Make Big Changes in Game This Year

By "UMP"

Play ball!
Throughout this glad land to-day the fervent fan emerged from his wintry lair to hear what Byron might have called Play ball!

"—That all-softening, overpower-ing knell, The tocsin of the soul—the um-pire's yell."

The great American game — Hoyle not with standing, poker isn't meant here—got an auspicious start this afternoon on its journey around the 1914 season. Three big leagues walked out into the limelight — National, American, and, oh yes, Federal. The recent change in the leadership of the National League has brought increased interest in the game, and with the elimination of the disturbing elements, following the election of Governor John K. Tener as presi-

Placed Under Arrest

When the slayer of Stanford White entered this State last September after his deportation from Canada, he was arrested by the State authorities. To prevent his extradition to New York his attorneys petitioned for a writ of habeas corpus, this proceeding automatically placing the case in Federal jurisdiction and acting as a stay to the extradition which was granted by Governor Felker.

the extradition which was granted by Governor Felker.

Later the fugitive applied for admission to bail on the ground that conspiracy to escape from the insane asylum at Matteawan, the alleged oftense on which extradition proceedings were based, was ballable. Counsel for New York State opposed the motion for bail, alleging that Thaw's mental condition was such as to make his freedom a menace to the public.

New York's right of custody, if the right exists, Judge Aldrich rules, "was based solely upon the idea of insanity; and from the very nature of the case, in describing the supposed extradition crime, the demanding State itself, upon the face of the papers, necessar-

## Dr. Swallow Ridicules "Gasoline Christians"

By Associated Press

Philadelphia, April 14.—Dr. Silas
C. Swallow, former Prohibition nominee for President of the United States, ridiculed "gasoline Christians"—in other words, church members who go automobiling on Sunday, in an address yesterday before the Methodist Preachers' Association in Wesley Hall. The speaker gave a humorous description of the foibles of church members, satirized the trilling differences between some of the denominations and

The speaker gave a humorous description of the foibles of church members, satirized the trifling differences between some of the denominations and urged that "professional sporting loafers" be put to work in the country.

"Ask one of the howling loafers who sit half the season on the baseball bleachers to help the overworked farmer and he would give you a look of scorn" said Doctor Swallow.

"We are not opposed to a daily unbending of the mind in healthy, open-air recreations. We like golf and tennis and croquet and quoits and baseball and horseback riding, but we object to professional athletics, in which young men spend all their lives in mere play, and are encouraged in the your colleges as an advertisement and by our churches as a decoy. The moment the church gets away from the insanity of amusing people, feeding people, clothing people, in order to save them, the sooner will we solve the question, 'How can we reach the masses?'"

Fundorses Wilson and Only the Congressmen Who Stood by Him in the Tolls Fight

War within the ranks of the Democratic party in Pennsylvania was made more heated to-day when the Democratic State committee, called for the purpose of acting on the changes in party rules to make them conform to the primary act of 1913, adopted a resolution commending the stand of President Wilson and such Democratic congressmen as supported him in the tolls repeal legislation and Congressman A. Mitchell Palmer had made a speech in which he denounced men within the party who criticised Wilson as a boss or usurper. State Chairman Roland S. Morris warmly denied that a cent collected from Democrats by the State committee was being spent in the interest of any primary candidate, but for legitimate headquarters' purposes only. The meeting, the largest attended in a long time, wound up with a speech by Lee F. Lyberger, of Lewisburg, in which he called attention to the fact that Palmer was a candidate for nomination for United

### Valley Railways Cars to Stop Hereafter as They Approach Grades

C. H. Bishop, president of the Valley Railways Company, to-day advised the investigator of accidents for the Public Service Commission that instructions have been issued to the effect that all cars come to a full stop on the overhead bridge over the Cumberland Valley Railroad tracks just north of Eichelberger's Curve, where a car was derailed on the evening of March 16, and by which a passenger, Mrs. Isabella H. Jones, of Camp Hill, was fatally injured.

The cars will not only come to a full stop at this point, but at the top of the grade at Boiling Springs; the center of the overhead bridge north of the Enola yards, and on the overhead bridge north of the Enola yards, and on the overhead bridge north of the cars should be operated carefully and slowly down the grades.
