

HISTORIC GETTYSBURG REUNION PICTURES PRESENTED TO G. A. R. POSTS

The accompanying etching is from a photograph of the reunion of the survivors of Pickett's command and those of the Philadelphia Brigade at 3 o'clock on the afternoon of July 3, 1863, exactly fifty years to the hour after Pickett was in charge of the center of the Union line at Gettysburg, a point which became known as Bloody Angle. The reunion was at that point. Survivors of the Philadelphia Brigade presented Pickett's men with the American flag shown in the picture, and the man making the speech is accepting the flag, being a veteran of Pickett's command. The Pickett flag and the Philadelphia Brigade flag, which are crossed in the picture, were flags of battle fifty years ago. Thousands of veterans and camp visitors witnessed the reunion of the men who fought a hand-to-hand battle at Bloody Angle. The photograph was made by a Telegraph photographer (Robert F. Gorman) and an enlarged reproduction, 20x23 inches, properly framed, was presented to each of the three Grand Arms of the Republic posts of Harrisburg by the president of the Telegraph. These framed and historic pictures now hang in the post rooms.

There is Nothing Like a Trip to "Yellowstone Park"

I know of no other vacation spot in all the world that is in any way similar to Yellowstone. It is entirely different and offers to the vacation seeker, weary of the sameness—in ocean or land travel, or the monotony of the seashore or mountains—a distinctive outing that is unrivaled. Imagine the fascination of a six day stage tour of this great National Park stopping daily at picturesque and well kept hotels. Think of geysers, throwing out boiling water, waterfalls of immense heights—deep chasms with beautifully colored sides.

Let me send you a copy of our booklet showing maps, pictures and descriptions of Yellowstone Park, and the Mississippi Valley that you pass through en route. I will also gladly help you plan your trip and take care of the details—no obligation on your part because it's my duty. I am paid for it. Wm. Austin, general agent passenger Depts., C. & Q. R. R. Co., 825 Chestnut street, Philadelphia, Pa.

For Beautiful Hair, Nourish the Scalp

Dandruff must be removed and the hair roots nourished to stop falling hair and itching scalp. It is unnecessary to have thin, brittle, matted, stringy or faded hair. No matter how unsightly the hair, how badly it is falling, or how much dandruff, Parisian Sage rubbed into the scalp is all that is ever needed. The hair roots are nourished and stimulated to grow new hair even all dandruff is removed with one application, and itching scalp and falling hair cease; the hair becomes soft, fluffy, abundant and radiant with life and beauty.

Among those things which all women should know of, and many of them do, is a splendid external application sold in most drug stores under the name of "Mother's Friend." It is a penetrating liquid and many a mother tells how it so wonderfully aided them through the period of expectancy. Its chief purpose is to render the tendons, ligaments and muscles so pliant that nature's expansion may be accomplished without the intense strain so often characteristic of the period of expectancy.

"Mother's Friend" may therefore be considered as indirectly having a splendid influence upon the early disposition of the future generation.

Whatever induces to the ease and comfort of the mother should have its influence upon the nervous system of the baby. At any rate it is reasonable to believe that since "Mother's Friend" has been a companionable method for more than half a century it must be a remedy that women have learned the great value of.

Ask at any drug store for "Mother's Friend," a penetrating, external liquid of great herb and value. And write to Bradford Regulator Co., 402 Lamar Bldg., Atlanta, Ga., for their book of useful and timely information.

The Real Secret of Rejuvenating the Face

She holds the true secret of facial rejuvenation who has learned how to remove the dead skin particles as fast as they appear. It's a secret anyone may possess. The aged, faded or discolored surface skin may be gradually absorbed, in an entirely safe and rational manner, by the nightly application of ordinary mercolized wax. Within a week or two the underlying skin, youthful and beautiful to behold, has taken the place of the discarded cuticle. So little of the old skin is absorbed each day there's no inconvenience at all, and no one suspects you are putting anything on your face. The mercolized wax, procurable at any drugstore (an ounce is sufficient), is applied like cold cream. In the morning it is erased with soap and water. It's the best thing known for freckles, liver spots and fine surface wrinkles, black heads, pimples, moth patches. For the deeper wrinkles, an excellent recipe is: Powdered saxolite, 1 oz., dissolved in 1/2 pt. witch hazel. Bathing the face in the solution produces quick and wonderful results.
