

"Skimming through the air like a swallow flew the airship, the rapid vibrations of the engine beating a tattoo on the heart of the excited girl, who was urging the aviator to increased speed—a speed which had already almost attained the danger point. Out over the waters of the blue Pacific they shot, the excited girl always pointing in the direction of the volume of smoke, marking the passage of the fast out-going liner carrying with it the secret that would clear up the mystery, restore a lover to his rank and remove the stain from the character of a devoted father."

Extract from the first installment of "Lucille Love."

Lucille has persuaded Harley, the Government aviator, to take her in the airship in pursuit of the Pacific liner Empress sailing away with Hugo Lebeque, the arch-psy, in whose hands are the state papers which she must recover in order to save her lover's honor.

John Jay McDevitt's Statue Held in Hock

Special to The Telegraph

Shenandoah, Pa., April 10.—The statue of John Jay McDevitt, millionaire for a day, was attached to wages here to-day by Mahlin and Florence Bordner, who allege McDevitt owes them \$20.

McDevitt has been playing here in audville and had the statue on exhibition at a theater. When he went to pack it away for exhibition at his next stand the warrant was shown him by Captain of Police Manley, who refused to let him touch it, despite John Jay's pleadings that the only place for his statue was the Hall of Fame at the national capital.

The case will be tried here next Monday. The statue will remain impounded until then.

Special to The Telegraph

Washington, D. C., April 10.—Nearly \$1,000,000 saved in the operation of the various administrative branches under Fourth Assistant Postmaster General James I. Blakessie in the first year represents the greatest saving in any federal department this year. Mr. Blakessie, who was secretary of the Democratic State committee of Pennsylvania, accomplished this without injuring the efficiency of the rural delivery service. The report presented to-day sets forth in detail the economies effected in the rural mail service, the division of supplies and the division of dead letters.

brand of Olive Oil is the first pressing of carefully selected Italian Olives. This first pressing yields the virgin oil, the very best, the only kind ever put in containers bearing the OLIVESE trademark. The old Italian method is conceded to be far superior to modern methods, and olive oil so prepared will actually improve with age. OLIVESE comes direct—canned in Italy—from the old Italian orchards and is prepared by the old methods.

If you do not find OLIVESE to be of the highest possible quality—or if for any reason you do not find it entirely satisfactory—you may have your money back without question.

REFORMERS BUMP PALMER MACHINE

Denounce the Manner in Which It Has Been Abusing Civil Service in State

Criticism of the manner in which the Palmer organization is using federal patronage in this State was contained in the thirty-third annual report of the executive committee of the Civil Service Reform Association of Pennsylvania, submitted to the annual meeting of that organization in the City Club. It was reported that T. Henry Walnut, president and counsel for the association, had investigated for the appointment at New Freedom and had found that one man had been appointed postmaster only after he signed a paper agreeing to pay \$100 a year to the Democratic county committee.

"Throughout the State," the report stated, "third and second class post offices have been made use of extensively for the purpose of strengthening a faction of the Democratic party. Your committee will be prepared to protest against such appointments as appear to bear the stamp of political favoritism."

Ambassadors Barred From Making Speeches

Special to The Telegraph

Berlin, April 10.—Officers of the American Chamber of Commerce, Berlin, have run across what looks like a presidential order from Washington in regard to speechmaking by ambassadors. The chamber's Ambassador Gerard to deliver an after-dinner oration at Hamburg, April 18, on the occasion of its annual banquet in that city, but it seems that Ambassador Gerard's recent outburst of eloquence in London caused the State Department to place something like a muzzle on Uncle Sam's plenipotentiaries abroad.

Ambassador Gerard has agreed to speak at the banquet, but will confine himself to toasting the Kaiser, President Wilson and the city of Hamburg. Anything else he would like to say will, it is understood, be delivered by proxy.

Johnstown Heroine Dies in California

Special to The Telegraph

Pittsburgh, April 10.—One of the most thrilling chapters of the Johnstown flood was recalled to-day by Pittsburgh relatives of Miss Harriet A. Duncan, word of whose death at Los Angeles, Cal., April 2, was received here. Miss Duncan occupied one of the few houses which withstood the mighty torrent of water at Johnstown and from her attic window she rescued sixteen persons from death. When the flood came Miss Duncan, who was living alone in the house, fled to the top floor. The house, which was a substantial structure, was protected by a large tree from being hit by wreckage and kept its foundations.

From her post at her attic window Miss Duncan reached out with a broom and flung out a clothesline to persons floating by on debris or on houseboats. She saved those who came within reach, sixteen in all. The little company was compelled to remain in the attic of Miss Duncan's home three days, where they almost perished for want of food before they were rescued. Soon after the flood Miss Duncan moved to Los Angeles to join her sister, Dr. Sarah J. Duncan.

Most Skin Trouble Readily Overcome

The Active Principle of a Famous Remedy Works Wonders.

Many people have marveled the way S. S. S. overcomes skin troubles. The explanation is the fact that S. S. S. works in the blood and the blood is really a most intricate and extraordinary mass of arteries and veins.

When you come to realize that the skin and the flesh beneath are composed of a network of tiny blood vessels you solve the mystery.

There are wonderful medicinal properties in S. S. S. that follow the course of the blood stream just as naturally as the most nourishing food elements.

It is really a remarkable remedy, it contains one ingredient, the active purpose of which is to stimulate the tissues to the healthy action of its own essential element. And the medicinal elements of this matchless blood purifier are just as essential to well balanced health as the nutritious elements of the meats, grains, fats and sugars of our daily food.

Not one drop of minerals or drugs is used in its preparation. Ask for S. S. S. and just insist upon having it. And if you desire skillful advice and counsel upon any matter concerning the blood and skin, write to the Medical Department, The Swift Specific Co., 120 Swift Bldg., Atlanta, Ga.

Do not allow some serious skin ailment to develop over something "just as good" as S. S. S. to fool you with the same old mineral drugs. Beware of all substitutes. Insist upon S. S. S.

Acid Stomachs Are Dangerous

Common Sense Advice by a Distinguished Specialist

"Acid" stomachs are dangerous because acid irritates and inflames the delicate lining of the stomach, thus hindering and preventing the proper action of the stomach, and leading to probably nine-tenths of the cases of stomach trouble from which people suffer. Ordinary medicines and medicinal treatments are useless in such cases, for they leave the source of the trouble, the acid in the stomach, as dangerous as ever. The acid must be neutralized, and its formation prevented, and the best thing for this is a powerful, but only neutralizes the acid, but also prevents the fermentation from which acidity is developed. Foods which ordinarily cause greatest distress may be eaten with impunity if the meal is followed with a little bisulphated magnesia, which can be obtained from any druggist, and should always be kept handy.—Advertisement.
