Washington, April 24.—The volunteer army bill, as passed by both Houses of Congress yesterday, was a compromise between the Senate and House. It was approved by the President.

President.

Important Features
The important and distinguishing features of the new bill are:
Any volunteer organization recruited up to three-fourths of its strength may be taken into the service by the President regardless of the militia regiments. The present law requires the President to exhaust the militia of the States before accepting volunteers.

# Cures by Manipulation

Cures by Manipulation

Dr. J. Madison Taylor, noted expert of the Medical Department of Temple University, lectured before the Harrish Durity of the Medical Department of Temple University, lectured before the Harrish Durity of the Medical Department of Temple University, lectured before the Harrish Durity of the Medical Department of Temple University, lectured before the Harrish Durity of Manipulation the practice and cure of disease by Manipulation and the like of the possibilities of treatment of manipulations, and said the elasticity of the spine has much to do with the regulation and free flow of blood to the borgans. Dr. Taylor said that he had cured many such diseases as gout, actual indigestion and the like by the methods he advocated.

What? Have You a Plain?

Use a Flat-iron on It

# Use a Flat-iron on It

Mechanical devices — even such a simple things as flat irons—may cure acute and chronic diseases. That was the substance of Dr. J. Madison Taylor's address before the Harrisburg Academy of Medicine last night. Dr. Taylor belongs to the Medical Department of Temple University, Philadelphia.

The application of a common household flat iron has been known to scatter pain if applied in a systematic manner. Constant application over a towel that is placed on the back of the sufferer from influenza, for instance, will relieve the headache and make the distressing pains in back and limbs vanish and be forgotten Why? The congestion of blood is scattered, is directed to the proper extremities and acts as the blood of a normal person should do. Dr. Taylor is coming back to talk before the Harrisburg Academy in the near future.
