Salt Rheum Is the Itch Fiend

Salt rheum is one of the worst and unfortunately one of the most common of all diseases. It reddens the skin, itches, oozes, crabs and scales, over and over again! Salt rheum comes from humors in the blood. This is why local applications do so little good. Ask your druggist for Hood's Sarsaparilla. It goes to the source of the trouble. It cleanses the blood and has given perfect satisfaction in thousands of cases. Get it to-day.—Advertisement.
