as a repudiation of the administration. They asserted that the repudiation of 1912, which divorced Passaic from Bergen and Sussex counties and made it a district by itself, left a normal Republican plurality. They called the election of the late congressman Robert G. Bremser, a Democrat, in this district, a personal success and accounted Drukker's victory on the same ground. Judgment of Public Representative Woods, of Iowa, chairman of the National Republican Congressional Committee, issued this statement: "For the second time in fourteen years a Republican has been elected to Congress from the Seventh district of New Jersey. By his letter endorsing the Democratic candidate the President asked the people of the New Jersey district to 'pass judgment upon the present administration.' The people have done so in no uncertain terms, rebuking the un-American policy of the Democratic party by a vote of two to one. The charge upon the full Moose candidate evidence again that the Republicans are united and presages the election of a Republican Congress next November." Discredited at Home United States Senator Ollie James, of Kentucky, said in a speech at a Democratic mass meeting Monday night that the issue was whether the voters wanted to uphold the efforts of the President or to repudiate him. United States Senator J. Hamilton Lewis declared on the same platform that if the election was adverse to the things for which the President stands it would be charged that his home State had turned against him and that in New Jersey he "was dishonored." The Republican leaders were in fine humor to-day and declared that Drukker's preceding election in Congress of the district presaged a Republican victory in New Jersey and elsewhere at the general elections in the Fall. Slap at Wilson Washington records the election of Gallivan, a Democrat, in the Twelfth Massachusetts congressional district, and Drukker a Republican, in the Seventh New Jersey district, as indicating a decided slump in President Wilson's prestige and as likely to have a pronounced effect on the future of the canal tolls problem in the Senate adverse to the President's program.

They were Bloomington, Galesburg, Elgin, Decatur, Canton, Freeport, Belvidere, Monmouth, Kewanee, Lockport and East Galena. Rockford, Mattoon and Galva were kept in the dry column by women's votes. When Mr. Wilson ran for governor, Mr. Tumulty said, he lost Passaic county, which extends over the same ground as the congressional district and Governor Fielder, in the last election, likewise lost the county to the Republicans. White House officials said they did not regard the tolls question as having had anything to do with the result. HILLES ANNOUNCES PLAN TO DECREASE SOUTHERN DELEGATES

Republican Conventions of States Asked to Ratify Action of National Body WOULD CUT TOTAL BY 89

National Chairman Hopes New Move Will Meet With Nation-wide Favor New York, April 8.—Charles D. Hillis, chairman of the Republican national committee, last night made public the proposed plan to decrease the percentage of the Southern and territorial representation in the Republican national convention in 1916, and thereafter, from approximately 35 per cent. of the total voting strength to less than 16 per cent., as provided in resolutions adopted by the committee at its meeting last December. The plan is addressed to the Republican conventions of the several States, which are asked to ratify the action of the national body before January 1, 1915. A special committee composed of Charles B. Warren, of Michigan; Senator William E. Borah, of Idaho, and ex-Governor Henry D. Hatfield, of West Virginia, drafted the report of the action taken in December, which embodies other resolutions adopted by the national committee. These guarantee: Recognition, in the call to be issued for the next national convention, of the right of any State to provide for the election of delegates in direct primaries. The right of any State to elect all delegates from the State-at-large, or part from the State at large and part from congressional districts. Eliminate Contests These provisions were adopted with a view to eliminating contests before the national body such as in the past have produced discord and dissension. Some members of the national committee, spurred on by the insistent demands of a large body of voters, sought to have the committee call a special convention for the purpose of adopting a new basis of representation, but the opinion prevailed of those who maintained that inasmuch as no methods were provided by the existing laws of the various States for the election of delegates to a convention in direct primary elections, the special [Continued on Page 5.]

Fear and Confidence Expressed Whenever Rebel Leader's Name Is Mentioned 15-YEAR-OLD BOY REAL HERO

His Cries to Fight Gave Rebels New Courage to Continue Their Assaults By Associated Press El Paso, Texas, April 8.—"Embroidering the salient facts of the successful Constitutional campaign against Corroen are a multitude of incidents hardly less interesting," said Associated Press correspondents who accompanied General Villa and who reached here Monday night. "What struck one chiefly during the campaign was the mixture of fear and confidence which Villa's name inspired in his followers. General Villa says he will shoot anybody who cuts the telegraph wires by shooting from the train," called out an officer to soldiers on top of a troop train who were improving their marksmanship by shooting at the insulators on telegraph poles. Instantly the careless firing ceased. Nobody doubted that Villa meant what he said. "Send this telegram at once," said a newspaper correspondent to a military operator in his field office under a tree near the railroad track. "I can't, senator," was the regretful response. "General Villa has just notified us that no messages must go out until further orders from him and he will shoot us if we send this one, even though it is approved by his private secretary; to which there was obviously no answer." "To this camp returned the long line of wounded from the first day's fight at Gomez Palacio. Previously the campaign had been a sort of holiday. But these pitiful evidences left no doubt that this was war. The wounded endured their sufferings with remarkable fortitude. In the little improvised hospital near the railroad station hospital train at Verjel were probably seventy men lying on cots and not a single groan came from one of them. Courage in Hospital "Courage in the hospital was matched by courage in the field by a willingness to venture everything for the great prize of death in battle." Never were raw soldiers more easily turned back from flight into the thick [Continued on Page 5.]

SUICIDE'S BODY IS FOUND PROPPED UP AGAINST TOMBSTONE

Never in all its tumultuous history, not even in the days of the "long hairs" and the "short hairs," did the Dauphin county Democracy have such a gorgeous light as it has on hand to-day. The party in Dauphin county, acclaimed as united many times in the last year or two, and buttressed by cash and printing ink is riven by factionalism to an extent that promises a most entertaining spectacle to those who have been regaled in late months by stories of strivings only for the purification of the party. Pretenses of working only for the glory of the Democracy have now been thrown to the ash pile and both sides are clamoring for votes up town, on the Hill and in Steelton to uphold the scholar in the White House. The candidacy of Vance C. McCormick for the Democratic nomination for Governor is being as bitterly opposed in his native city as it is in some of the river wards of Philadelphia, and in spite of every effort to decay it an organization is working here for the nomination of his rival, Michael J. Ryan. Men who followed McCormick's banner a short time ago are arrayed against him and the row at home will be entertaining for the rest of the State. Meyers in Earnest The candidacy of Ryan, attacked as presumptuous by the McCormick newspaper, has become the rallying point [Continued on Page 5.]

150,000 TONS OF EARTH FROM SUBWAY FOR FRONT ST. FILL

How to economically and properly dispose of the more than 150,000 tons of earth that will be excavated in constructing the proposed Front and Second street subways this Spring is a problem that is bothering prospective bidders on the Pennsylvania Railroad contract, and it is probable that the River Front between Maclay and Division streets may offer the solution. While bids will not be opened until April 15, scores of contracting company representatives have been figuring on the disposal of the earth for weeks. The plan of dumping the earth outside the western curbline of Front street above Maclay is being favorably considered by contractors. It is said provided the necessary permission can be obtained from the State Water Supply Commission. If this method of [Continued on Page 5.]

UNITED STATES WILL PAY \$25,000,000 FOR PANAMA CANAL ZONE

Washington, D. C., April 8.—Twenty-five million dollars is the amount the United States agrees to pay to Colombia for the partition of Panama and the acquisition of the canal zone in the treaty signed in Bogota by American Minister Thompson and the Colombian authorities. This was stated here to-day at the Colombian legation. No rights for a new interoceanic canal across Colombia by the Atrato river route and no coaling privileges on San Andreas and Providencia Islands, off the Colombian coast, it was stated, were contained in the treaty. While the Colombian minister, Senor Betancourt, received a cable from his foreign office informing him of the signing of the agreement, the State Department was still awaiting word from Mr. Thompson. The boundary between Colombia and Panama is to follow the line laid down in an earlier treaty which was signed but never approved by the Colombian congress. One important demand which the South American republic had been insisting on, the free passage of her merchant vessels through the canal, was given up be- [Continued on Page 9.]

Glynn Refuses to Halt Execution of Four New York Gunmen

Ossining, N. Y., April 8.—"It seems, boys, that every time I come into the death house I am the bearer of bad news," said Warden Clancy of Sing Sing prison last night as he stood close to the cells of the four Rosenthal gunmen and told them that their appeal to Governor Glynn for clemency, or a new trial, had been ineffectual and that the governor had decided not to interfere with the carrying out of the death penalty. "Gyp the Blood" Horowitz was the coolest of the four when the news was broken to him. "We don't blame you, warden," he said. "You can't help carrying us to the bad news but we are sorry that the governor turned us down. We won't give you any trouble, warden. We'll take our medicine." "Whitey Lewis" Seidenshner said he would go to the chair an innocent man. The other two gunmen, "Lefty Louis" Rosenberg and "Dago Frank" Cirofici, had no statement to make. They seemed affected by the news. COLD SNAP COMING Fair to-night, with probable freezing temperature, is the weather predicted by Weatherman Demain for this evening. AUSTRALIA AND ARGENTINA LEAD IN MEAT CONSUMPTION

Washington, April 8.—Australia and Argentina are the only two countries so far as is known which have a greater per capita consumption of dressed meat than the United States, according to the Department of Agriculture in a statement to-day. Australia and Argentina, says the statement, are countries of sparse population and vast herds and flocks; hence meat is exceedingly cheap and native consumption large and probably wasteful.
