Joyful Anticipation of Motherhood

There is apt to be a latent apprehension of distress to mar the complete joy of expectation. But this is quite overcome by the advice of so many women to use "Mother's Friend." This is an external application designed to soothe the muscles and to thus relieve the pressure reacting on the nerves, that the natural strain upon the cords and ligaments is not accompanied by those severe pains said to cause nausea, morning sickness and many local distresses. This splendid embrocation is known to a multitude of mothers.

Many people believe that those remedies which have stood the test of time, that have been put to every trial under the varying conditions of age, weight, general health, etc., may be safely relied upon. And judging by the fact that "Mother's Friend" has been in continual use since grandmother's earlier years and is known throughout the United States, it may be easily inferred that it is something that women talk about and gladly recommend to prospective mothers.

"Mother's Friend" is prepared only in our own laboratory and is sold by druggists everywhere. Ask for a bottle to-day and write for a special book for expectant mothers. Address: Borden's Regulator Co., 407 Lamar Bldg., Atlanta, Ga.

Drastic Reforms to Be Urged in State's Policy

By Associated Press

New York, April 9.—The constitutional convention which the voters of this State authorized to meet in April, 1915, may either revise the present constitution or draft an entirely new set of organic laws.

Since 1895, when the present constitution went into effect, several hundreds bills have been introduced in the Legislature to amend it, showing the demand made upon legislators by members of the judiciary and administrative officers of the State for relief from alleged shortcomings in its provisions.

It is certain that drastic reforms will be urged in the fiscal policy of the State.
