Ansel Purple Helped Build Customs House at Tampico

Special to The Telegraph
Columbia, Pa., April 24.—Ansel Purple, a flour and grain dealer, of this place, is one of the few men in this section of the State who is familiar with life around Tampico, Mexico, where he spent two years in the employ of the Mexican Central Railroad in constructing the customs house in that city.

During his residence in that city he had a splendid opportunity to study the life and habits of the Mexican people among whom he was associated and also learned much of the official life of the country in that section. Upon his return to the States he brought with him a bride, who was Miss Emma Liebernecht, daughter of Adam Liebernecht, who was American consul there at that time.

Mr. Purple is much interested in the exciting events that are now being enacted in Tampico and Vera Cruz and possesses a familiarity with the conditions around those cities that enables him to impart reliable information concerning the course of events and the positions occupied by the American war vessels and Uncle Sam's marines.

While a resident of Tampico he was obliged to live outdoors much of the time and at such intervals he occupied a tent, having under his charge and with him as laborers and servants a number of natives. He possesses a number of pictures of points of interest now so much in the public eye and in the scene here produced may be observed standing with his camera. His photograph is also in the oval. He says he has no desire to return to Tampico at this time, as he thinks a residence there at this time would be undesirable.

SAGE AND SULPHUR DARKENS GRAY HAIR

Brush This Through Faded, Lifeless Locks and They Become Dark, Glossy, Youthful

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmothers made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe. Nowadays we get this famous mixture by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. Besides, it takes off dandruff, stops scalp itching and falling hair. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.—Advertisement.

NEW LIFE

Found in Change to Right Food
After one suffers for months from acid dyspepsia, sour stomach, and then finds the remedy is in getting the right kind of food, it is something to speak about. A N. Y. lady and her young son had such an experience and she wants others to know how to get relief. She writes: "For about fifteen months my little boy and myself had suffered with sour stomach. We were unable to retain much of anything we ate. "After suffering in this way for so long I decided to consult a specialist in chronic diseases. Instead of prescribing drugs, he put us both on Grape-Nuts and we began to improve immediately. "It was the key to a new life. I found we had been eating too much heavy food which we could not digest. In a few weeks after commencing Grape-Nuts, I was able to do my housework. I wake in the morning with a clear head and feel rested and have no sour stomach. My boy sleeps well and wakes with a laugh. "We have regained our lost weight and continue to eat Grape-Nuts for both the morning and evening meals. We are well and happy and owe it to Grape-Nuts." Name given by Postum Co., Battle Creek, Mich. FIFTEEN STUDENTS DROPPED FOR HAZING

Young Men at Albright College Were Paddled and Ducked in Fish Pond

Special to The Telegraph
Lebanon, Pa., April 24.—Fifteen students of Albright College were suspended and sent to their homes yesterday after one of the most exciting hazing incidents in the history of the college. The college authorities have made every endeavor to keep the matter a secret, but it is said that two students of the preparatory department, named Davis and Yoder, were severely paddled and ducked in Hank's fish dam south of town, because they neglected to wear the little red cap which has been prescribed by the upper class students as a part of the apparel for preparatory students facing a hazing. The hazing was reported to the faculty, and all classes were suspended on Wednesday while the management met in executive session. Next morning their verdict was issued: the fifteen students quietly left the institution.

A Tonic For the Nerves

Nervous people who have not yet developed a disease that can be recognized and treated by the medical profession have the greatest trouble in finding relief. Irritation, headache, sleeplessness, nervous dyspepsia, all these discomforts make life miserable but are endured rather than run a doctor's bill without definite hope of recovery. Every such sufferer should know the danger of such a condition of the nervous system. Nervous debility and even paralysis may easily result if the tone of the nerves is not restored. The one big fact that brings hope and relief is that the nerves can be restored by building up the blood. It cannot be too often repeated that only through the blood can nourishment and medicine reach the nerves. Dr. Williams' Pink Pills make the blood rich and red and quickly restore vitality and energy to a weak nervous system. A nervous person who gives these pills a trial is almost certain to see good results and, what is more, the benefit will be lasting because the trouble is attacked at its root. Thin blood makes weak nerves. Building up the blood restores the nerve force. Get a box of Dr. Williams' Pink Pills to-day and write the Dr. Williams' Medicine Co., Schenectady, N. Y., for a free copy of "Diseases of the Nervous System."—Advertisement.
