#### GEMS FROM PALMER

F evidence of the special fitness of one A. Mitchell Palmer for the high

eches in and around Philadelphia. His most eloquent periods are inspired by the officials on Capitol Hill. We quote a few of his gems:

I want to be in Harrisburg when McCormick becomes Governor. There will be a parade of political crooks marching off Capitol Hill that will fill three cars.

And again If I were McCormick I would ship them all to Vera Cruz, for they would make an army large enough to fight the entire Mexican army.

And still again

und still again When I see Mr. Ryan surrounded by the same flock of political buz-zards that fought over the pieces of the Democratic party at Allen-town. I am suspicious that they might try to perpetrate the crime of Allentown again if they could. And this is the same Palmer who is said to have been the beneficiary of

the party leaders whom he now deounces and with whom he is accused of having been associated in "the rime of Allentown."

And these are the men who are now beseeching the voters of Pennsylvania to give them further power that they may pursue the game of little men.

The cute little practice of throwing wall paper and other household refuse, discarded limbs of trees and all sorts of household waste, over the beautiful planting along the river parks will continue just so long as it is permitted to

EMBARGO AGAIN IN FORCE

[Philadelphia Ledger]

When President Wilson ordered the

emoval of the embargo upon the ship-

ment of war munitions into Mexico he

aided anarchy in that unhappy repub-

lic and instead of hastening the over

throw of Huerta, which was the osten-sible object, he merely enabled the combatants to butcher a few hun-

dred more Mexican people. In now

renewing the embargo, he cuts off the

supply of weapons in the hands of those who may at any moment turn them against us, but at the risk of precipitating that very union of Mexi-can factions which is presumably the aim of American diplomacy to pre-vent.

## ARE YOUR FEET SORE? Anatomik Shoes HAVE MADE THOUSANDS HAPPY

After investigating the merits of the many "patented" shoes claiming to cure all the ills the human foot is heir to we decided the ANATOMIK SHOE had more good features than any other. For the past few months we have been testing them on the feet of our patrons suffering with serious foot troubles, such as falling arches, smarting and burning feet, callouses, corns, ingrowing nails, etc., and the results have been very gratifying. These are the pleasing things we hear:

"For years I have not known what a comfortable shoe was until you sold me this pair of ANATOMIKS," "I would not sell this pair for \$25.00 if I could not get another pair. I told my wife to come down and be fitted with a pair." My little girl walks better in this shoe." A physician who was wearing arch supporters says "Don't sell any more arch support—sell ANATOMIK SHOES."

We heartily recommend them to anyone, but particularly to those who have trouble to get a comfortable shoe. This store is an exclusive agency for ANATOMIK SHOES. They come in lace only-made of the highest grade of glazed kidskins with very best of oak soles.
