Why Catarrh Bothers

Your Nose and Throat

Living, Vital Facts For All Who Suffer With

Any Form of Catarrhal Infection

and Chronic Colds

Woman is slow in the growth toward the standard of life, which illustrates in the proposal of the standard of life, which illustrates in the standard of life, which illustrates in the supposance of the supposan

Married on Eve of Battleships' Trip

Everywhere people marvel at the results of S. S. S. in overcoming catarrh. To the mind not versed in the wonders of the human body it will be interesting to understand why this most famous of all blood purifiers, S. S., has such a remarkable influence in clearing the nose, throat and air passages of catarrh.

Your nose, as are all the important cavities of the body, is lined with mucous membrane. So is your throat and even your skin covering is a modified form of mucous tissue. Now, all toxins or blood impurities are eliminated by way of this membrane. Stomach distress, intestinal bloating, liver engorgement, kidney weakness, sore lungs and bronchial tubes that produce cough; an irritated bladder, diarrhoea and other bowel troubles all may be and often are inflamed and involved in a general state of disturbance which is recognized as catarrh. And it is through their mucous membranes that the impurities or hypersecretions of mucos must be eliminated. In such an event it is often necessary that these secretions be prepared by some internal medicinal influence or action before they can be effectually gotten rid of. And if not so prepared for elimination they are usually deposited in some vital parts and remain as points of concentration for various forms of chronic inflammation.

Now, the action of S. S. S. is to so prepare the various blood impurities for elimination that they are readily seized.

tion for various forms of chronic inflammation.

Now, the action of S. S. S. is to so prepare the various blood impurities for elimination that they are readily seized upon by the mucous membranes for expulsion. And if S. S. S. were more generally used as a membraneous catalytic there would be no catarrh.

But along comes LeGrippe and "Bad Colds," all the mucous membranes are involved and the nose, throat, bronchial tuess and lungs being closely allied in the precess of burning up impurities these become clogged hence catarrh, bronchitis, chronic sore throat, pneumonia, cough, and then the general involvement

of the stomach, kidneys, bladder and all other organs of the body.

These facts have been demonstrated for many years and are known to thousands in every community where catarrh abounds. But people cannot seem to shake off the notion that the nose is the seat of trouble. The nose is merely an outlet, the same as the bladder, bowels, skin and the expulsive process of the lungs.

Urge yourself to get a bottle of S. S. today. Get your mucous linings in order and not only will catarrh disappear, but away goes a myriad of other symptoms that usually distress nine people out of ten. S. S. S. is guaranteed absolutely vegetable, no acids, no minerals, no polsonous substance of any kind—just a remarkable blending of the most potent, most searching, most powerful blood purifiers known to man.

Do not permit anyone te substitute anything eles for S. S.

ners known to man.

Do not permit anyone to substitute anything else for S. S. S.

Send for an interesting book on catarrh. There are many people so discouraged over blood impurities that they will find a new lease of life by consulting freely our Medical Department. Write to The Swift Specific Co., 605 Swift Bldg., Atlanta, Ga.

HISTORIC GAVEL PRESENTED

Special to The Telegraph
Sunbury, Pa., April 22.—Mrs. Isaac
M. Gross, owner of Fort Augusta,
Sunbury, to-day, in New York city,

to Mexico

Cough remedies, nose greases and throat tablets, gargles, sprays and so on are merely salves on a smoking chimney. The fire may be down in the stomach or in the liver or in the kidneys.

The very fact that the nose is constantly pouring out or is plugged up with mucus must convince anyone that the supply is coming from many deeper sources.

She is Mrs. Donald Taylor Hunter now. She might have remained Miss Emily Hancock Hughes for a long time. Miss Hughe, was engaged to the Arkansas, Admiral Badger's flagship, of the American fleet. When the President suddenly issued his order.

Useful to Wear Over Thin Gowns as Well as With

8205 Short Coat, 34 to 42 bust. TO BE BUTTONED OVER OR ROLLED BACK TO FORM REVERS, WITH LONG OR THREE-QUARTER SLEEVES.

Just such jaunty little coats as this one are the smartest of all things for spring and summer. For the early season, they will be used for the wool suitings and heavier silks and later for the thinner silks, cotton and the like. This one has the advantage of being exceedingly smart and exceedingly simple so that any home dressmaker need not hesitate to undertake it. The coat is all in one piece so that it is necessary only to seam up the undertake it. The coat is all in one piece so that it is necessary only to seam up the underarm seams and to gather the back to produce the needed effect. The collar is joined to the neck edge and the belt is arranged over the gathers at the back and under the pointed fronts. In addition to serving for the costume, the coat makes an excellent one for the fancy jacket to be worn over lingerie gowns and such jackets will make an important feature of the summer.

For the medium size, the coat will require 3½ yds. of material 27, 2½ yds. 44, 1½ yds. 52 in, wide, with ½ yd. 27 in, wide for the collar and cuffs, ¾ yd. of ribbon 8 in, wide for the belt.

The pattern of the coat 8205 is cut in sizes from 34 to 42 inches bust measure. It will be mailed to 2ny address by the Fashion Department of this paper, on receipt of ten cents.

tong entitled "In Washington, D. C." Landslide Covers 200 Feet Harrisburg Maltas to of Track Near Selinsgrove Attend York Conclave

Sunbury, Pa., April 22. — A land-slide, which covered 200 feet of track, occurred on the Susquehanna division of the Pennsylvania Ruilroad near Selnsgrove, and 100 workmen labored twelve hours before the westbound rack was cleared. The eastbound only had a few tons on, and was easily opened.

Timely discovery by a trackwalker saved No. 9, a fast passenger train, westbound, from crashing into it.
