## **DECLINE IS HALTED**

## BY INITIAL UPTURN

Traders Who Sold Short Covered at Higher Figures, Being

Unable to Unsettle Market

New York, April 30. — Execution of scale buying orders halted the decline which followed the initial upturn. Early irregularity was succeeded by a defiupward movement, which continued through the morning, placing

stocks one-half to one point above the preceding close.

Traders who sold short covered at higher figures when it became evident that they had failed to unsettle the market. Conspicuous strength of the Eastern railroad group, particularly New York Central, was associated with expectations of an early decision in the reight rate case. Railway shares were strengthened also by the com-paratively favorable character of the March report. Bonds were irregular.
