The fly killing contest, the cocoon contest and an oratorical contest all held by the club, were most successful, and the response by the club to an appeal for clothing for Mont Alto sanitarium was generous.

In closing, Mrs. Reilly thanked the board of directors and club members for their loyal support during her term of office and urged them to remember that "a larger and more efficient service awaits the club in the future, on the condition that our first interest rests in the club as a whole, rather than in the particular committee or specific form of activity."

A Message to Thin, Weak, Scrawny Folks

An Easy Way to Gain 10 to 15 lbs. of Solid, Healthy, Permanent Flesh.

Thin, nervous and undeveloped men women everywhere are heard to say "I can't understand why I do not eat plenty of good nourishing food." The reason is just this: cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them through the bowels as waste.

What is needed is a means of getting the assimilative functions of stomach and intestines to absorb oils and fats and hand them over to blood, where they may reach the starved shrunk run-down tissues and build them up. The thin person's blood is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived.
