Senate, Without Debate,
Passes Volunteer Army
Bill as Agreed Upon

Washington, April 24.—The Senate to-day without debate passed the volunteer army bill as agreed to by the conferees of the House and Senate.
The bill was designed to cure defects in existing law relating to volunteer forces and it is relied upon to put these forces upon a war time footing almost similar to the regular army.

Except for the fact that the volunteer army would be disbanded immediately by Presidential action at the close of hostilities which led to its organization there would be little difference between it and the regular standing army.

The volunteer army under the King Alfonso Willing

Army.

The volunteer army under the terms of the bill, is to be raised when war exists, or "while war is imminent" but only after congress has given the President authority. The President would call for volunteers by proclamation and make the necessary regulations for receiving them into service. Enlistments would be apportioned among the states according to population.

Not a Word of Truth in It, Says Physician Who Performed Operation

Reports of a highly sensational nature regarding an operation performed on the leg of the Rev. C. G. White, of Millersburg, resulting in the discovery of the partly developed body of a child instead of the fatty tumor that was expected, are denied absolutely by Dr. Jos. C. Bloodgood, the physician in charge, in a letter made public to-day. The story was published in a number of newspapers, but received no mention in the Telegraph, due to the fact that this newspaper's policy is to guard against just such errors, as it was suspected at the time this would prove to be.
