BALKAN RIDERS CROSS SEA TO JOIN CIRCUS

Men and Women From Balkan Mountains Coming Here With Ringling Bros.

The Balkans, a family of native Balkan riders who are to be seen here with Ringling Bros' circus on Friday, May 15, were discovered by the famous trainer of blooded horses, Albert Hodgini, upon his last trip to Europe. While in quest of novelties, Hodgini traveled through the Balkan mountains and happened upon a native fete day celebration. Here he witnessed this marvelous family in their wild feats of horsemanship and dagger contests. Hodgini immediately cabled Ringling

Brothers a description of the act and the reply was to engage at any cost. As a rule the horses employed in the circus are carried on a different train from that used by the performers. But the Balkans would not hear of being separated from their mounts and a special car was built for them. They occupy quarters in one end of the coach while the other is fitted with stalls for the band of Mongolian stallions used in their fascinating act. — Advertisement.

INDIANA COUNTY GREET'S PENROSE

Senatorial Candidate Receives Ovation in the Old Borough at Night Meeting

Indiana county gave evidence of its weariness with Democratic tariff tinkering and fiddle faddling yesterday when the biggest crowd attending a political meeting in a decade turned out to greet Senator Penrose. The Senator toured the county and made several speeches.

At night a meeting was held in Indiana and was one of the most enthusiastic Senator Penrose has attended since coming to Western Pennsylvania. He was cheered as he took the platform and when he was presented by Aaron Steele, an old soldier and old-line Republican, who referred to Senator Penrose as a man who had performed great service at Washington for Pennsylvania and the country and was applauded when he declared that "the people will re-elect him."

weeks I have been in Western Pennsylvania and I have found in the counties of this section as much dissatisfaction with Democratic administration as prevails generally throughout the State. In 1912, the people of this country thought they wanted a change. Now they have had all the change they desire. The business and industrial conditions in Pennsylvania due to the Democratic tariff act has alarmed every business man, mail factor and wage-earner. It was the protective tariff system that made possible the development of the coal fields and other industries in Indiana county and it is only through that system that the prosperity of this country can be restored.

"For two years we have had at Washington an exhibition of Democratic ignorance and incompetency. This has been emphasized only recently in our relations with Mexico. This Republic has been humiliated before the other nations of the world by the administration's Mexican policy. Now we are in Vera Cruz. We do not know why we are there and do not know how to get out."

Dimmick in Bedford

A Philadelphia Ledger dispatch from Bedford says: "J. Benjamin Dimmick, candidate for Republican nomination for United States senator, was hailed last night in the county courthouse as the man who put Bedford on the senatorial map. Professor J. H. Wright, ex-county superintendent of schools and now cashier of one of the banks, introduced Mr. Dimmick to his audience and advanced this idea:

SPANISH WAR VETS TO GREET OFFICIAL

Department Commander Will Pay Official Visit to This City Monday

Thomas M. Stalford, department commander of the United Spanish War Veterans, will pay an official visit to Harrisburg Camp, No. 8, Monday evening.

The members of the local camp have arranged a special meeting to receive Commander Stalford at their regular meeting place, G. A. R. Hall, Third street, and invitations have been issued to all veterans of the Spanish War to attend whether members of the local camp or nonmembers.

An interesting program has been arranged. There will be speeches by local prominent members as well as by Mr. Stalford.

Harrisburg Camp during the last quarter has mustered many new recruits and took second honors among the Pennsylvania camps for reaching the second highest percentage of increase in membership. The camp adjutant, W. P. Messinger, has recently arranged to prepare brief biographies

of the deceased Spanish War veterans, including their military service in particular, and this will be followed by biographies of those veterans now living in Harrisburg and vicinity. The camp is arranging to secure United States government gravestones for all unmarked graves of Spanish War veterans buried in the several cemeteries in this vicinity.
