PREPARES FOR BRIDGE

Special Schedule For All Trains May Be in Effect May 1; Room Badly Needed

With the inauguration of the work on the new Cumberland Valley Rail-road bridge across the Susquehanna river on or about May 1 will come a special schedule for the operation of trains between Lemoyne and Harris-burg.

trains between Lemoyne and Harrisburg.

Space is what the contractors and railroad company will need to take care of material used in the construction of the bridge and subways. Part of the bridge material will be cared for in the Lemoyne yards. That to be used on this end and in Harrisburg will be unloaded on the property along Mulberry street now being vacated.

No contract has been let for the work, but the Cumberland Valley Railroad Company, in order to prevent any unnecessary delays, want to get possession of the ground along Mulberry street as early as possible. Tracks will be put down for sidings and sheds erected for storage purposes.

The special schedule will be necessity.

and sheds erected for sorting party poses.

The special schedule will be necessary to take care of the work trains in delivering material. It is understood that a watchman will be permanently stationed on the bridge during the day. All speed schedules will be reduced over the bridge while the work is in progress.

without an American flag and with nine marines and one officer landed at a point called the beach of Iturbide, in Tampico. Colonel Raymond Binojosa, who has charge of defending that who has charge of defending that point, detained the marines and officer and conducted them to the presence of the general who had command of the fort, Ignacio Morelos Zaragoza.

"It should be remembered that at this time the port not only was under military control, but was withstanding an attack by rebels.
"General Zaragoza immediately and without even investigating the case put the marines and the officer at liberty, placed Hinojosa in prison and sent an apology to Rear Admiral Mayo, commander of the American fleet.

Mayo, commander of the American fleet.

Believed Incident Closed.
"We thought the incident was closed, but unfortunately this was not so, because Mayo sent to him some time afterward an ultimatum wherein he asked that a second apology be presented to him by the staff of the chief of the fort, General Zaragoza; that the American flag be hoisted at a public place in Tampoca and saluted by twenty-one guns, and, besides the severe punishment of Hinojosa, stipulating that all this be done within twenty-four hours.

"The term was later extended when diplomatic pourparlers were begun between the subsecretary of foreign affairs in Mexico, the minister being absent that date, and continued until now.

Huerta Ordered Inquiry

Protocol Presented

"The Mexican government, believing that the salute in question was of no importance unless previously and formally agreed upon by both parties, proposed the signing of a protocol and the minister of foreign affairs presented last night a draft of such a protocol to the American charge d'affaires, Nelson O'Shaughnessy.

"O'Shaughnessy answered that he must consult his government; that he would advise the minister of the nature of this answer, and this afternoon he communicated to the minister the fact that his government did not accept the idea of a signature of any protocol whatever, but wanted an unconditional salute of the American flag.

"This the Mexican government re-

protocol whatever, but wanted an unconditional salute of the American flag.

"This the Mexican government refused, feeling that it had done all possible in view of the friendly understanding between the two governments, and believing the acceptance of such an imposition would be equivalent to yielding by Mexico to humilisation. The Mexican government is confident that the civilized world will find its conduct has been wise and temperate, that it has observed all the requirements of international law and that the refusal to yield further is inspired only by a regard for its honor and dignity."

"With a view of putting an end to the lamentable incident which occurred on the 9th inst. at Port Tampleo, caused by the detention of nine men and one American officer; considering that such marines were immediately put at liberty by General Zaragoza, commander of Port Tampleo, and that said officer presented an apology to Rear Admiral Mayo, commander of the American squadron in these waters; that afterward when the president of the republic of Mcxico became advised of the facts he expressed regret through the office of foreign relations for the incident and ordered that a full investigation be made to the end that the guilty might be punished if any be found guilty; and finally that the action in question was due to the zeal-ousness of a subaltern which might be regarded as excusable if it is taken into consideration that the marines when detained had gone ashore in uniform without permission of the military authorities, the port being at the moment not only in a state of war but under atack by rebels, the charge d'affaires of the United States and the minister of foreign relations of Mexico, acting in their official capacities, agree as follows:

"First, that the Mexican government, inspired by a desire of showing the good will it feels toward the people of the United States and acting in the same manner wherein the United States has done in similar cases, binds itself that the American flag be saluted at Tampico by twenty-one guns from the Mexican shore batteries and a Mexican warship in those waters.

"Second, that the cannon referred to in the preceding article shall be fired at the moment when the American flag shall be hoisted to a masthead on the Mexican shore.
