

The General says: "Service is the true form of salesmanship."

Ten years ago you would have bought a tar and gravel roof, a tin roof, a slate or a shingle roof, according to the type of building you wished to cover. Today you will buy Certain-Teed

Certain-Teed Roofing. Ten years ago roll roofing was a high priced specialty. Today it is a staple at a reasonable price. And Certain-Teed Roofing made it so.

Ten years ago manufacturers and roofing dealers both thought that they had to have an exaggerated profit on roll roofing—because so little of it was sold.

Certain-Teed Roofing is sold at a reasonable price everywhere by dealers who believe in giving unsurpassed quality at a fair profit.

We are also advertising in farm papers, and foreign language newspapers, reaching people who may not read the daily newspapers.

This is our idea of service. We have the three biggest mills—we are large buyers of raw materials and we advertise everywhere, because that is the cheapest way to sell our roofing.

We share the savings of our enormous volume with you who use roofing. We encourage jobbers and dealers to follow our example and sell on small margins and depend upon the large volume of business which is certain to result from the best service to users of roofing.

That building of yours which requires a roof—whether it's a factory, warehouse, business block, farm building, residence or any other structure—whether it's new or old—your first thought would be roll roofing, because Certain-Teed has put roll roofing easily within your consideration from a price standpoint.

It has done more than that—it has put Certain-Teed Roll Roofing first in your consideration from the standpoint of quality, durability and real roofing service on the roof.

DICKINSON COLLEGE MAY HAVE NEW HEAD

Criticism of President Noble's Management Likely to Lead Trustees to Remove Him

Philadelphia, Pa., April 27.—Members of the board of trustees and graduates of Dickinson College at Carlisle, Pa., are stirred by a movement which has been started for the removal of Dr. Edgar Noble as president of that institution.

Judge E. W. Biddle chairman of the board of trustees, refused to comment on the situation, but said that there would be a meeting of the board within the next few weeks.

Doctor Noble will complete his third year as President of Dickinson College next October. He was chosen in the fall of 1911 by a committee of the board delegated to select a successor to Dr. George E. Reed, who retired at that time on a pension from the Carnegie Fund.

unable to predict just what disposition will be made of the first troops to land, but it is supposed that the infantrymen will be used in patrolling the streets and the cavalry on the picket lines beyond the city limits.

Many Wear Union Jacks. The gathering represents every activity in the interior of Mexico in which Europeans have had a part and many of the British subjects still wear a union jack pinned to coat or front of their way to the front.

Stores are Thriving. Vera Cruz stores are doing a thriving business supplying those who fled. The cafes are reduced to meager bills of fare to meet the demand.

City hotel accommodations are strained to the limit to care for the influx of refugees and the American officials continue to-day their efforts to induce the women at least to go to the United States.

MEXICANS ATTEMPT TO CROSS BORDER

(Continued from First Page.)

of State Bryan and a statement was expected later in the day relating to the next move to be made in the situation.

Soon after Secretary Bryan informed President Wilson of the advances from Mexico City that Huerta had acceded to the preliminary steps in the mediation proposals, further encouragement in the situation came in advices from Berlin that Germany, France and Great Britain had urged Huerta, through their diplomatic representatives in Mexico City to yield to the American demands.

Another cause for optimism among Washington officials was the assurance from Admiral Badger that efforts of British and German officials in Mexico apprehension over American and other foreign refugees in Mexico had been greatly dispelled. One official dispatch from Admiral Badger to the Navy Department declared that the authorities in Mexico City had agreed to provide transportation for all Americans from Mexico City as far as Soledad, the Mexican controlled end of the railroad to Vera Cruz.

Chairman Stone of the Senate committee on foreign relations who conferred with the President, said members of Congress would generally approve of the mediation efforts.

The adding of European influence to the generally sympathetic attitude which practically all Latin-American diplomats here have assumed toward the mediation idea gave many administration officials a confident feeling that after all Huerta might be disposed to end the present crisis in a way satisfactory to all concerned.

The Bolivian government through its minister here has notified Secretary Bryan of its great satisfaction with the acceptance by the United States of the proposal to mediate the difference between the United States and Mexico. Advises received from many officials here is growing that loss of life will be averted and damage inflicted only in a financial sense.

ORDERED TO MINE BRIDGES

It has been learned here that General Rubio Navarrete, a relative of Huerta, has been detailed to the work of destroying the railroad should that step become necessary.

Foreigners Released. J. B. Boyd returned Sunday from Coahuila, where he effected the release of all foreigners who had been arrested under Huerta's orders and held at Rincon Antonio, the headquarters of the road.

Another Refugee Train. Later the German ambassador, Mr. Von Bernstorff, informed Secretary Bryan that his government would support the mediation proposal.
